Course Description

- Clinical Internship is a capstone course and work-based learning experience designed to provide students with real-world application of skills and knowledge obtained in a pre-requisite Health Science course. Upon completion of this course, proficient students will be able to pursue certification in the pre-requisite course of Cardiovascular Services, Exercise Physiology, Medical Therapeutics or Pharmacological Science. Prior to beginning work at a clinical site, students must be certified in Basic Life Support (BLS) Cardiopulmonary Resuscitation (CPR), and deemed competent in basic first aid, body mechanics, Standard Precaution guidelines, and confidentiality.

Mission Statement

- The mission of the Clinical Internship course is to intentionally engage and connect the student in the clinical setting, while giving them a real-world experience into the healthcare field. Classroom instruction will prepare them with the essential skills and knowledge necessary, by creating an environment where theory meets industry practice.

Course Overview

- Personalized Learning Plans (PLP)-Identifies long-term goals
- 21st Century learning and innovation skills-Critical Thinking, Communication, Initiative, Cultural Competence, Teamwork, Technology, Productivity
- Safety Guidelines; Standard Precautions; Infection Control
- Organizational Culture in the Workplace
- Quality Assurance Methods
- HIPAA
- Integrity and Ethical Behavior
- Communication
- Professionalism
- Time Management and Accountability
- Educational and Career Development Plan
