

CES Student Spotlight #2

November, 2025

Emilia “Emi” Godinez

Emi is an amazing learner! She is always curious about new things and very determined to continue trying something until she gets it right. Emilia has shown tremendous improvement—from following simple routines and structures to demonstrating patience with peers (and herself) and remaining on task throughout her entire time in class. Due to her remarkable growth, willingness to try new things, and her growing patience while listening, I have high aspirations for her and her future progress!. It has been truly fun to discover how she learns and a privilege to witness her constantly improving in so many ways.

Emilia has shown amazing growth this year — especially in her social and emotional skills! She has become such a kind and caring friend who helps make our classroom a happy place to learn. Emi is incredibly smart, curious, and funny, and she brings so much joy to everyone around her. She loves coming to school each day where she thrives on routine and playfulness. Emilia works hard, enjoys spending time with her friends and teachers, and helps make our classroom a wonderful place to be. We're so proud of the progress she's made and the sunshine she brings to our class every day! 🧡
