

Building and Grounds Committee Meeting
December 13, 2021
2:00 pm - Superintendent's Office

Present: Board Member Meyer, Board Member Kappes (via Zoom), Board Member Updyke, Kiersten Sheets (Trajectory), Lee Gerriettes (Keach), Steve Kerr (Mohr & Kerr Engineering), Superintendent Shinall

Meeting called to order at 2:03 pm.

Sheets began with the presentation with solar energy possibilities for the school district. Recent changes in the law (Climate and Equitable Jobs Act) have prioritized school districts for opportunities with solar energy. Looking for 2 megawatts for solar. District would be an anchor. Subscribers could then latch on to this. Possible sources of revenue for the district were reviewed.

Trajectory would be responsible for managing the property. FFA/Science classes could be part of the pollination planting. Local districts using solar were discussed.

This could go to the full Board in January for presentation.

Gerriettes and Kerr talked about options to refinish the track. Taking the top level off and inspecting what we have as far as cracks and filling those cracks.

The potential baseball field was also discussed.

Concrete projects in Spring were discussed. The plan is to bid them out over the spring to be ready for the summer.

Meeting was adjourned at 3:15 pm.

Board President

Board Secretary
