12	I've said it once and I will say it again!!!! This math is STUPID!! Why is my fourth grader solving fractions? I don't understand how and why the teachers of today are not speaking up about the significantly different and difficult way math is being taught. My 10 year old has an F in math! Why? This is not ok! I'm extremely angry and sad for my students at the same time. Multiple used to be simple memorization, now there's actual ways to solve. Why?	1/14/2026 5:24 PM
13	It would be nice to receive the information about what's going on from my child's teacher and not my child telling me last minute because we never got a paper sent home or a sign up sheet made. The new app makes it hard to know what's going on as it doesn't notify of posts often and the teacher doesn't use it often. Would prefer class dojo compared to the new app.	1/14/2026 3:59 PM
