- 12/19-1/3: Student Christmas Break

*Reading Recess meets every
Tues/Thurs through December 13
until 4:45

*Cheer meets every Mon/Wed
until 4:00

Red Ribbon Week

Our students had an awesome time learning about being drug free during Red Ribbon Week. Students enjoyed dressing up for each day's theme, walking in the parade, and participating in Trunk or Treat to culminate the week. We loved seeing so many community volunteers come in to walk with us and help with Trunk or Treat. Thank you to everyone who helped make the week a success!

Mrs. Threatt's Class

Mrs. Threatt's class visited Poppell Farms where they had a blast learning about the importance of agriculture in our community. They were able to enjoy some farm activities, pick their own pumpkin, and have a picnic by the pond. They have also joined the Adopt A Cow Program. Meet their baby calf Magic! She is a heifer (female) from Big Sandy Creek Dairy in Madison, GA where she lives a happy healthy life. They receive virtual updates and fun pictures of her each week.

2nd Grade: Mrs. Sitzman

All second grade classes just finished reading the book *Charlie and the Chocolate Factory*. They have been learning about character, setting, and plot, as well as working on reading comprehension and other reading skills as they read the story. The students loved the book so much that the second grade teachers decided to watch the movies to compare and contrast the book with both movies. Here's Mrs. Sitzman's homeroom class enjoying their chocolate party.

3rd Grade: Mrs. Warnock

Ms. Warnock's classes have enjoyed working with different task cards, going to the library, and reading during centers in class! They also enjoyed the Red Ribbon Week parade and all the fun dress up days!

4th Grade: Mrs. Nance

Learning about the Moon Phases has been a fun lesson for the students. What makes learning even more interesting? COOKIES! Mrs. Nance's class engaged in a hands-on activity using Oreos to create the different phases of the moon. Not only was this activity informational, but it was delicious. Can you name the phases of the moon?

5th Grade: Mr. Dykes

Mr. Dykes' class just finished their math unit on decimals. First, the students learned how to read, write, and compare decimals to the thousandths. They participated in numerous small group sessions that focused on decimal place values. Next, they learned the operations of multiplication and division of decimals. Here the students learned the importance of decimal movement through these operations.
