The parent/guardian is required to provide a written statement from the physician treating the student that has asthma, that the student is capable of self-administration of medication.

The parent/guardian of the student must provide the school an emergency supply of the student’s medication.

ACADEMICS

ADVANCEMENT IN GRADE OR SUBJECT – High school pupils failing the first semester and completing the second semester satisfactorily will be required to retake only the first semester work.

PROFICIENCY BASED PROMOTION – Upon the request of a student parent, guardian or educator, a student will be given the opportunity to demonstrate proficiency in one or more area of the core curriculum.

1. Proficiency will be demonstrated by assessment or evaluation appropriate to the curriculum area, for example: portfolio, criterion, referenced test, thesis, project, product or performance. Proficiency in all laboratory science courses will require that students are able to perform relevant laboratory techniques.
2. Students shall have the opportunity to demonstrate proficiency in the core areas as identified in 70 O.S. § 11-103.6; S.L. § 244 *Curricular Standards and Options for High School Graduation*.
 - a. Social Studies
 - b. Language Arts
 - c. The Arts
 - d. Languages
 - e. Mathematics
 - f. Science
3. Proficiency for advancing to the next level of study will be demonstrated by a 90% or comparable performance on an assessment or demonstration.
4. The opportunity for proficiency assessment will be provided at least twice each school year, beginning in the 1995-96 school year.
5. Qualifying student are those who are legally enrolled in the local school district.
6. The district may not require registration for the proficiency assessment more than one month in advance of the assessment date.
7. Students will be allowed to take proficiency assessments in multiple areas.
8. Students not demonstrating proficiency will be allowed to try again during the next assessment period.
9. Exceptions to standard assessments may be approved by a local district for those students with disabling conditions.

Students demonstrating proficiency in a core curriculum area will be given credit for their learning and will be given the opportunity to advance to the next level of study in the appropriate curriculum area.

1. The school will confer with parents in making such promotion/acceleration decisions. Such factors as social and mental growth should be considered.
2. If the parent/guardian requests promotion/acceleration contrary to the recommendation of school personnel, the parent/guardian shall sign a written statement which shall be included in the permanent record of the student.
3. Failure to demonstrate proficiency will not be noted on the transcript. Students must progress through a curriculum area in a sequential manner. Elementary, middle level or high school students may demonstrate proficiency.
4. If proficiency is demonstrated in a Grade 9-12 curriculum area, appropriate notation will be placed on the high school transcript. The unit shall count toward meeting the requirements for the high school diploma.
5. Units earned through proficiency assessment will be transferable with students among school districts within the State of Oklahoma.

Proficiency assessment will measure mastery of the Oklahoma Academic Standards in the same way that curriculum and instruction are focused on the priority academic student skills, in other words, assessment will be aligned with curriculum and instruction.

Options for accommodating student needs for advancement after they have demonstrated proficiency may include, but are not limited to, the following:

1. Individualized instruction
2. Correspondence courses
3. Independent study
4. Concurrent enrollment
5. Cross-grade grouping
6. Cluster grouping
7. Grade/course skipping
8. Individualized education programs

Each school district will disseminate materials explaining the opportunities of proficiency-based promotion to students and parents in the district each year. Proficiency criteria for each core curriculum area will be made available upon request.

Appropriate notation for core curriculum area(s) completed - Appropriate notation will be made for elementary, mid-level, or high school level students satisfactorily completing Grade 9-12 high school curriculum areas. Completion may be recorded with a letter grade or pass notation. This curriculum area will count toward meeting the requirements for the high school diploma.

ATTENDANCE – All pupils are required by law to be in regular attendance from age 5 to 18, or until graduation from high school. The administration of the Hardesty School checks attendance with care and promptness. Any student who has a total of ten (10) absences from one (1) class will fail that class, but will not be excused from attending that class.

A student will be marked absent according to the ruling of the State Department of Education that states: “Any student must be counted absent if he is not actually present for classes although the cause for his absence is beyond his control.”

A student who has been absent must pick up an admit slip from the principal upon returning to school. He/she will not be admitted to class without the slip. The slip will be presented to each teacher for signature and will be turned in to the last period teacher.

CLASSIFICATION – Students enrolled in Hardesty Schools will be classified in the following manner: Elementary, Grades PreK-8; high school, Grades 9-12.

A high school student shall be classified according to the number of units they have completed: 0 to 6 units, 9th grade; 6.5 to 13 units, 10th grade; 13 to 20 units, 11th grade; 20.5 or more units, 12th grade.

Students transferring into the district will be placed according to their transcript from the sending school.

Students coming into the district from a home-based school will be required to take a norm-referenced test. The result of the test will determine the grade placement of the individual.

The State Department of Education requires students to attend school 360 minutes a day.

STUDENT RETENTION – In accordance with the policy of the Board of Education, the following criteria for the selection of students to be retained in their current grade, or denied course credit, will be used in this school district.

Students shall be promoted or receive credit for a course of study if a grade average of 60% has been achieved for entire course of study as determined by the teacher.

Students in grades 1 – 8 must achieve a grade average of 60% or higher in at least three major courses of study to be promoted to the next higher grade. The major courses of study are math, language arts, science, reading and social studies.

1. Any student who demonstrates proficiency in reading at the third-grade level through a screening instrument, which meets the acquisition of reading skills criteria shall not be subject to retention. Upon demonstrating proficiency through screening, the district shall provide notification to the parent(s) and/or guardian(s) of the student that they have satisfied the requirements of the Reading Sufficiency Act and will not be subject to retention pursuant to this section.
2. If a third-grade student is identified, at any point of the academic year, as having a significant reading deficiency, which shall be defined as scoring below proficient on a screening instrument which meets the acquisition of reading skills criteria, the district shall immediately begin a student reading portfolio and shall provide notice to the parent of the deficiency.
3. If a student has not yet satisfied the proficiency requirements of this section prior to the completion of third grade, the student may qualify for automatic promotion to the fourth grade upon scoring at the “limited knowledge” level on the reading portion of the statewide third-grade criterion-referenced test.
4. If a student has not yet satisfied the proficiency requirements of this section prior to the completion of third grade and still has a significant reading deficiency, as identified based on assessments administered that meet the acquisition of reading skills criteria, has not accumulated evidence of third-grade proficiency through a student portfolio, or is not subject to a good cause exemption, then the student shall not be eligible for automatic promotion to fourth grade.
5. Beginning with the 2015-16 school year, students who score at the unsatisfactory level on the reading portion of the statewide third-grade criterion referenced test and who are not subject to a good cause exemption shall be retained in the third grade and provided intensive instructional services and supports. Whenever a teacher, or a placement committee, recommends that a student be retained at the present grade level or not passed in a course, the parent(s) or guardian(s), if dissatisfied with the recommendation, may appeal the decision by complying with the district’s appeal process. The decision of the Board of Education shall be final. The parent(s) or guardian(s) may prepare a written statement to be placed in and become a part of the permanent record of the student, stating the parent(s) or guardian(s) reasons for disagreeing with the decision of the Board.

Complete details of the procedure are in the District policy. (Adopted 12/9/13; Revised 7/21/14)

ACADEMIC PROGRAMS

CONCURRENT ENROLLMENT STUDENT (REGULATION) – This Hardesty Board of Education policy, in accordance with ACE legislation and SB 290 session 2009, shall govern the concurrent enrollment, dual credit, and EOI testing of any Hardesty High School student who wishes to participate in college classes during his or her junior and/or senior year.

In order to enroll concurrently in college coursework, students must qualify for and follow these rules and restrictions:

1. Qualifications:

Seniors – Option 1: ACT/SAT minimum composites

- a. Comprehensive University – 75th percentile
- b. Regional University – 62nd percentile
- c. Two-Year College – 46th percentile

Option 2: ACT test score of 19 in the area where study will be pursued.

Juniors – Only option: ACT/SAT 90th percentile.

All students must be on schedule to graduate with their class.

2. All concurrent classes taken by high school students will be listed on the high school transcript, but not all classes must count for credit.

Before the semester for college coursework begins, the student and parent/guardian must sign the “Agreement of Dual Credit” paperwork at the principal’s office to choose whether the coursework will or will not count towards high school credit.

If no contract is signed to opt out of dual credit, the default according to SB290 is that the course will be placed on the high school transcript for high school credit.

3. The following higher education courses commonly taken through concurrent enrollment have been reviewed by the Oklahoma State Department of Education (OSDE) and approved for academic credit:
 - College Algebra = 1 unit Algebra II
 - General Biology = 1 unit of Biology II

INTERNET-BASED INSTRUCTION – Internet-based instructional programs offered for instructional purposes and/or high school credit shall be approved by and under the supervision of the Hardesty Board of Education. The proposed course(s) may be evaluated by the State Department of Education.

DEFINITIONS

SYNCHRONOUS INSTRUCTION occurs when the instructor and student's primary interactions are in real-time. Regular classroom instruction is synchronous instruction, as well as two-way interactive video. Web-based instruction that requires real-time interaction between student (s) and instructor as the primary form of instruction is also synchronous instruction.

ASYNCHRONOUS INSTRUCTION is not dependent on instructor and student interaction in real time. Asynchronous instruction allows the student to engage in learning activities anywhere, at any time. For instruction to be considered asynchronous, the primary format of instruction does not depend on real time interaction of the participants.

WEB-BASED INSTRUCTION uses the Worldwide Web as the primary medium of instruction, with a computer serving as the primary tool of instruction. Web-based instruction may be synchronous or asynchronous.

TWO-WAY INTERACTIVE VIDEO INSTRUCTION provides for real time (synchronous) interaction between students(s) and instructor by means of an electronic medium that provides for both audio (sound) and video (sight) signal. Students and instructors participating in two-way interactive video instruction may see and hear each other in an approximation of real time.

GUIDELINES – Prior to offering an internet-based instructional course, the Board of Education shall comply with the following guidelines recommended by the State Department of Education.

1. Web-based and two-way interactive video instruction shall be viewed as methods by which the school district can expand the course offerings and access to instructional resources. These technologies should not be viewed solely as substitutes for direct, face-to-face student and teacher interactions, but as a means of expanding the ability of the district to bring the world of knowledge to the students.
2. The Board of Education will grant students credit for completion of courses offered by means of internet-based instruction and will assume all responsibility for such coursework.
3. Only students who are regularly enrolled in this district shall be allowed to enroll in alternative instructional delivery system courses offered for credit through this district.
4. The principal, or designee, shall evaluate and approve/disapprove all students' requests to participate in courses delivered by means of internet-based instruction. Only those approved enrollments shall be eligible for credit granted by the district.
5. The principal shall appoint a certified staff member to serve as the building-level contact person to assist students enrolling in online courses and to serve as a liaison to the online teachers and provider(s).
6. Students earning credit by means of internet-based instruction shall participate in all assessments required by the Oklahoma School Testing Program. No student shall be allowed to participate in these assessments other than the school site at which the student is enrolled.
7. Courses offered for credit by means of internet-based instruction shall be aligned with the Priority Academic Students Skills (PASS).
8. The Hardesty Public School District shall NOT BE liable for payment of any fees or charges for any internet-based course for a student who has not complied with the district's internet-based instruction policies and procedures.

Users of the services will respect all copyright and license agreements. Copyrighted software, pictures, or music will not be downloaded for use which violates the copyright laws.

Staff and students must agree to attend an internet orientation which will address the issues of appropriate use of the internet, copyright laws, internet etiquette, and fees (if any incurred) during the use of the services. An internet use agreement will be signed by all persons wishing to use the services provided by the school district.

We are using Untangle for our technology protection measure. Untangle protects against access by adults and minors to visual depictions that are obscene, pornography or with respect to use of computers with internet access by minors – harmful to minors. Bullying of students by electronic communication is prohibited whether or not such communication originated at school or with school equipment, if the communication is specifically directed at students or school personnel and concerns harassment, intimidation or bullying at school.

As used in the School Safety and Bullying Prevention Act, bullying means any pattern of harassment, intimidations, threatening behavior, physical acts, verbal or electronic communication directed toward a student or group of students that results in or is reasonable perceived as being done with the intent to cause negative educational or physical results for the targeted individual or group and is communicated in such a way as to disrupt or interfere with the school's educational mission or the education of any student. CONDITIONS OF SUSPENSION

Before a student is suspended out-of-school, the principal shall consider and apply, if appropriate, alternative placement options that are not to be considered suspension, such as placement in an alternative school setting, reassignment to another

classroom, or in-school detention. A student suspended out-of-school shall be placed in a supervised, structured environment in either a home-based school work assignment setting or another appropriate setting in accordance with a plan prescribed by the school administration that provides education in accordance with the supporting regulations. Students suspended from school shall be ineligible to participate in extracurricular activities. Additionally, any student serving suspension during the time of graduation activities shall not be allowed to participate in or attend ceremonies or programs honoring graduates.

No school board member, administrator or teacher may be held civilly liable for any action taken in good faith, which is authorized by law under the provisions of this policy.

If a student is suspended, the student will not be released from the school premises until a parent has been contacted and the specific act(s) for which the suspension was ordered and the length of the suspension explained to the parent. A conference may be scheduled for the student and parents to discuss the problem arising in the suspension.

If at the end of the school day, parents have not been contacted, then the principal will mail a notice giving all pertinent information and encouraging the parent(s) to contact the principal.

ABSENCES AND TARDIES

ABSENCE POLICY

Hardesty School recognized the following absences:

ACTIVITY ABSENCE is those in which the student is absent due to student participation in school-sponsored events or activities. Class work should be made up prior to the absence, but may be made up later, at the discretion of the classroom teacher. An activity absence is not counted as a day missed.

EXCUSED ABSENCE – Students will be allowed ten (10) excused absences per semester. Parent notification by phone, note, or personal contact should be made as soon as it is known that an absence will occur. Upon returning to school, students will be expected to make up all work missed. It is the student's responsibility to ask for and turn in make-up work. Students will have the number of days absent plus one to complete work missed during the excused absence. Students absent over an extended period of time may ask for work assignments to be sent home.

Excused absences will be given upon parental notification except when the student oversleeps.

Students who miss a class more than ten (10) times in a semester will automatically fail that class for the semester and shall be placed immediately on the Ineligible List. Parent/Guardians of such students will have the right to a hearing before the superintendent and the principal to request that credit for the semester be granted. Allowance for documented appointments with medical professionals will be considered. The decision of the superintendent and the principal may be appealed to the Board of Education.

TARDIES – Hardesty Schools will recognize two types of tardies, excused and unexcused.

UNEXCUSED TARDIES are those in which the student is late to class or school without receiving permission from the administrators. If a student is late to class without receiving permission from the teacher first or without a note from the principal or another teacher, they will receive an unexcused tardy for that class period. If a student is more than twenty (20) minutes tardy, then the student will be counted absent.

EXCUSED TARDIES are those in which the student has received prior permission from the administration. The principal may excuse, at his discretion, a student's tardiness if notified prior to student(s) tardiness by phone, note or personal contact. A student will not be excused to oversleeping. If a student is more than twenty (20) minutes tardy, then the student will be counted absent.

THREE UNEXCUSED TARDIES WILL COUNT AS ONE ABSENCE.

TITLE I PARENT INVOLVEMENT POLICY: It is the goal of our Title I committee to develop a strong partnership between the school and home. Parents and schools working as partners to increase student achievement and develop positive attitudes about self and school.

The key factor in the home-school partnership is the relationship between the teacher and the parent. Teachers are professionals who manage a variety of instructional resources. Parents are an essential resource in the learning process of their

children. Organizational support from the school board, administration, Title I teacher and building principal enables teachers to effectively develop the partnership.

Parents of Hardesty Public Schools students will be encouraged to participate in Title I activities and will be kept informed about the program and their child's progress. It is through close cooperation between the school and home that a student's academic success will improve. Two-way communication, both verbal and written, provide a sound basis for a good partnership between the school and home to provide an effective educational program for all students.

The Title I Parent Involvement Policy is to be fulfilled in the following manner:

Parents will be notified in writing regarding their child's participating in the Title I Program. The written material will include a copy of the Parent Involvement Policy, Parents Right to Know Policy and Parent School Compact.

The Parent School Compact will be given to all parents and describes how parents, school staff and the students will share the responsibility for improving student achievement.

Parents will be invited to enrollment night and fall parent teacher conferences at Hardesty to meet the staff, learn about the Title program, ask questions, give input and get feedback.

Efforts will be made to assist parents in understanding National Education Goals, State Content Standards, student performance standards, the school curriculum, and school expectations and assessment results.

Parents will be encouraged to visit their child's classes and attend other meetings and events. Parents will be encouraged to offer their ideas and suggestions to the school staff.

Newsletters will be sent monthly to all families. This communication will provide information and attempt to promote more interaction between the school and the parents.

Efforts will be made to accommodate parents with disabilities and to provide information to parents in the language used at home.

There will be opportunities for parents to share concerns and offer suggestions for the continued improvement of Hardesty's Title I program through a parent evaluation survey.

PARENTS RIGHT TO KNOW POLICY

At the beginning of each school year, any district that receives funds under NCLB Title I shall notify the parents of each student attending any school receiving funds that the parents may request, and the agency will provide the parents on request (and in a timely manner), information regarding the professional qualifications of the student's classroom teachers, including, at a minimum, the following:

1. Whether the teacher has met State qualifications and licensing criteria for the grade levels and subject areas in which the teacher provides instruction.
2. Whether the teacher is teaching under emergency or other provisional status through which State qualifications or licensing criteria have been waived.
3. The baccalaureate degree major of the teacher and any other graduate certification or degree held by the teacher, and the field of discipline of the certification or degree.
4. Whether the child is provided services by paraprofessionals and, if so, their qualifications.

In addition, parents may request and a school shall provide to each parent timely notice that their child has been assigned, or has been taught for four or more consecutive weeks by, a teacher who is not highly qualified.

PART-TIME ENROLLMENT

1. Public school districts in Oklahoma have two major sources of funding: ad valorem taxes and state aid. Ad valorem tax receipts are controlled by the assessed valuation of the property within the geographical boundaries of the school district and are not affected by the number of students enrolled and attending school. State aid, on the other hand, is determined by calculations that factor in the number of students attending the school district. An increase in the number of students therefore results in an increase in state aid, all other factors being equal.

2. The regulations of the Oklahoma State Department of Education provide that students who are enrolled on less than a full-time basis, as defined by the Oklahoma State Department of Education, may not be counted for state aid purposes. Accordingly, allowing students to enroll on a part-time basis would require the school district to provide an education for those students without receiving any additional state aid to pay for the cost of educating such part-time students.
3. In addition, the Board of Education of the school district believes that allowing students to enroll on a part-time basis would cause administrative disruption and make the administration and the efficient operation of the schools in the school district more difficult.
4. For these reasons, the Board of Education of the school district adopts the following policy governing part-time enrollment at the school district:

It is the policy of the Hardesty School District that all students enrolling in the Hardesty Public Schools must do so on a full-time basis. Full-time basis shall be defined as attending classes each day of the school week for the full instructional day within the public-school system or in conjunction with another state-accredited institution such as a vocational-technical school district or a college or university for concurrent enrollment. The only exceptions to this policy shall be for fifth-year seniors and students with disabilities whose IEPs or accommodation plans require variations on student schedules. Only those students who are enrolled on a full-time basis, as defined herein, may participate in district-sponsored extracurricular activities.

This policy does not apply to tuition-based classes such as a driver's education courses given in the summer.

If at any time after the adoption of this policy Oklahoma law allows part-time students to be counted for state-aid purposes, the board will reconsider this policy. (Adopted November 13, 2006.)
