

***School Immunization Exclusion Day is Wednesday, February 15, 2023. We want to remind families to ensure their student(s) immunizations are up-to date.***

School Immunizations are required by state law for children and students in attendance at public and private schools, preschools, childcare facilities, and Head Start programs in Oregon. Nearly every facility that provides care for a child outside of the home requires immunizations or a medical or nonmedical exemption to remain enrolled.

**Children who are not current on their immunizations by Wednesday, February 15, 2023, will be excluded from school until their immunizations are up to date.**
