Dear Margaret Mace School Families,

At Margaret Mace School, we are committed to fostering open communication between our school and families to ensure the success and well-being of our students. To enhance the effectiveness and efficiency of our communication channels, the North Wildwood Board of Education has recently adopted and will implement a Chain of Command process.

The Chain of Command process is designed to provide clarity and structure to our communication channels, ensuring that inquiries, concerns, and feedback are addressed promptly and efficiently. By following this process, we aim to streamline communication and ensure that all voices are heard and attended to in a timely manner.

We believe that the implementation of the Chain of Command process will facilitate smoother communication between our school and families, enabling us to work together more effectively in supporting the success and well-being of our students. Attached is the North Wildwood School District Chain of Command, which is also posted on the District website.

Should you have any questions or require further clarification regarding the Chain of Command process, please do not hesitate to contact us. We value your partnership and look forward to continuing to work together to provide the best possible educational experience for our students.

Thank you.

Yours In Education,

Jonathan Price

Jonathan Price, Superintendent
