First Day of School

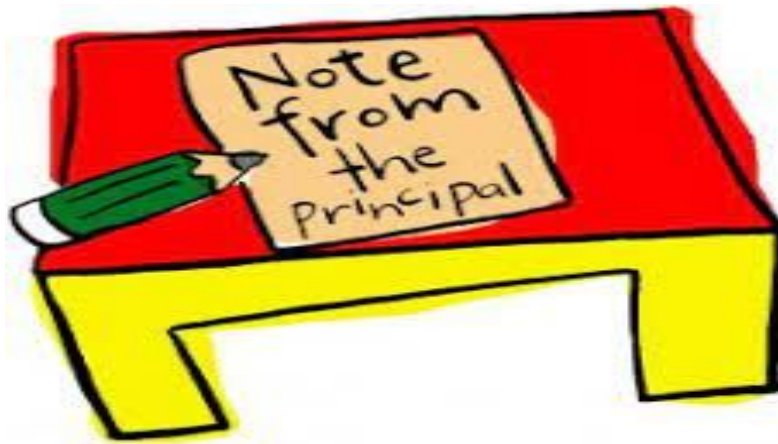

Spotlight on Preschool

The students in the Demarest Early Learners program have been having a wonderful start to the school year! We kicked off the year with our "Welcome to Curiosity Corner" unit which helps to establish an environment that promotes learning, friendships, and self-help skills. Our puppet friends Curiosity, Squeeky, and Chilly were introduced and continue to help us explore how to get along together. In this unit, we read the story The Little Red Hen and made connections to how we treat one another in a friendly way by sharing, helping others, and taking turns.

Dear CRS and LLE Families,

Last week we received the exciting news that Luther Lee Emerson School has been named a Blue Ribbon School by the United States Department of Education. This is a national award that very few schools receive.

Personally, I would like to thank all of our educators, students and families. Our students in Demarest go through three amazing schools before they enter their high school years. During this time they receive an excellent education that takes place because of the hard work and dedication of our staff members. I am truly grateful to all of them for their efforts to differentiate lessons, care of our students and provide a safe environment for the students to thrive. Our students also deserve a great amount of recognition for their ability to come to school each day ready to learn and be engaged. It is such a pleasure to see the students working collaboratively and independently each day and doing their best at achieving their educational goals.
