### Houston County School District to Host Groundbreaking for Houston STEM & Career Academy: A Regional Hub for Innovation

HOUSTON COUNTY, GA – The Houston County School District is proud to announce the groundbreaking ceremony for the Houston STEM & Career Academy, a facility designed to prepare students for future workforce opportunities across Middle Georgia.

The community is invited to attend the ceremony on Friday, May 1 at 9:00 a.m. at the future site of the Academy, located at 3150 North Highway 41 in Warner Robins.

This milestone event represents years of planning, partnership, and a shared vision to expand opportunities for students while strengthening connections between education and local employers. The Houston STEM & Career Academy will serve as a dynamic learning environment focused on innovation, real-world skills, and career readiness in the areas of science, technology, engineering, math, and healthcare.

“We are incredibly proud to celebrate this milestone with our community,” said Dr. Richard Rogers, Superintendent of Schools. “The Houston STEM & Career Academy represents what is possible when education, business, and community partners come together with a shared vision. This initiative is about more than a building. We are creating opportunities, fostering innovation, and preparing our students to lead and succeed in a rapidly evolving workforce. Together, we are investing in the future of Middle Georgia and empowering the next generation to make a meaningful impact.”

Community members are encouraged to attend this groundbreaking celebration. The attire is business casual.
