School Safety is our Priority	Reviewed	Continue with plan
Instructional Technology Resources	Reviewed	Continue with plan
Mental Health Supports	Reviewed	Continue with plan
Improving Reading One Child at a Time	Reviewed	Continue with plan

IV. End of Year

Date Reviewed: 7/9/2024	Reviewed By: RP, AP, JMB
-------------------------	--------------------------

Initiative	Progress/ Data	Next Steps
Starting with Students' Physical Needs	Nursing costs were reviewed / Nurse's Clinic had 4,546 student visits for 23-24	Continue with plan to add hours
School Safety is our Priority	* SRO is visible in all 3 buildings, she helps students in crisis situations in a way that many students don't identify law enforcement as being able to.	Continue with plan
Instructional Technology Resources	Chromebooks purchased, We utilize iReady for diagnostic testing in Elementary and Middle School to identify student gaps that exist and to determine student growth throughout the year. Brain Pop is used to enhance learning through fun animated videos that are kid-friendly and have short quizzes at the end to help hook students in with concepts. Those concepts could be anything that there is a video available from history to English!	Refresh lab next year
Mental Health Supports	<p>Our counselors see students for a variety of reasons and that number can change day to day. At the elementary level, there is a heavy emphasis on classroom lessons so all students see the counselor in their classrooms throughout the year, in addition to personal issues that can arise. Middle school and high school counselors work with scheduling in addition to personal and school-related issues during the day.</p> <p>K-4: 400 students 5-8: 300 students 9-12: 300 students</p>	Continue with plan
