

Building and Grounds Committee Meeting Minutes
January 31, 2022

Called to order at 2:35 pm by Chairperson Meyer.

Present: Meyer, Updyke, Kappes, Snyder, Shinall

The committee looked at info from Keach regarding the track. They looked into the Rekortan B option. The Facility Sales Tax Revenue will be used, at least in part, to pay for this.

The Board would plan to accept a bid in March.

Concrete bids were analyzed. Discussion was held on the prioritizing of remaining projects. The committee agreed to pursue project 3 & 4.

The proposed baseball field was discussed next. Could the FFA kids work on the dugouts? Commercial Irrigation will come out when the placement of the field is decided and will look into water sources for the field. Boosters may be donating to this project.

White rock around the grade school in favor of mulch of some sort (rubber mulch) is to be looked at for the summer. Typically you put the fabric down and the rubber mulch on top of it.

Roof work from BGS was examined.

Health Life Safety funds could be explored for the window project at BGS.

The committee agreed to pursue the Solar Project.

Meeting was adjourned at 4:00 pm.

Board President

Board Secretary
