ABOUT BCT ITP

Using hands-on and virtual labs paired with live instruction, the Bessemer Center for Technology's Information Technology Program (BCT ITP) prepares students with real-world IT skills and practical knowledge that can be used at home and on-the-job.

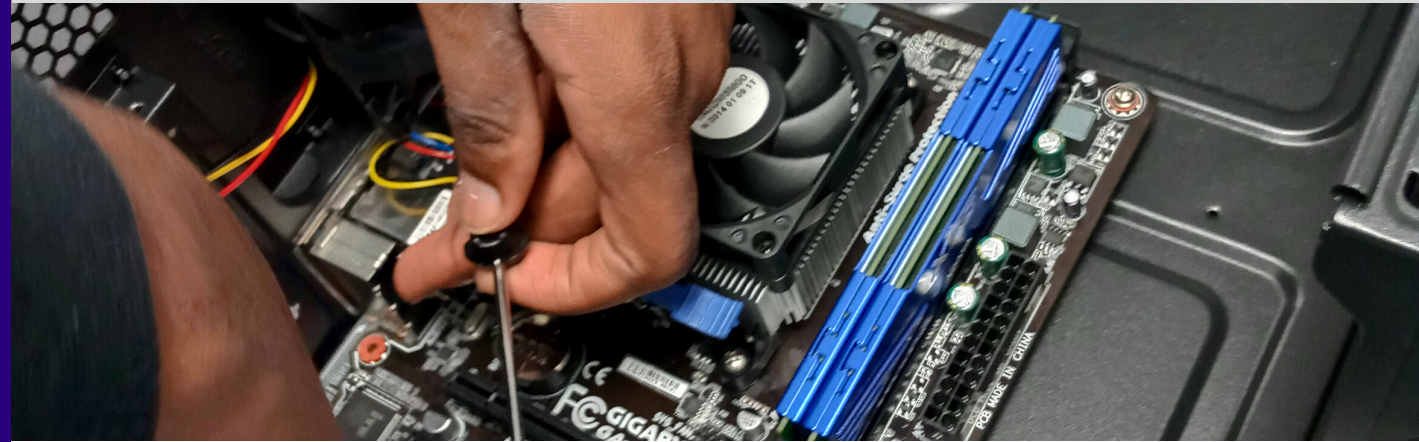

We offer two career pathways:

- Network Systems & Computer Services
- Programming & Software Development

CTSO

Students participate in SkillsUSA to build confidence, leadership, and other soft skills, enhance their resumes, compete, and network with peers and industry professionals.

1 NETWORK SYSTEMS & COMPUTER SERVICES

From selecting motherboards to recommending the best central processing unit, students learn to build a computer from start to finish, install and configure various operating systems, troubleshoot, repair, and securely network these systems together.
