## SUGGESTIONS FOR STUDENTS AND PARENTS

The following are some suggestions for students and parents that will help students have a happy and successful year.

### MESSAGE TO STUDENTS

- \* To avoid falling behind in your schoolwork, begin the school year by devoting enough time every day to study in all subject areas.
- \* Be present and on time for all classes every day unless seriously ill.
- \* Be honest and tell the truth at all times; never cheat or steal.
- \* Show respect for those in authority: your parents, teachers, church leaders, police, and government officials.
- \* You are a person of worth and dignity. Make your life honorable. You only live once. This is NOT a dress rehearsal.
- \* Respect the life and personal rights of the other person.
- \* Avoid violence; there are other ways to resolve conflicts.

### MESSAGE TO PARENTS

- \* You are your children's first teachers. Be a good example for them to follow. Children want to belong to a happy, loving family, so strive to build a strong family unit.
- \* Teach respect, good manners and hold high expectations for your children to be successful in schoolwork and in their future endeavors.
- \* Encourage your children to learn well and to do their best at all times. There is an old saying that is true today: "Give to the world the best you have and the best will come back to you".
- \* Teach your children to avoid fighting and other forms of violence and to look for other ways to resolve conflicts.

## STUDENT EXPECTATIONS

We, the School Board of the Greenwood Leflore Consolidated School District, believe that each student is unique and has the potential for making positive contributions to society. We recognize that in order to function in society, individuals need to master certain basic skills and need to continue learning throughout life. We believe that while learning, the need for and the value of group dynamics, individuals will come to know, to appreciate responsibilities, and to value resultant privileges. Finally, we believe that each individual needs to develop awareness of sensitivity to creativity in all things whether they are functional or aesthetic. Therefore, we commit ourselves in a cooperative effort with parents and the community to provide an atmosphere that will allow all students to:

1. Be accountable for their own actions and to realize that with privileges, come responsibilities.
2. Acquire the values and attitudes necessary for responsible citizenship.
3. Display a positive attitude toward learning and the school environment.
4. Know and obey the rules and decisions of those in authority.
5. Demonstrate an appreciation for the dignity and integrity of all.
6. Respect persons belonging to various cultural, social, and ethnic groups.
7. Develop a sense of responsibility to groups in which you participate.

Public schools serve many age groups whose rights differ according to their levels of maturity. We believe that a public school must be an orderly environment in which learning is not jeopardized by disruptions. Within these limitations, students must be given opportunities to have responsibilities to accept the reasonable exercise of authority. One of the most important student responsibilities is to obey a school rule or policy until such a rule or policy is revoked. A necessary assumption is that students will accept the responsibilities inherent in their rights and that school members will use their authority with respect for the integrity and human dignity of their students.

The Board is responsible for setting up guidelines for governing schools, for providing a proper educational climate, and for the discipline of students. It is the policy of the Board that the basic predicate of the order will be maintained in our schools. First priority will always be given to the safety of our students and the attainment of quality education, free from disruption and for those students who seek and accept the concomitant responsibilities.

**STUDENT DISCIPLINE POLICY**

## **General Provisions**

The Board of Trustees has determined that disciplinary referrals made by teachers to the office of the principal are of a serious nature and that such referrals will be handled in accordance with regulations set forth in School Board Policy JD. Punishment for misbehavior will be administered in accordance with the six (6) steps of the Discipline Ladder (see page 15) as outlined further in this document.

As one can see, incentives are provided for the student to improve his/her behavior through provisions of a probationary period that allows a student to remove himself/herself from the Discipline Ladder by improved conduct.

A parent/guardian conference with an administrator is required before a student can return to school after a Step 4 suspension.

Failure to complete the punishment as designated or repeated violations will result in escalation to the next step in the ladder.

Return to the office during the probationary period prescribed in the Discipline Ladder may result in escalation to the next step.

Loss of privileges means that during the time stated the student cannot participate in a defined privilege as listed under the Discipline Ladder.

Whenever a student is suspended, the parents or legal guardian will be notified immediately. Since scholastic standing is usually jeopardized when class activities are interrupted for a length of time, the suspension should be as brief as possible, consistent with bringing about cooperation between student, parents, and school personnel.

Violations involving possession of controlled substances, weapons, or dangerous instruments on educational property will be reported to the Principal, School Resource Officer, Superintendent, Police Office, and the Youth Court Judge.

Policies: JCB – JD – JDB – JDC – JDD – JDE - JCAA

## **ASBESTOS HAZARD EMERGENCY RESPONSE ACT**

Please be informed that during the 2019-2020 school year all of the school buildings of the Greenwood Leflore Consolidated School District will be inspected for asbestos as required by the Asbestos Hazard Emergency Response Act. Management plans were developed with copies being forwarded to the Mississippi State Department of Education where they met all requirements and are on file. The Management Plans are updated from time to time as the need arises and as required by AHERA. AHERA requires a re-inspection every three (3) years by an AHERA certified inspector with the latest re-inspection being June 2016.

A copy of the results of the inspection, along with a Management Plan, is on file in the office of the principal in each school and the office of the superintendent of schools, located at 401 Howard Street. Any interested party should feel free to go to any of these locations to read these reports.

### **LOST AND FOUND**

All articles found in or about the school building or grounds should be taken to the principal's office. If you have lost an article, please go by the principal's office and see if it has been turned in. Articles will be kept only six (6) weeks after they have been turned in.

### **SCHOOL RESOURCE OFFICER**

The School Resource Officer is an officer commissioned by the Greenwood Leflore Consolidated School District that is certified by the Mississippi Board of Peace Officer Standards and Training as a **Police Officer**. The officer is responsible for law enforcement, teaching within the area of expertise, security administration, and first level counseling of students. The School Resource Officer supervises, oversees, and manages a comprehensive security/safety program for all employees and students of the school. The School Resource Officer ensures accurate information is provided to administrative personnel related to alleged security/safety violations and acts of vandalism against school property.

### **MISSISSIPPI SCHOOL SAFETY ACT OF 2001**

The School Safety Act of 2001 is cumulative and in addition to the school district's existing authority regarding discipline of students. Pursuant to the Act, the school district has adopted policies and procedures that recognize the teacher as the authority in classroom matters regarding the school district's written discipline code of conduct. Policy JCB

In the event, the teacher removes a student who in the professional judgment of the teacher, is disrupting the learning environment, and the removal is approved by the principal or assistant principal, the student may not return to the classroom until a conference has been held with the student's parent, guardian or custodian. During the conference, the disruptive behavior will be discussed and agreements reached that no further disruption will be tolerated. The conference may be in person, by telephone, by e-mail or by other written communication.

Among other provisions, this act provides that a 13 year of age or older may be subject to automatic expulsion on the third occurrence of habitually disruptive behavior during a school year. (Students under age 13 may be subject to expulsion for such conduct pursuant to other school policies and procedures).

The term disruptive behavior means conduct of a student that is so unruly, disruptive or abusive that it seriously interferes with a school teacher's or school administrator's ability to communicate with the students in a classroom, with a student's ability to learn, or with the operation of a school or school-related activity and which is not covered by other laws related to violence or possession of weapons or controlled substances on school property, school vehicles or at a school-related activity. Such behaviors include, but are not limited to foul, profane, obscene, threatening, defiant or abusive language or action toward teachers, students or other school employees; defiance, ridicule or verbal attack of a teacher or a student; and willful, deliberate and overt acts of disobedience of the directions of a teacher.

The term habitually disruptive refers to such actions of a student which cause disruption in a classroom on school property or vehicles, or at a school-related activity on more than two occasions during a school year, and to disruptive behavior that was initiated, willful and overt on the part of the student and which required the attention of school personnel to deal with the disruption.

After the second instance of behavior that is determined by the principal or designated administrator to have seriously interfered with the school environment, the parents/guardians will be contacted to help develop a behavior modification plan for the student.

## **PREVENTION OF VIOLENCE**

It is the intent of the school district, the Local Law Enforcement Agencies, and the Mississippi Legislature for the school to be free of drugs and violence. The Mississippi Legislature passed in 1974 laws that require the Superintendent, Principal, teachers, and any other school employee who have knowledge of or a reasonable belief that a criminal act has been committed on educational property to report all felony and misdemeanor criminal acts to the police, Youth Court, and the parents of any student involved in such act.

## **PARENT CONFERENCES**

1. A parent, guardian or custodian of a compulsory-school-age child enrolled in the school district may be requested to appear at school by the school attendance officer or appropriate school official regarding the action of the child.
2. Any parent, guardian or custodian of a compulsory-school-age child enrolled in the school district who refuses or willfully fails to attend such discipline conference may be summoned by proper notification from the Superintendent of Schools or an authorized school officer and be required to attend such discipline conferences.
3. A parent, guardian or custodian of a compulsory-school-age child enrolled in the public school district shall be responsible for any criminal fines brought against such student for unlawful activity occurring on school grounds or buses.
4. As an alternative to suspension, a student may remain in school by having the parent, guardian or custodian, with the consent of the student's teacher or teachers, attend class with the student for a period of time specifically agreed upon by the reporting teacher and school principal. If the parent, guardian or custodian does not agree to attend class with the student, the student shall be suspended in accordance with the code of student conduct and discipline policies of the school district.
5. A parent, guardian or custodian who has been summoned by proper notification by an appropriate school official is required by legal statute to attend a discipline conference. Mississippi Law also makes a parent, guardian or custodian of a compulsory-school-age child who refuses or willfully fails to perform any of the duties imposed upon him or her shall be guilty of a misdemeanor and upon conviction, shall be fined up to **Two Hundred Fifty Dollars (\$250.00)**.

### **VISITORS AND PARENT CONFERENCES**

Visitors are always welcome but before visitors are permitted to visit the building or classrooms, they must first report to the principal's office where they will be given an identification tag and permission from the principal. Classes must not be disturbed. Parent-teacher conferences should be arranged by appointment for the time set aside each day immediately following the close of school or during a teacher's consultation planning period.

**Notice:** Before visitors are permitted to visit the classroom, they must secure written permission from the principal. Visitors who fail to do so may be referred to police officials.

Policy: JD

### **BULLYING OR HARASSING BEHAVIOR AND STUDENT COMPLAINTS**

Students and employees in the Greenwood Leflore Consolidated School District are protected from bullying or harassing behavior by other students or employees. It is the intent of the Board and the administration to maintain an environment free from bullying and harassing behavior. This complaint procedure provides a process for filing, processing, and resolving complaints of such conduct. Adherence to these procedures is mandatory. The failure of any person to follow these procedures will constitute a waiver of the right to pursue a complaint at any level, including review by the Board.

## I. Definitions

Bullying or harassing behavior is any pattern of gestures or written, electronic or verbal communications, or any physical act or any threatening communication, or any act reasonably perceived as being motivated by any actual or perceived differentiating characteristic that (a) places a student or school employee in actual and reasonable fear of harm to his or her person or damage to his or her property, or (b) creates or is certain to create a hostile environment by substantially interfering with or impairing a student's educational performance, opportunities or benefits.

A "hostile environment" means that the victim subjectively views the conduct as bullying or harassing behavior and the conduct is objectively severe or pervasive enough that a reasonable person would agree that it is bullying or harassing behavior.

Bullying or harassing behavior will not be condoned or tolerated when it takes place on school property, at any school-sponsored function, or on a school bus, or when it takes place off school property when such conduct, in the determination of the school superintendent or principal, renders the offending person's presence in the classroom a disruption to the educational environment of the school or a detriment to the best interest and welfare of the pupils and teacher of such class as a whole.

## II. Procedures for Processing a Complaint

Any student, school employee or volunteer who feels he/she has been a victim of bullying or harassing behavior, or has witnessed, or who has reliable information that a student, school employee or volunteer has been subject to bullying or harassing behavior shall report such conduct to a teacher, principal, counselor or other school official. The report shall be made promptly but no later than five (5) calendar days after the alleged act or acts occurred. The school official shall complete a "Bullying/Harassing Behavior" complaint form which shall include the name of the reporting person, the specific nature and date of the misconduct, the name of the victim of the misconduct, the names of any witnesses and any other information that would assist in the investigation of the complaint. The report shall be given promptly to the principal or superintendent who shall institute an immediate investigation. Complaints against the principal shall be made to the superintendent and complaints against the superintendent shall be made to the Board Chairman.

The complaint shall be investigated promptly. Parents will be notified of the nature of any complaint involving their student. The District official will arrange such meetings as may be necessary with all concerned parties within five (5) working days after initial receipt of the complaint by the District. The parties will have an opportunity to submit evidence and a list of witnesses. All findings related to the complaint will be reduced to writing. The District official conducting the investigation shall notify the victim and parents as appropriate when the investigation is completed and a decision regarding disciplinary action, as warranted, is determined.

If the victim is not satisfied with the decision of the District official, he/she may submit a written appeal to the superintendent. Such appeal shall be filed within ten (10) working days after receipt of the results of the initial decision. The superintendent will arrange such meetings with the victim and other affected parties as deemed necessary to discuss the appeal. The superintendent shall provide a written decision to the victim's appeal within ten (10) working days.

If the victim is not satisfied with the decision of the superintendent, a written appeal may be filed with the Board. Such appeal shall be filed within ten (10) working days after receipt of the decision of the superintendent. The Board shall, within twenty (20) working days, allow the victim and parents as appropriate to appear before the Board to present reasons for dissatisfaction with the decision of the superintendent. The Board shall provide a written decision within ten (10) working days following the victim's appearance before the Board. Policy JDDA

## **Cyberbullying: What you need to know**

### **What is Cyberbullying?**

Cyberbullying occurs when one child or teen uses the Internet, cellphone or other type of social media to harass, embarrass or taunt another child or teen. Often, children use cyberbullying to get revenge on someone, or boost their self-esteem by putting others down. Others do it because they think it's funny or because they are bored. Some examples of cyberbullying include:

- Setting up a profile pretending to be someone else or hacking into someone's social networking profile.
- Posting photos of someone online without his or her permission.
- Harassing someone through text messages, instant messages, or in a chat room.
- Sending embarrassing photos or messages by e-mail or on a cell phone or sharing messages with people other than the intended recipient.
- Writing harmful information or lies on a personal blog or web site.
- Sending a virus to someone's computer.

### **Understanding the law**

Mississippi cyberstalking laws make it a felony to use electronic mail or electronic communication to:

- Threaten bodily harm to a person, or harm to his or her family or property,
- Communicate repeatedly in order to threaten terrify, or harass a person,
- Make false statements concerning death, injury, illness, criminal conduct, or indecent conduct.

The laws also prohibit knowingly allowing anyone else to use your computer or other device to threaten, harass, or make false statements. A conviction can lead to a maximum fine of \$5,000 and up to two years in prison. (Miss. Code Ann. § 97-45-15).

Mississippi recently passed a statute which includes cyberbullying. The definition of “bullying” now includes events involving electronic communication, such as harassing emails or threatening messages online. S.B. No. 2015 (2010). Under the new law, bullying occurs when a victim reasonably perceives that he or she has been threatened or harassed. It does not matter whether the bully intended to threaten or harass the victim. Although cyberbullying usually occurs while students are surfing the net at home, it often translates into problems at school, creating an uncomfortable learning environment. The new law allows schools to discipline cyberbullying that occurs at school or at a school sponsored function and requires students and teachers with knowledge of bullying to report it to a school official.

However, it is ultimately the parent’s responsibility to detect cyberbullying at home. Visit [www.fearstopshere.com/](http://www.fearstopshere.com/) for more information and resources on bullying and cyberbullying.

The Greenwood Leflore Consolidated School District does not condone and will not tolerate bullying or harassing behavior. Bullying or harassing behavior is any pattern of gestures or written, electronic or verbal communications, or any physical act or any threatening communication, or any act reasonably perceived as being motivated by any actual or perceived differentiating characteristic that (a) places a student or school employee in actual and reasonable fear of harm to his or her person or damage to his or her property, or (b) creates or is certain to create a hostile environment by substantially interfering with or impairing a student's educational performance, opportunities or benefits. A "hostile environment" means that the victim subjectively views the conduct as bullying or harassing behavior and the conduct is objectively severe or pervasive enough that a reasonable person would agree that it is bullying or harassing behavior. Bullying or harassing behavior will not be condoned or tolerated when it takes place on school property, at any school-sponsored function, or on a school bus, or when it takes place off school property when such conduct, in the determination of the school superintendent or principal, renders the offending person's presence in the classroom a disruption to the educational environment of the school or a detriment to the best interest and welfare of the pupils and teacher of such class as a whole.

The Greenwood Leflore Consolidated School District will make every reasonable effort to ensure that no student or school employee is subjected to bullying or harassing behavior by other school employees or students. Likewise, the District will make every reasonable effort to ensure that no person engages in any act of reprisal or retaliation against a victim, witness or a person with reliable information about an act of bullying or harassing behavior. The District encourages anyone who has witnessed or has reliable information that a student or school employee has been subject to any act of bullying or harassing behavior to report the incident to the appropriate school official.

The School Board directs the superintendent or designee to design and implement procedures for reporting, investigating, and addressing bullying and harassing behaviors. The procedures should be appropriately placed in District personnel policy handbooks, school handbooks that include discipline policies and procedures, and any other policy or procedure that deals with student or employee behavior. The discipline policies and procedures must recognize the fundamental right of every student to take “reasonable actions” as may be necessary to defend himself or herself from an attack by another student who has evidenced menacing or threatening behavior through bullying or harassing. Furthermore, the Greenwood Leflore Consolidated School District defines “reasonable action” as promptly reporting the behavior to a teacher, principal, counselor, or other school employee when subjected to bullying or harassing behavior.

**Recommended Sanctions:** Step 1-6

### **SECTION I: CORPORAL PUNISHMENT**

Corporal punishment administered in a reasonable manner by the principal or assistant principal acting within the scope of his/her employment or function and in accordance with any state or federal laws or rules or regulations of the State Board of Education or the local School Board does not constitute assault, simple assault, aggravated assault, battery, negligence or child abuse.

No principal or assistant principal so acting shall be named as an individual defendant or be held liable in a suit for civil damages alleged to have been suffered by a student as a result of the administration of corporal punishment, unless the court determines that the principal or assistant principal acted in bad faith or with malicious purpose or in a manner exhibiting a wanton and willful disregard of human rights or safety.

“Corporal punishment” means the reasonable use of physical contact by the principal or assistant principal as may be necessary to maintain discipline, to enforce a school rule, for self-protection or for the protection of other students from disruptive students. Corporal punishment in the form of paddling shall be witnessed at all times by at least one (1) certified school employee, and all

other acts of corporal punishment, as defined herein, shall be witnessed at all times, if possible, by a school employee. Section 37-11-57 (1997)

Corporal punishment for use in this district is defined as punishing or correcting a student by striking the student on the buttocks with a paddle. Either the principal or assistant principal may administer corporal punishment, but in either case, another certified staff member must be a witness. Corporal punishment shall not exceed five (5) swats with a paddle. Corporal punishment may be administered only to punish and/or correct disruptive student conduct. Neither corporal punishment nor the promise of corporal punishment will be used to stimulate academic achievement or to punish academic lapses. Prior to the administering of corporal punishment, the principal or his/her designee shall advise the student of the particular misconduct of which he is accused. The student shall be given an opportunity to explain his or her version of the facts prior to imposition of such corporal punishment. The student shall be informed beforehand of the specific misbehavior which results in the use of corporal punishment. Such punishment should not be administered in the presence of other students or in anger. Policy JDB

## **SECTION II: ALTERNATIVE PROGRAM** ***GLCSD ALTERNATIVE PROGRAM GUIDELINES***

Policy: JCD

The Greenwood Leflore Consolidated School District will follow all applicable state and federal guidelines in regard to alternative education programs. It is the desire of the Greenwood Leflore Consolidated School District to educate students to their fullest Potential under the regular school program. Therefore, students are assigned to the Greenwood Leflore Consolidated School District Alternative Program from the school where they are presently enrolled as a last resort to modify their behavior or as a result of a severe discipline act. The sole purpose of this program is to modify the behavior of the student to the point that they may return to the home school. In order to accomplish this, the cooperation of the parents must be pledged at the time of entry in our program. All students who are referred for placement will be registered with the Leflore County Youth Court and a report of the case will be registered with the Youth Court Judge.

To be assigned to the Greenwood Leflore Consolidated School District Alternative Program, Principals and /or school administrators of the home school will direct all requests for a student admission hearing to the Superintendent or his/her designee. Hearings will be arranged with the parents and principal of the homeschool notified of the time and date in writing. It may be necessary that the student remains at home until the time of such hearing. The Alternative Placement Committee will hear both sides of the case, presented by the Principal (or designee) and parents (if desired), but not in the presence of each other. The decision made by the committee will be recommended to the Superintendent who will make the final disposition and terms of the case. Once approved, the principal will inform parents of the student's placement.

Student records will be maintained and housed by the home school and student information will be transferred daily. All students will enroll in the same courses they were attending at the home school in the basic subjects of Reading/English, Math, Science, and Social Studies. The same requirements will be made of them as it would in the regular classroom, including credits given

under the Carnegie unit system in grades 9-12. However, if a student is enrolled in other classes for credit at the home school, the privilege of attending and participating in these classes will be suspended and in addition, while enrolled in the Alternative program, the student is prohibited from attending and/or participating in any and all school activities and/or programs; and from coming onto any school property other than to attend the scheduled classes affiliated with the Alternative Program.

Once assigned to the Alternative Program, the students must remain until they regain re-admission status. Students will be periodically evaluated for re-admission to their home school. A student's exit from the alternative program will be contingent upon regular attendance, achieving and exhibiting appropriate behavior, and academic progress during his/her assignment in the alternative program. An evaluation by the alternative education staff of the student's behavior, attendance, and academic progress will be performed prior to returning a student to his/her home school. If the student's behavior, academic progress, or attendance has been unsatisfactory, the student will remain in the alternative education setting until more favorable progress can be achieved.

All hearings for exiting the alternative program will be conducted by the same committee members that conducted the admission hearing. While in attendance and upon dismissal, all grades, attendance, and discipline records will be returned to the home school for processing.

#### **Code of Conduct for the Greenwood Leflore Consolidated School District Alternative Program:**

For unacceptable behavior, the student discipline policy will be followed and in more severe cases, the police department and youth court judge may be notified.

#### **Special Education Student Referral Process:**

SPED students referred to the Greenwood Alternative Program will be considered for admission on a case-by-case basis. There must be an IEP committee meeting prior to any placement, which must include a representative from the Greenwood Alternative Program staff, a representative from the home school and a parent. This committee will determine the least restrictive environment and make a recommendation on what is best for the student academically.

The home school is responsible for the SPED student if removal from the Greenwood Leflore Alternative Program becomes necessary or upon successful completion of the IEP goals determined appropriate for the student's return to the home school SPED program. Periodic and appropriate evaluation of the SPED student assigned to the Greenwood Leflore Alternative Program is the responsibility of the home school.

However, the District may not offer temporary placement when the offense upon which the action is based is gang or group-related fighting, violation of prohibitions against weapons or controlled substances, assault of a staff member or other unlawful or violent act.
  - b. The student may be allowed to remain in school if the principal or, in the case of non-admission, the superintendent determines that his continued presence is not detrimental to the normal functioning of the school program and, in such case, the hearing before the Disciplinary Hearing Committee may be held at any appropriate time without application of the 10-day limitation.

However, it is the responsibility of the principal or assistant principal to secure such consent if the suspension was based upon a student's statement regarding the matter.

If the hearing officer upholds the suspension, the parents and student have five (5) school days from the notification by the hearing officer to request an appeal before the School Board of Trustees of the Greenwood Leflore Consolidated School District. The student shall remain suspended or expelled from school during this time.

**STUDENT COMPLAINTS OF SEXUAL DISCRIMINATION/HARRASSMENT – TITLE IX PROCEDURES**

This complaint procedure shall provide a process for filing, processing and resolving complaints on matters related to complaints of sexual harassment/discrimination. Adherence to these

procedures is mandatory. The failure of any person to follow these procedures will constitute a waiver of the right to pursue a complaint at any level, including review by the Board.

## 1. DEFINITIONS

Sexual harassment is an unlawful form of discrimination on the basis of sex under Title VII of Civil Rights Act of 1964, as amended in 1972 and 1991; Title IX of the Education Amendment of 1972 and Mississippi Code annotated & 25-9-149 (Supp. 1991).

Unwelcome sexual advances, request for sexual favors, and other inappropriate oral, written, or physical conduct of a sexual nature when made by a member of the school staff to a student or a student, constitutes sexual harassment when:

- A. Submission to such conduct is made, explicitly, a term or condition of an individual's education;
- B. Submission to or rejection of such conduct by an individual is used as the basis for academic decisions affecting that individual; or
- C. Such conduct has the purpose or effect of substantially interfering with an individual's academic performance or creating an intimidating, hostile, or offensive academic environment. While a single incident of offensive sexual conduct or remarks will generally, not create a hostile environment unless it is severe, such behavior is inappropriate and may subject the student to counseling and/or discipline.

Sexual harassment, as defined above, may include but is not limited to the following:

- Verbal harassment or abuse;
- Unwelcome touching;
- Pressure for sexual activity;
- Repeated remarks to a person which contains sexual or demeaning implications (sexual-oriented, kidding, teasing, double-entendres, jokes, etc.);
- Suggesting or demanding involvement, accompanied by implied or explicit threats concerning one's grades, etc.

## II. Procedures

### A. Application To Students

- 1. Sexual harassment committed by students against other students or staff constitutes misconduct.

2. Students may seek guidance, and/or advocacy in addressing matters related to sexual harassment or inappropriate behavior of a sexual nature. Guidance counselors, administrators, teachers, other school staff, and the Title IX Coordinator located at the Central Office, are available for these services.

3. Filing A Complaint

(a) Any Greenwood Leflore Consolidated School District (GLCSD) student who believes that she or he has been subjected to sexual harassment should report such conduct promptly.

(i) The report can be made verbally or in writing.

(ii) The report can be made to any staff member who will assist the student in reporting to the principal or designee. The report may be made directly to the principal or to the Title IX Coordinator at 401 Howard Street or by telephone, 453-4231.

(b) An investigation will be conducted in a timely manner which could lead to a suspension or expulsion of a GLCSD student as contained in Board Policy JD – Student Discipline.

(c) Findings and appropriate action will be rendered within as timely a manner as practical and reported to the Title IX Coordinator at the Central Office.

(d) There will be no adverse action against an individual for reporting an incident, or participating in or cooperating with an investigation of an alleged incident.

(e) To the extent possible, confidentiality will be preserved consistent with applicable laws and GLCSD's responsibility to investigate and address such complaints.

(f) Any student who violates the sexual harassment policy will be subject to disciplinary action deemed necessary and appropriate, including warning, counseling, suspension, or expulsion. (Expulsions may be warranted if a student has been involved in several incidents of sexual harassment when the school administrators first become aware of the problem.)

B. Application to Staff

1. Sexual harassment committed by staff against students constitutes misconduct.

2. A substantiated charge against a staff member by another staff member of the district shall subject such staff member to disciplinary action, including discharge. Policy: JB - JB-P

Since it is important that complaints be filed and processed as rapidly as possible, the number of days indicated at each step are considered to be maximum and every effort will be made to expedite the process. At any step in the complaint procedure, the time limits may be extended only when necessary under the circumstances. In no event shall these procedures be extended for more than a 90-day period.

If a review is not requested at any time allotted and if the decision at the prior step found a reasonable basis to believe that an employee has engaged in any sexual misconduct or involvement with any student under the age of 18, the Title IX Coordinator shall, immediately upon the expiration of the allotted time, submit such information to the superintendent. The superintendent shall make such information available to the appropriate District Attorney as required by District policy and Mississippi law.

Facts elicited during the complaint procedure are confidential and do not become part of a student's permanent record. A copy of documents, communications and records dealing with the processing of a complaint will be filed in a separate file as designated by the superintendent.

Facts elicited during the complaint procedure that results in adverse disciplinary action against an employee become part of that employee's personnel file.

The failure of a complainant to proceed from one step to the next within the set time limits, without being granted an extension of time by the Title IX Coordinator, shall eliminate any future review concerning that particular complaint.

The failure of the reviewing officer(s) to communicate his/her decision to the complainant or respondent within the time limits shall permit the complainant or respondent to proceed to the next step.

The complainant may withdraw his/her complaint at any step without reprisal. However, a complainant shall not be permitted to refile the same complaint once withdrawn unless it is within the initial time period.

No reprisal shall be invoked against the complainant for filing a complaint or against any person for participation in any way in this procedure. If the complaint is against the student's principal, the complainant may go directly to the Title IX coordinator.

#### **ATTENDANCE POLICY**

The State of Mississippi operates under a Compulsory School Attendance Law (37-13-91) which requires all compulsory-school-age children, as defined as a child who has attained or will attain the age of six years on or before September 1 of the calendar year and who has not attained the age of seventeen years on or before September 1 of the calendar year, to attend school or an approved home school program. Any parent, guardian, or custodian of a compulsory-school-age child who refuses or willingly fails to perform their duty to see to it that the child is in attendance or intentionally falsifies any information required to certify enrollment shall be guilty of contributing to the neglect of a child. If convicted, the parents shall be punished in accordance with the provisions of Section 97-5-39 of the Mississippi Code of 1972.

For the purpose of definition, Section 37-13-91 of the Mississippi Code of 1972 uses the following terms:

- (a) “Parent” means the father or mother to whom a child has been born or the father or mother by whom the child has been legally adopted.
- (b) “Guardian” means a guardian of the person of a child, other than a parent, who is legally appointed by a court of competent jurisdiction.
- (c) “Custodian” means any person having the present care or custody of a child, other than a parent or guardian of said child.
- (d) “School” day means not less than five (5) and not more than eight (8) hours of actual teaching in which both teachers and pupils are in regular attendance for scheduled schoolwork.
- (e) “School” means any public school in this state which is in session each school year for at least one hundred eighty (180) school days.

- (f) “Compulsory” school-age child means a child who has attained or will attain the age of six (6) years on or before September 1 of the calendar year and who has not attained the age of seventeen (17) years on or before September 1 of the calendar year. Students who enroll in the Greenwood Leflore Consolidated School District and are not of compulsory school age will be subject to the same policies and procedures of those students who do fit the law. For the purpose of this policy, any and all children enrolled in the Greenwood Leflore Consolidated School District will be referred to as the student.
- (g) School attendance officer means any full-time employee of the Youth Court or Family Court assigned to monitor compulsory public-school attendance, to investigate nonattendance of compulsory-school-age children, and to counsel all school-age children to attend school.
- (h) Appropriate school official means the Superintendent of the school district or his designee or the school principal.
- (i) Certificate of Enrollment means a registration of the following information: - the name, address, and date of birth of the student, - the name and address of the parent, guardian, or custodian of the student; - a simple description of the type of education the student has received at the previous school, along with the name and address of such school; - the signature of the parent, guardian, or custodian of the student.

Policy: JBA

Regular attendance and promptness to class are necessary to assure the continuity of the educational program. Time lost from class is irretrievable and absence tends to disrupt the continuity of the instructional program. Most teaching is done in an orderly sequence of building concepts and practice based on classroom activities and previous learning. If this pattern is broken by poor attendance, neither the student nor the school can expect satisfactory progress. Consequently, lack of attendance is believed to be a major cause of student failure.

All absences are considered excused or unexcused.

1. **Excused Absence** - Each of the following shall constitute a valid excuse for temporary nonattendance of a student enrolled in the Greenwood Leflore Consolidated School District when evidence of the excuse is provided *in writing (Parents need to include date of absence and reason for absence. The school must date when the excuse was received)* to the principal of the school in which the student is enrolled:
  - A. Personal illness - Absence that results from illness or injury which prevents the student from being physically able to attend school.
  - B. Serious illness or death in the family - Absence resulting from the death or serious illness of a member of the immediate family (children, spouse, grandparents, parents, brothers, and sisters, including stepbrothers and stepsisters) of a student.
  - C. Required attendance at a court proceeding - Absence resulting from the attendance of a student at the proceedings of a court or an administrative tribunal if such student is a party to the action or under subpoena as a witness.

- D. Medical or dental appointments
- E. Medical isolation - Absence when isolation of the student is ordered by the county health officer, by the State Board of Health, or by the Superintendent or his designee.
- F. Religious reasons - Absence when the religion to which the student or student's parents adheres, requires or suggests the observance of a religious event. The approval of such absence is within the discretion of the school principal and should be granted unless the religion's observance is of such duration as to interfere with the education of the child
- G. School activity - Absence that results from the student's attendance of an authorized school activity with the prior approval of the principal. Such activities may include field trips, athletic or academic contests, student conventions, musical festivals, and any similar activity.
- H. Educational opportunity - Absence of the student for the purpose of taking advantage of a valid educational opportunity such as travel, including vacations or other family travel. Graduating seniors may be granted permission to visit college campuses for the purpose of obtaining information or seeking admission. Such requests must be made to the principal in writing in advance of the day the absence is to occur, but such approval shall not be unreasonably withheld.
- I. Other absences - Absences beyond the student's and parent's control that indicate conditions are sufficient to warrant the student's non-attendance. Cases will be reviewed on an individual basis by the principal.

2. Unexcused Absence

- A. All absences other than those listed above are considered to be "unlawful absences" because the absence is not due to a valid excuse for temporary non-attendance.
- B. After the fifth (5<sup>th</sup>) unexcused absence, remaining absences will be reported to the school attendance officer of the Youth Court. Any parent, guardian or custodian of a student subject to the provisions of the law who refuses or willfully fails to perform any of the duties imposed upon him or her under the provisions of the law or who intentionally falsifies any information required to be contained in a certificate of enrollment, shall be reported to the appropriate authorities and subject to punishment in accordance with the provisions of Section 97-5-39, Mississippi Code of 1972.
- C. If a student has not been enrolled in a school within fifteen (15) calendar days after the first day of the school year of the school which such student is eligible to attend or such child has an accumulated ten (10) unlawful absences during the school year of the school in which such child is enrolled, the principal shall report such absences to the school attendance office of the Youth Court or Family Court.
- D. Unexcused absences will be addressed in the district's discipline ladder.

Policy: JBA

## Make-up Work for Required Assignments

All required work missed for any reason must be made up in accordance with school policies. The policy shall be:

1. Upon returning to school from any absence, the student will be given two days to complete any graded required work for each day of absence beginning with the day after he/she returns to school. In extreme cases of excused absences, extended time for completing the work may be granted by the teacher. No additional time may be granted for unexcused absences.
2. All graded required work made up after an excused absence will be given the same credit as if the student was in school on that day.
3. All required work missed because of an unexcused absence must be made up in accordance with the make-up policy. However, full credit may not be given for this work and any grades taken during this absence will result in a grade not greater than that of sixty-five (65).
4. When a student's absence from school is because of representing the school on official business, e.g. sports, band, choral activities, etc., teachers will be notified two days in advance by the activity sponsor. However, the student has the responsibility of checking with the teacher and completing all work missed. Preferably, this will be done in advance of the absence, but certainly within the timeline of other excused absences.
5. All graded required work missed for any absence, excused or unexcused, that is not made up in accordance with the above policy will result in a grade of zero (0).

Policy: JBD

## **HOMEBOUND PROGRAM**

The Homebound Program is designed to provide tutorial services to students only in unusual circumstances in which his/her absences are for an extended period due to illness or accident for more than five (5) consecutive school days. While it is our desire to work with any student who must be absent for an extended period of time to make-up work, each case must be evaluated to determine eligibility. However, even when the nature of the illness/accident is such that the students/parents/guardians may work with the school to obtain assignments and make-up work, all students who are absent from school must be counted as absent, regardless of excuse, until they have been approved and officially enrolled in the Homebound Program using the following procedures.

1. The student's parent, legal guardian, or custodian must make a request to the school principal for enrollment in the Homebound Program and complete all necessary forms **AT THE TIME OF ILLNESS OR ACCIDENT**. The student's absences must be the result of illness/accident diagnosed by a physician. A written statement from the physician verifying that the illness/accident will prevent the student from attending school more than five (5) consecutive days must accompany the request. This request will be forwarded to the school nurse for review and further documentation.

2. After having been screened and reviewed by the school nurse, the request must receive written approval from the Coordinator of the Homebound Program at the Central Office. Notification of approval or rejection will be sent in writing to the parent, school, and teachers involved. **UNTIL THE STUDENT HAS BEEN OFFICIALLY ACCEPTED FOR ENROLLMENT IN THE HOMEBOUND PROGRAM, THE STUDENT MUST BE COUNTED ABSENT USING THE NORMAL ATTENDANCE POLICY REGULATIONS AS TO BEING EXCUSED OR UNEXCUSED.**
3. If approval is granted, a certified teacher will be assigned to work with the student, to provide instruction. Even though the work may be modified, to receive credit for work accomplished, all assignments must be turned in as directed by the school and checked by the appropriate teacher. In this case, **THE STUDENT WILL BE COUNTED IN ATTENDANCE ONLY ON THE DAYS OF SERVICE BY THE ASSIGNED TEACHER.**
4. In severe cases, where the student's condition may be determined to be medically fragile and the student will not be able to attend school for more than twenty (20) days, the Coordinator of the Homebound Program may refer the case to the Director of Special Education to determine if a physically handicapped condition exists. If the determination is made to rule the student eligible for **SPECIAL EDUCATION SELF-CONTAINED HOMEBOUND PLACEMENT**, in addition to receiving instructional services, the student will be counted as present according to the attendance policy of the school district.

#### **Policy: IDDC**

#### **EARLY PICK UP**

Please consider that when students are picked up, they miss valuable instructional time; also note that the last period is an instructional period and leaving school before 3:15 p.m. ensures that students will lose instructional time. Please do not schedule early pick-ups if it is not a dire emergency so that students will not get behind academically. ***In order for a student to be considered present for ADA purposes, he/she must be in attendance at school or at an authorized school activity for at least sixty-three percent (63%) of his/her instructional day. A student who is absent more than thirty-seven percent (37%) of his/her instructional day will be considered absent the entire school day. The instructional day for each school and/or student will be fixed by the school board. Refer to MS Code 37-13-9.***

#### **CLEARANCE PASSES**

Students must show clearance passes to **ALL** teachers once they return from out-of-school suspensions, in-school suspension, and excused and unexcused absences.

## COMMUNICABLE DISEASES

This school board has the power, authority, and duty to exclude from the schools with what appears to be infectious or contagious diseases; provided, however, such student may be allowed to return to school upon presenting a certificate from a public health officer, duly licensed physician or nurse practitioner that the student is free from such disease. MS CODE 37-7-301)

HEAD LICE for any student who has had head lice on three (3) consecutive occasions during one (1) school year, the principal shall notify the county health department of the recurring problem of head lice with that student. The student shall not be allowed to attend school until proof of treatment is obtained. MS CODE 41-79-21 (1999)

### MENINGOCOCCAL DISEASE

Local school boards shall ensure that all public schools and agricultural high schools provide parents and guardians with information about meningococcal disease and the effectiveness of vaccination against meningococcal disease. Such information may be provided through the school district Web site, student handbook or other appropriate means of dissemination of information. Such information shall be updated annually if new information on such disease is available. This information shall include the causes, symptoms, and means by which meningococcal disease is spread and the place where parents and guardians may obtain additional information and vaccinations for their children. Nothing in this section shall be construed to require a local school board or school to provide or purchase vaccine against meningococcal disease.

Decisions regarding an HIV-infected student shall be based on an individual basis with regard to the behavior, neurological development, physical condition of the student, and the expected type of interaction with others in that setting. These decisions shall be made using the team approach including the child's physician, public health personnel, the child's parent or guardian, and personnel associated with the educational setting. In each case risks and benefits to both the infected student and to others in the setting shall be weighed as conditions change. Cases may be re-evaluated.

**Policy: JLCCA - JGCC**

- Beginning in the 2014-2015 school year, a student scoring at the lowest achievement level in reading on the established state assessment for 3<sup>rd</sup> grade will not be promoted to the 4<sup>th</sup> grade.
- A 3<sup>rd</sup> grade student who fails to meet the academic requirements for promotion to the 4<sup>th</sup> grade may be promoted for good cause.

- Students who demonstrate an acceptable level of reading proficiency on an alternative assessment approved by the State Board of Education
- Students who receive intensive intervention for two or more years but still demonstrate deficiency in reading, and who previously were retained for two (2) years in any grade Kindergarten through 3<sup>rd</sup> grade

A = 90 - 100

B = 80 - 89

C = 70 - 79

D = 65 - 69

All students in grades 7-12 will be enrolled in the required subjects of mathematics, language arts, reading, science, and social studies and in other elective subjects. All students in grades 9-12 will be enrolled at the appropriate level in the subjects that are required for graduation.

For each class a student is enrolled, grades will be earned throughout the nine-week period on daily assignments, projects, and unit tests by assessing critical skills and required curriculum competencies taught during that grading period.

A. Carnegie Units for Grades

Since Carnegie Units (credits) are awarded based on the students having a 65 or above final average of each course at the secondary level, the grades of students at this level should accurately reflect their ability to process the critical skills and required curriculum competencies that were taught during each grading period.

It shall be the policy of the district that any student may earn Carnegie units through completing specified online courses listed in the approved courses for the secondary schools of Mississippi and taught by a highly qualified, certified teacher. Permission to enroll in any on-line course that will be considered to earn Carnegie units toward graduation must be granted in writing by the principal or his/her designee prior to enrolling in the class.

In semester courses offering 1/2 Carnegie Unit (credit), the semester average must be 65 or above to pass the course and receive the credit. In full year courses offering 1 Carnegie Unit (credit), the yearly average must be 65 or above to pass the course and receive the credit. However, on yearly courses, if the student fails one semester and the other semester grade is not high enough for a year's passing average, the student must repeat the entire course\* and the credit is not earned until the course is passed.

\*In cases where the student has shown active participation toward completing the required competencies, yet still needs extra time to gain a passing average, an after-school tutoring program and/or extended session may be offered to enable the student to successfully complete the class.

Calculating GPA (Weighted Grading System)

Certain courses in grades 9-12 are designed to rigorously challenge students who wish to meet the opportunities they afford. To encourage students to work at their maximum ability, a weighted grade point system is developed for use in class ranking, overall grade point averages, and honors. All advanced courses are weighted according to their difficulty beyond normal expectations. The advanced courses are:

- 1 - EXCEL Courses \*
- 2 - Advanced Placement / Courses \*\*
- 3 - Chemistry
- 4 - Physics

- 5 - Trigonometry
- 6 - Advanced Algebra
- 7 - Pre-Calculus
- 8 - Probability & Statistics

As stated in the section on report cards, averages on report cards shall be listed numerically. For the purpose of calculating Grade Point Averages (GPA) and determining class rank, quality points will be applied to the letter grade that represents the semester numerical average in each subject average according to the following scale:

- Grades:  
Numerical Average  
 A – 90-100  
 B - 80-89  
 C - 70-79  
 D - 65-69  
 F - 64 and below

Regular Courses (Weighted)	Accelerated Courses (Un-weighted)	Advanced Placement/ Dual Credit Courses (Weighted)
A - 4.0	A - 4.5	A - 5.0
B - 3.0	B - 3.5	B - 4.0
C - 2.0	C - 2.5	C - 3.0
D - 1.0	D - 1.5	D - 2.0
F - 0.0	F - 0.0	F - 0.0

When determining the Valedictorian and Salutatorian in the case of a tie, a numerical average will be calculated using the same procedure. A student must attend current high school for the entire four years to be considered for the Valedictorian or Salutatorian.

It shall be the policy of this district that:

1. All 9th and 10th grade students must be enrolled in classes for a full period day. All 11th and 12th grade students who plan to leave school to go to work must (1) enroll in Career Pathways, or (2) enroll in an NJROTC class and be affiliated with the NJROTC Partnership Academy School-to-Work Program; (3) enroll in the Dual Credit Program. Other 11th and 12th grade students will not be granted this privilege unless extreme circumstances exist. Recommendations to consider this exception shall be made by the Principal to the Superintendent. However, approval of this exception must be granted by the School Board.
2. No student may be enrolled in two English classes simultaneously.

3. Consideration must be given to allow a student to take English I, II, III or IV as a new subject in summer school when extreme circumstances exist. Recommendations to consider this exception may be made by the Principal to the Superintendent. However, approval for this exception must be granted by the School Board.
4. English may not be taken as a correspondence course.
5. A student may earn a maximum of one (1) Carnegie unit during a single summer school session. No more than a total of four (4) Carnegie units earned in a summer school program may be counted toward graduation.
6. A student who fails to meet the graduation requirements is not permitted to participate in the graduation exercises.
7. Students will be recognized as graduating with honors when they have maintained a 3.0-3.49999 QPA; highest honors when they have maintained a 3.50-3.999 QPA; and highest honors with distinction when they have maintained a 4.0 and above QPA. To further qualify, their courses of study must have **included:**
  - a) Algebra I or Algebra I EXCEL;
  - b) Geometry or Geometry EXCEL;
  - c) Algebra II or Algebra II EXCEL;
  - d) Biology I or Biology I EXCEL;
  - f) Human Anatomy and Physiology;
  - g) World History or World History EXCEL;
  - h) 1-AP Course;
  - i) Foreign Language or Advanced Elective
  - j) 1-Dual Credit Course

C. The EXCEL and Advanced Placement Program on High School campuses

\*The EXCEL Program provides a demanding four-year academic experience for students in grades 9-12. Students identified as the most academically talented and promising students in those grades will be invited to participate in the EXCEL program at grade nine. Setting out on a separate course of achievement during their high school years, a challenging environment will be marked by unique activities, experiences, and concerns. EXCEL will provide a prestigious and highly rewarding academic world designed to meet the needs, interests, and capabilities of students in this program.

Because the practice of what is learned is the essence of being educated, the staff members directing and working in this program will require that the students in EXCEL reach new levels of participation. Through intellectually demanding processes and activities, these courses are designed with innovation and enrichment being the keys to whatever is done in the program. EXCEL, staff members believe, is unique in its stringent demands, its reach into the community at large, its development of records and files for scholarship assistance,

its provision of special opportunities for social growth, its recognition factors, and its enriched course content and structure. This environment permits unusual freedom with high expectations for student participants and staff.

The invitation to participate in the High School EXCEL Program will be offered to all students identified as eligible under the admission policy. Those who wish to be members of EXCEL will sign the request form signifying their desire to be enrolled in the program during their high school years. In addition, their parents will be asked to sign the form signifying parental support of their child's participation in EXCEL and their desire to work with these students and help to see that the ultimate objectives of EXCEL are reached. The students who choose to accept membership in EXCEL must understand that they are making a full and unequivocal commitment to academic excellence which will demand their best efforts. That commitment will extend throughout the student's high school years and will require the highest levels of motivation and intellectual application.

Students will be admitted to EXCEL by meeting the following requirements:

- a. Must enroll in an academically challenging curriculum that will include advanced placement and enriched courses. The student's program of studies must be approved by a screening committee composed of administrators, counselors, and EXCEL teachers.
- b. Must maintain a 3.2 quality point average in all course work.
- c. Must be at or above the 70 percentile on the total score section of an achievement test.
- d. Must have a favorable referral from the four-academic core faculty member(s).
- e. Must plan to earn at least 24 Carnegie units prior to graduation.
- f. Must perform and document a minimum number of hours of community service. The number of hours will be decided and approved by the EXCEL screening committee.
- g. Must serve as in-school tutors and assume a positive leadership role in the school.
- h. In order for students to receive the quality points offered in EXCEL classes, they must maintain a 75 or above average in the EXCEL class and meet the community service requirement above.

\*\* Also, as a part of the EXCEL Program, Advanced Placement Courses (AP) are administered by the College Board under the advice of the Council on College-Level Services. Teachers in these courses must attend advanced training in order to teach from the AP prescribed curriculum. At the end of the course, students may be administered an Advanced Placement Test by the Educational Testing Service. These tests are designed for the particular subject they are taking. In addition to receiving regular high school credit, successful completion of this test entitles the students to receive college credit from any cooperating institution of higher learning. The cost of the exam will be incurred by the student. Students taking an EXCEL, or an AP class are not eligible to attend extended school to pass these courses. Student progress will be monitored each 9-weeks. Students will be removed from an EXCEL, or AP class if they are failing at the end of the grading period and will be placed in a regular class.

It is the intent of the School Board to offer rigorous college-level courses at Greenwood High School, and that these courses meet the College Board's expectations and requirements for Advanced Placement courses. It is also the intent of the Board that students demonstrate mastery of the materials in Advanced Placement courses by taking Advanced Placement exams. Advanced Placement exams will be offered to students participating in the program and are a nationally recognized standard for measuring performance in Advanced Placement courses. The cost of the exam will be incurred by the student.

“The Advance Placement Program is designed to enable motivated college-bound students to challenge themselves to complete college-level courses while still in high school and to obtain college advanced placement or credit, or both, on the basis of rigorous AP Examinations”. (*On Behalf of Educational Excellence, the College Board, 1994*)

Policy: IHA – IHAD – IHE – IHF

The Board will make every effort to ensure that the enrollment of the AP classes reflects the diversity of the student’s population. All juniors, seniors, and students that are at least age 16 and are willing to accept the challenge of a rigorous academic curriculum may be admitted to AP courses. Changes from an AP level course to a general level course must be approved by the Principal (or designee) and will be made only in the situation where the determination has been made that the content and objectives of the AP course are too difficult for the based on the student’s aptitude and ability. A student will not be allowed to change to a lower-level course if it is determined that the student’s poor academic standing is due to an unwillingness to do the work, poor attendance or time on-line, and other indications of lack of effort.

Report cards for all students in grades K-12 shall be issued at the end of each nine-week period.

In order for students to receive term, semester or yearly grades, all course or grade level requirements must be met. All term averages (calculated as described in the previous sections) will be based on student performance of required academic work and will be recorded numerically as follows:

A	90-100
B	80-89
C	70-79
D	65-69
F	64 and below

A progress report will be issued to all students in grades K-12 refer to school district calendar. Parents of all students in grades K-12 will be notified of their student’s progress through parent teacher conferences or notices sent out periodically during the year. Principals and teachers are urged to avail themselves of the opportunity to confer with parents so that better understanding of the home and the needs of the students will exist on the part of the school. The potential for learning on the part of each student can be realized only when the home and the school are in accord. The conferences should be just as brief as possible and still achieve the purpose of the conference, and conserve the time of the principal, teacher and parent

A. Recording Grades for Transfer Students

The Greenwood Leflore Consolidated School District will accept transfer students and award credit for grades earned during the school year if the student is enrolled in the Greenwood Leflore Consolidated School District for at least twenty (20) school days. A student enrolled in the Greenwood Leflore Consolidated School District for less than twenty

(20) days will receive an incomplete grade (I), except for those students transferring into the Greenwood Leflore Consolidated School District whose grades in progress at a previously accredited school are sent to the Principal's office. Grades in progress will be averaged with grades received while in attendance in the Greenwood Leflore Consolidated School District.

B. Recording Grades When Work Is Incomplete Due to Absences

When course work is not completed due to absences, an incomplete grade (I) will be recorded on the report card. Make-up work for absences will be in accordance with the absentee policy.

C. Honor Roll

Each nine-week, students in grades 1-12 will be recognized for outstanding grades by being listed on the school Honor Roll. In addition to honoring the students at school, the Principal of the school will announce the students on the Honor Roll by providing the list to the newspaper for publishing. Students considered for Honor Roll must be enrolled in four (4) regular academic courses.

Principal's List	All A's and B's
Honor Roll	All B's

Students with Disabilities

Systematic grading procedures are utilized for students with specific disabilities who are served by the school district's special education program. Special education services may be provided for children who are developmentally delayed; autistic; impaired by traumatic brain injury; language or speech impaired; physically disabled; hearing impaired; deaf; visually impaired; blind; learning disabled; educationally disabled, and emotionally disabled. While the specific guidelines below are primarily used for students receiving special education services, there may be certain cases where students do not meet the criteria for special education, yet specific disabilities cause him/her to be unable to successfully function in the regular classroom without modifications. In either case, an Individualized Educational Plan (IEP) will be written to document identified instructional modifications and/or objectives and the applicable guidelines for assigning grades to these students will also be used.

A. Special Education Students in Resource Classes

If a disabled student receives instruction in a resource class taught by a certified special education teacher, the student will receive grades reflecting the individual achievement on his/her functional level. The procedure used for reporting such grades will clearly denote that a high grade does not necessarily mean that a disabling condition no longer exists.

The grade the student makes on his/her report card is a direct relationship to the number of objectives achieved as stated on the IEP for the grading period. For example, if a student achieves 85% of the objectives in Reading for the first nine weeks, the student will receive an 85 average on the report card. If the student achieves less than 70% of objectives taught, the student may receive a failing grade.

See section on report cards for recording student averages in grades 1-12.

B. Special Education Students in Self-Contained Classrooms

A special education student who receives the majority of his/her instruction in a self-contained classroom taught by a certified special education teacher will not be graded on a numerical system. The teacher of said student will send a progress report to the parents periodically throughout the school year. Reports will be signed by the parent and conferences conducted if necessary.

See section on report cards for recording student averages in grades 1-12.

C. Disabled Students in Regular Classes

If a disabled student, served by special education or otherwise, is taking a class taught by a certified elementary or secondary teacher using the regular school curriculum, said student will be graded as other students in the class. However, all efforts must be made, by the regular classroom teacher and (if applicable) the special education teacher, to make the necessary program modifications that will contribute to the success of the disabled student.

The State Department of Education shall establish goals for the performance of children with disabilities that will promote the purpose of IDEA and are consistent, to the maximum extent appropriate, with other goals and standards for children established by the State Department of Education. Performance indicators used to assess progress toward achieving those goals that, at a minimum, address the performance of children with disabilities on assessments, drop-out rates, and graduation rates shall be developed. Every two (2) years, the progress toward meeting the established performance goals shall be reported to the public. '37-23-133 and '37-23-1 (1999) Policy IHE

Some examples of allowable program modifications to students with disabilities are:

1. Reading a test to the student thus allowing him/her to respond orally
2. Administering a test in the mode in which he/she communicates best
3. Adapting/modifying a particular lesson, unit, or test so that he/she can learn the material in smaller increments
4. Allowing the special education teacher to administer the test/homework during resource room time so that he/she has more time to complete the test and/or homework assignment
5. Sending his/her assignments to the special education resource teacher so that the teacher can assist him/her with daily lessons

6. Assigning a peer tutor to work with him/her on assignments
7. Providing larger print textbooks for visually impaired students
8. Providing proper classroom seating for visually and hearing-impaired students
9. Varying instructional techniques to provide more individualized assistance to students with disabilities
10. Providing a tape recorder for him/her to tape lessons

Any student with disabilities who does not meet the requirements of a course, (after modification is made to adjust for the student's handicap), may receive a failing grade. In the case of a special education student, he/she should be removed from the regular class and placed in a similar class taught by a special education teacher. A recommendation for removal would result in a parent conference and a revision of the IEP must be made. If the parent does not agree that the disabled student should be removed from the regular class, the student shall remain in such class. The decision shall be documented by the regular education and the special education teachers.

See section on report cards for recording student averages in grades K-12. If a student with disabilities, who is enrolled in regular education classes, even when accommodations are made, is a candidate for a regular high school diploma, the criteria for promotion/graduation shall be the same as for any other student.

For a student with disabilities being taught a particular subject or subjects by Special Education Teachers, the IEP (Individual Education Plan) shall specify the expectations/objectives for that student and the means for performance evaluation.

Promotion for students with disabilities in the special education program will be based upon the student's level of performance on IEP objectives.

For every student receiving special education services, there will be consideration, during the IEP Review/Revision session prior to the student's entry into the ninth grade, as to this student's possibilities for achieving sufficient units to earn a regular diploma.

Policy: IEBA – IFB – IDDF – IDDH – IDHDB

Policy: JS – JAA

### **OFF-CAMPUS STUDENT EDUCATIONAL ACTIVITY**

As a part of the educational service of the school, students may be taken on field trips. Such trips are made only with the permission of the parent. When such trips are being planned, permission slips will be sent home to be signed by the parent. All field trips must be approved and must be supervised by regular classroom teachers.

Field Trip Requests/Bus Requests should be completed by the teacher/sponsor and turned into the principal. The principal/school secretary needs to be sure that the school/club/organization has money in their grade/club account. All field trips must be submitted to the Assistant Superintendent or the Director of Operations three (3) weeks before the date of activity.

Policy: JGFB

### **HOMEWORK**

Homework is a very important part of each student's school program of experiences. Work assigned supplements class activities and require a period of home study. It is necessary for parents to realize that students cannot achieve to the best of their ability unless a quiet study time for work

at home is provided. This helps to develop good study habits and assures that students keep up with assigned work. The amount of time spent on homework varies with the individual student.

## THE NATIONAL JUNIOR HONOR SOCIETY

The National Junior Honor Society ranks as one of the oldest and most prestigious national organizations for middle-level students. Chapters exist in more than 60 percent of the nation's middle-level schools and, since 1929, millions of students have been selected for membership. NJHS is sponsored by the National Association of Secondary School Principals, which also sponsors the National Honor Society.

### NJHS: THE CRITERIA

To be eligible for membership consideration, students must have a cumulative grade point average of 90. Additionally, students are screened by a Faculty Council consisting of five members of the faculty chosen by the principal and are inducted in the spring of each year.

### IMMUNIZATIONS AND VACCINATIONS

It is unlawful for any child to attend school without first being vaccinated with at least one dose of diphtheria, whooping cough, tetanus, red measles, rubella, chicken pox, and polio vaccine and completing the entire series within ninety (90) days. Every student must present a certificate of immunization compliance from his/her doctor or from the Health Department. This certificate of compliance must be presented in order to attend school, even though all shot records are now up-to-date on school records.

In order to secure this certificate of compliance, it will be necessary for the student to go to the Leflore County Health Department, the office of his/her family physician, or Greenwood Leflore Hospital, taking with him/her all official records. **Before a child can register, the CERTIFICATE OF COMPLIANCE must be presented and all seventh graders must have taken the TDAP shot.** The validation of this certificate will become a permanent part of the student's records and will be valid through grade 12. If the doctor signs the certificate indicating that other doses are necessary, the student will be given ninety (90) days to complete the required immunizations; if they are not completed at the end of ninety (90) days, the child by law must be suspended until compliance is achieved (suspension will begin immediately after the 90-day period). Policy: JGCB - JGCC

### Medical Exemption Policy

To request a medical exemption from one or more required vaccinations, the MSDH Medical Exemption Request (Form 139-M) must be completed and signed by the child's pediatrician, family physician, or internist who is duly licensed in Mississippi. Children receiving specialized or tertiary care outside of the state may have medical exemption requests completed and signed by their tertiary care physician.

All exemptions submitted by a Mississippi licensed pediatrician, family physician, or internist will be accepted based on the Medical Exemption guidelines below. Medical exemption requests completed and signed by a tertiary care physician outside of the state will be reviewed on a case by case basis.

Review of all medical exemption requests will be conducted at the Mississippi State Department of Health by the State Epidemiologist or Deputy State Epidemiologist.

Once the request is reviewed and accepted, a Certificate of Medical/Religious Exemption (Form 122) will be issued. Only the Certificate of Medical/Religious Exemption (Form 122) signed and dated by the State Epidemiologist or Deputy State Epidemiologist provides official, documented proof that a child has been issued an exemption by MSDH. The original Certificate of Medical/Religious Exemption (Form 122) will be housed at MSDH with a copy mailed to the parent and the requesting physician.

Follow up and request for additional information will be conducted by the State Epidemiologist or Deputy State Epidemiologist for out-of-state medical exemption requests if needed. The parent and the requesting physician will be contacted in the event that the out-of-state medical exemption request is not accepted.

This policy will **not** amend the school law Section 41-23-37, Mississippi Code of 1972. Children with a Certificate of Medical Exemption who are not adequately immunized will be excluded from school if there is a threat of vaccine preventable diseases occurring in the community. The child will be excluded until the infectious disease is no longer present, or is no longer a threat to the safety and welfare of the child or other children in the school.

Questions regarding the medical exemption process or the medical exemption request form should be directed to the MSDH Office of Immunization at (601) 576-7751.

### **Religious Exemption Policy**

**The Mississippi State Board of Health strongly supports K-12 vaccination** as a primary means of protecting our children from vaccine preventable communicable diseases and the resulting adverse outcomes.

To request a religious exemption from one or more required vaccinations for Mississippi school entry, the parent or guardian must complete the MSDH Religious Exemption Request (Form 139-R) and submit to the County Health Department (appointment is required: 855-767-0170).

A review of all religious exemption requests for completeness will be conducted at the Mississippi State Department of Health. Complete Religious exemption requests submitted per MSDH policy will be accepted and signed by the State Epidemiologist or Deputy State Epidemiologist. Once the request is reviewed and accepted, a Certificate of Medical/Religious Exemption (Form 122) will be issued. Only the Certificate of Medical/Religious Exemption (Form 122) signed and dated by the State Epidemiologist or Deputy State Epidemiologist provides official, documented proof that a child has been issued a medical/religious exemption by MSDH. The original Certificate of

Medical/Religious Exemption (Form 122) will be housed at MSDH with a copy mailed to the parent and the daycare or school indicated on the Religious Exemption Request Form.

## **STUDENT HEALTH SERVICE: MEDICATION**

School personnel may not exceed the practice of first aid in dealing with pupil injuries and sickness, and only qualified personnel shall administer first aid to pupils.

Medication shall be provided or administered to a student by school personnel **ONLY** with the written request and consent of the student's parent/custodian/legal guardian. **Regulations:**

### ADMINISTRATION OF PRESCRIPTION MEDICINE

The parents/guardians are responsible for obtaining a statement from the physician authorizing school personnel to administer the medicine. The statement should include:

1. Student's name
2. Diagnosis
3. Name of medicine
4. Method of administration
5. Time/s to administer the medicine
6. Amount of medicine
7. Date to discontinue or review administration of medicine

## **SECTION 504 OF THE REHABILITATION ACT OF 1973 COMPLIANCE PROCEDURES FOR STUDENTS**

Section 504 of the Rehabilitation Act of 1973 prohibits, discrimination against persons with a handicap in any program receiving federal financial assistance. No discrimination against any person with a disability will knowingly be permitted in any of the programs and practices of the school system. To ensure the district's compliance with Section 504 as it applies to students with handicaps, the following procedures have been adopted.

1. If a student claims that he/she has been subjected to discrimination on the basis of a handicapping condition, in violation of Section 504 of the Rehabilitation Act of 1973, or if the district has reason to believe that a student has a handicap which substantially limits the student's ability to learn (and the student is eligible for services under IDEA), the district shall convene a team of people who are

knowledgeable of the student's educational needs to review and consider all pertinent information related to the suspected handicap. This meeting shall be convened within ten (10) days after the district receives a written statement describing the specific discriminatory conduct or the district becomes aware of the student's handicap affecting the student's ability to learn.

2. The team described in paragraph 1 above shall determine whether the student is handicapped under Section 504 and whether that handicap substantially limits the major life function of learning. If such a determination is made, the team must further determine what accommodations are required on behalf of the district to allow the student an equal opportunity to participate in school and school-related activities. If the student's parents disagreed with the district's conclusion and recommendations, the parents shall be informed of their right to ask for an Impartial hearing to decide the matter. Hearing requests shall be made in writing to the superintendent giving specific reasons describing the discriminatory actions by the district and why the district's accommodations are not appropriate.
3. An impartial hearing shall be held within ten (10) days of receipt of the written request. The district shall obtain as a hearing officer an individual who is not an employee of the district and who is knowledgeable of Section 504. The parent and student may take part in the hearing and have an attorney represent them at their own expense. The district also may be represented by counsel.
4. The hearing officer shall conduct the hearing so as to give the parents an opportunity to present evidence supporting their claim that their child has been subjected to discriminatory treatment in violation of Section 504. The district shall be given the opportunity to present evidence supporting its position with respect to the student. A tape recording of the hearing will be made by the district, a copy of which will be provided the parents.
5. The hearing officer shall make a decision within ten (10) days after the conclusion of the hearing. The decision shall be given in writing to the district's 504 Coordinator and the parents.
6. If either party is aggrieved by the action of the hearing officer, an appeal may be taken to the Board of Trustees of the district at its next regularly scheduled meeting. The Board, in its discretion, may allow a statement to be made by the parents and a representative of the district. The decision of the Board shall be final.
7. The district shall publish its policy of nondiscrimination on the basis of handicap and shall inform parents of their rights under Section 504, including the right to examine records relevant to their child, the right to an impartial hearing with representation by legal counsel at their expense, and the district's review procedure.

your responsibility to be careful in the way that you use it so that it will continue to look new in years to come.

The care that is given to the school building and grounds reflects the type of students enrolled in the school. School spirit and pride are evidenced by the proper use of furniture and instructional equipment. It is the policy of the Board of Trustees to require any student who defaces or destroys school property to restore or replace the damaged item.

Vocational education is one of the most important aspects of our educational system. The programs offered through the Greenwood Leflore Consolidated School District and Career and Technical Center are designed to expose students to the current technology used in the workforce today. Our programs give students the opportunity to show how learning is directly related to work through hands-on-activities. Teachers instruct students in the most advanced skills necessary to compete in today's global society. All students, including those planning to attend college, benefit from a curriculum linked explicitly to the world of work.

All vocational programs are electives, two class periods in length, and earn 2 Carnegie units.
