Single Life Annuity Options: Options offered to the member upon retirement that will provide a monthly benefit ceasing at the member's death. With either of these options, any remaining balance of accumulated contributions and interest will be paid to the surviving designated beneficiary(s) in a lump sum in the event of your death. TCRS offers two Single Life Annuity Options:

Member Only Option: A maximum monthly benefit payable for the member's lifetime with all benefits ceasing at the member's death.

Social Security Leveling Option: A member may convert his or her monthly retirement benefit into an increased benefit payable prior to the date the member attains age 62 and is eligible to draw Social Security Benefits. The increase in the benefit is a portion of the amount the member would be eligible to receive from Social Security at age 62. The monthly benefit would then be reduced at age 62 for the remainder of the member's life, ceasing at death. The reduction would be equal to the full amount the member is eligible to receive from Social Security at age 62. This retirement plan requires a benefit estimate from the Social Security Administration that has been done within a year of your date of retirement from TCRS.

If a member chooses Social Security Leveling, a benefit estimate from Social Security Administration that has been done within one year of the date of retirement must be provided to TCRS.

*Please note that TCRS benefits will not increase after reaching retirement age eligibility (age 60 for the Legacy plan and 65 for Hybrid plans) if you are no longer working for an employer covered by TCRS. By not drawing your TCRS benefits you are effectively missing payments, so if you are separated from service you are encouraged to apply as soon as you become eligible.

Retirement Information cont'd.

Reminder:

If you choose a survivorship option, you must have at least one designated (person) beneficiary on file.

Joint and Survivor Plans: TCRS offers four types of Joint and Survivor Plans. The age of the member and the age of his or her beneficiary(s) determine the amount received under each option.

- **Option 1:** This option reduces the member's maximum retirement benefit based on the dates of birth of the member and his or her beneficiary(s). In the event the member passes away, the member's beneficiary(s) will receive the same benefit amount as the member for the remainder of the beneficiary's lifetime. If a member has designated more than one beneficiary, the benefit will be divided equally between the beneficiaries. If any or all beneficiaries pass away before the member, the member's benefit amount will remain the same.
- **Option 2:** This option reduces the member's maximum retirement benefit based on the dates of birth of the member and his or her beneficiary(s). In the event the member passes away, the beneficiary(s) will receive 50% of the member's benefit for the remainder of the beneficiary's lifetime. If a member has designated more than one beneficiary, the 50% amount benefit will be divided equally between the beneficiaries. If any or all beneficiaries pass away before the member, the member's benefit amount will remain the same.
- **Option 3:** This option reduces the member's maximum retirement benefit based on the dates of birth of the member and his or her beneficiary(s). In the event the member passes away, the beneficiary(s) will receive the same benefit amount as the member for the remainder of the beneficiary's lifetime. If a member has designated more than one beneficiary, the benefit will be divided equally between the beneficiaries. In the event the beneficiary passes away before the member, the member's benefit will increase to the member's maximum benefit under the single life annuity option. If multiple beneficiaries have been designated, a portion of the member's benefit that was designated for a beneficiary that dies before the member will revert to the amount the member would have received under the regular plan.
- **Option 4:** This option reduces the member's maximum retirement benefit based on the dates of birth of the member and his or her beneficiary(s). In the event the member passes away, the beneficiary(s) will receive 50% of the member's benefit for the remainder of the beneficiary's lifetime. If a member has designated more than one beneficiary, the 50% benefit amount will be divided equally between the beneficiaries. In the event the beneficiary passes away before the member, the member's benefit will increase to the member's maximum benefit under the single life annuity option. If multiple beneficiaries have been designated, a portion of the member's benefit that was designated for a beneficiary that dies before the member will revert to the amount the member would have received under the regular plan.
