FOREWORD

The purpose of this handbook is to familiarize students, teachers, and parents/guardians with the regulations and policies of the Perry County Schools. This publication is designed to outline the rights and responsibilities of our students. It is not intended to be a comprehensive set of rules, but it does set forth the philosophy that the school environment is critical to effective teaching and learning.

This handbook, therefore, is designed to assist us in creating a proper atmosphere for learning. The rules set forth in this handbook are broad principles that support the concept of student rights and responsibilities.

Students and Parents/Guardians should become familiar with the handbook as it contains the important school and district policies. This handbook has been prepared by a handbook committee at Perry County Schools and approved by the Perry County School Board.

The Perry County Board of Education and Administration of Perry County Schools reserve the right to amend any part of this handbook at any interval in the school year should a need arise.

ANNUAL REPORT TO ALL PARENTS

The Federal Environment Protection Agency (EPA) required that on an annual basis each school district notify every parent and employee of the status of any asbestos in the school. This report will serve as the annual notification by the Perry County School District.

The Perry County Schools completed the required re-inspection report. There was no major change in the report. A copy of this report is on file in the school administration office and is available to the public for review.

ACCEPTABLE USE POLICY CONSENT FORM FOR USERS

The Perry County School District (the “District”) is pleased to offer to its students, faculty and staff, access to the Internet and the District’s wide area network in accordance with the terms and conditions of this policy.

PCSD’s Network and Internet access are provided through a complex association of government agencies and regional networks. Access to the Internet and to the Network provides users with a vast array of educational resources. The District’s goal in providing service is to promote educational excellence and student achievement in our school through increased access to resources, information, and global communication.

Reliable operation of the Network is depended upon the proper conduct of its users. To this end, Congress passed two laws to assist districts in providing a safe and secure environment for its users –the Children’s Internet Protection Act (CIPA) and The Children’s On-Line Privacy Protection Act (COPPA). In compliance with CIPA and COPPA, the Perry County School District will implement technology protection measures to restrict, filter or block access to inappropriate material, particularly visual, depictions of obscene material, child pornography, and materials considered harmful to minors. Use of filtering will also help the District (1) provide for the safety and security of minors when using electronic mail, chat rooms, and other forms of telecommunications; (2) monitor online activities; (3) deter unauthorized access, including hacking and other unlawful online activities; (4) prohibit unauthorized disclosure, use of dissemination of personal information regarding minors; and (5) restrict access to harmful material by minors.

Users must practice ethical conduct and comply with policies and regulations while using the Network. The regulations adopted prohibit users from accessing harmful matter on the Internet that may be obscene or pornographic and address consequences for misuses of the system. Any user violating the policies and regulations will be subject to disciplinary action and/or loss of privileges. Law enforcement shall be notified when appropriate.

Basic guidelines are provided in School Board Policy so that users are aware of the responsibilities they are about to assume. If a user violates any of these provisions, his/her use will be terminated and future access may be denied. Disciplinary action may also result. Disciplinary action for users shall be in accordance with existing policies and may include suspension, expulsion, and/or termination of employment. If possible criminal activity is discovered, the proper authorities will be notified, and an investigation may ensue.

AI (ARTIFICIAL INTELLIGENCE)

Purpose: The purpose of this policy is to establish guidelines for the ethical and responsible use of artificial intelligence (AI) tools by students, faculty, and staff at Perry County School District. This policy ensures that AI is utilized in a manner that supports learning, maintains academic integrity, and upholds the values of the school community.

Scope: This policy applies to all students, faculty, and staff at Perry County School District who use AI-powered tools, including but not limited to chatbots, generative AI models, automated grading systems, and content creation applications.

Acceptable Use:

1. AI tools may be used to support learning and enhance educational experiences when permitted by teachers or administrators.
2. AI-generated content must be properly cited, and students must disclose when they have used AI tools for academic assignments.
3. Teachers may integrate AI tools into lesson plans to enhance instruction, provided they adhere to school curriculum guidelines.
4. Staff may use AI to improve administrative efficiency but must ensure that human oversight remains central to decision-making.

Prohibited Use:

1. Using AI to complete assignments, essays, or assessments without proper use or permission from instructors is considered academic dishonesty.
2. Plagiarism, including submitting AI-generated work as original, is strictly prohibited.
3. AI tools may not be used to generate harmful, misleading, or inappropriate content.
4. Unauthorized AI tools or software may not be installed or accessed on school devices.
5. Students and staff may not use AI for purposes that violate school policies, privacy regulations, or ethical guidelines.

Privacy and Data Security:

1. Users must not input personally identifiable information (PII) or confidential school data into AI systems.
2. AI tools must comply with data privacy laws, and their usage should align with school cybersecurity protocols.
3. Any AI-generated content that includes personal or sensitive information must be reviewed and approved before dissemination.

Accountability and Enforcement:

1. Violations of this policy will be addressed according to the school's disciplinary procedures.
2. Consequences for misuse may include loss of technology privileges, academic penalties, or further disciplinary action.
3. Faculty and staff are responsible for ensuring compliance with this policy and educating students on responsible AI usage.

Policy Review: This policy will be reviewed annually to adapt to advancements in AI technology and ensure alignment with best practices in education.

For any questions or clarifications, please contact the school administration.

NOTIFICATION OF RIGHTS UNDER FERPA

For Elementary and Secondary Schools

The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

FERPA gives parents certain rights with respect to their children's education records. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level. Students to whom the rights have transferred are "eligible students."

- Parents or eligible students have the right to inspect and review the student's education records maintained by the school. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents or eligible students to review the records. Schools may charge a fee for copies.
- Parents or eligible students have the right to request that a school correct records which they believe to be inaccurate or misleading. If the school decides not to amend the record, the parent or eligible student then has the right to a formal hearing. After the hearing, if the school still decides not to amend the record, the parent or eligible student has the right to place a statement with the record setting forth his or her view about the contested information.
- Generally, schools must have written permission from the parent or eligible student in order to release any information from a student's education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions (34 CFR § 99.31):
 - School officials with legitimate educational interest;
 - Other schools to which a student is transferring;
 - Specified officials for audit or evaluation purposes;
 - Appropriate parties in connection with financial aid to a student;
 - Organizations conducting certain studies for or on behalf of the school;
 - Accrediting organizations;
 - To comply with a judicial order or lawfully issued subpoena;
 - Appropriate officials in cases of health and safety emergencies; and
 - State and local authorities, within a juvenile justice system, pursuant to specific State law.

Schools may disclose, without consent, "directory" information such as a student's name, address, telephone number, date and place of birth, honors and awards, and dates of attendance. However, schools must tell parents and eligible students about directory information and allow parents and eligible students a reasonable amount of time to request that the school not disclose directory information about them. Schools must notify parents and eligible students annually of their rights under FERPA. The actual means of notification (special letter, inclusion in a PTA bulletin, student handbook, or newspaper article) is left to the discretion of each school.

Family Educational Rights and Privacy Act (FERPA)

Notice for Directory Information

The *Family Educational Rights and Privacy Act* (FERPA), a Federal law, requires that Perry County School District, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child's education records. However, Perry County School District (now referred to as "the district") may disclose appropriately designated "directory information" without written consent, unless you have advised the district to the contrary in accordance with Perry County School District procedures. The primary purpose of directory information is to allow the district to include information from your child's education records in certain school publications. Examples include:

- A playbill, showing your student's role in a drama production;
- The annual yearbook;
- Honor roll or other recognition lists;
- Graduation programs; and
- Sports activity sheets, such as for wrestling, showing weight and height of team members.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965, as amended (ESEA) to provide military recruiters, upon request, with the following information – names, addresses and telephone listings – unless parents have advised the LEA that they do not want their student's information disclosed without their prior written consent.

If you do not want the district to disclose any or all of the types of information designated below as directory information from your child's education records without your prior written consent, you must notify the district in writing by July 28, 2023. The district has designated the following information as directory information:

- **Student's name**
- **Address**
- **Telephone listing**
- **School electronic mail address**
- **Photograph**
- **Major field of study**
- **Dates of attendance**
- **Grade level**
- **Participation in officially recognized activities and sports**
- **Weight and height of members of athletic teams**
- **Degrees, honors, and awards received**

FAMILY SAFETY INFORMATION

EMERGENCY OPERATIONS

The safety of each child is a primary concern of the Perry County School District. Our school district has spent considerable time and effort planning and practicing safety and security measures appropriate for dealing with major critical incidents. Every school has a school safety plan. Teachers, staff, and students participate in appropriate training covering a variety of potential crises. The school district employs a School Resource Officer and also partners with the Perry County Sheriff's Office. The school district works closely with city and county law enforcement, the Emergency Management Agency, and other public safety departments.

We ask our families for support and assistance with our safety plan. At the beginning of the school year, review the student handbook with your children. Make sure they know the expectations the school has for their academic and social behavior. Talk to your children about the things they like at school, as well as the things that may cause them some concern. Talk to school personnel about these concerns so that they may be addressed. During the year, you may hear your children discussing various drills that may occur on campus. We regularly participate in fire and weather drills, as well as lockdown and evacuation drills. The School Safety Act of 2019 requires that we conduct an active shooter drill within the first 60 days of each semester at all school sites. Due to the requirements of the law, the drill will be longer and more intensive than our previous drills. Please have a conversation with your student(s) about the importance of our drills. Remind them that our goal and priority is their safety.

It is important that you provide the school with up-to-date phone numbers and addresses, as well as vital medical information. In the event a crisis should occur at school, please be aware of the following procedures:

- Tune into the local media sources. These services will notify the community of school closings and possible evacuation sites.
- School closings will be posted on our website www.pcsdms.com. In addition, parents may check Facebook for emergency closings.
- Notification will also be sent via the district call notification system.
- Please do not call the school. We will need to keep communication lines open for emergency responders.
- Please do not come to the school unless instructed to do so by the media. It is important to keep roadways clear for emergency responders.
- If the school is in a lockdown, students will stay on campus in a secure classroom. Teachers and school personnel have received extensive training in lockdown procedures. No one will be allowed to enter during a lockdown.
- If the school must be evacuated, students will be evacuated to an alternative location, which will be released to you through media resources.
- No student will be released until everyone is accounted for and the superintendent's office authorizes the release.
- No student will be released until the authorized parent or legal guardian signs him or her out.

It is important that you trust and work with your school and emergency personnel in the event of a crisis so that these individuals can accurately implement the procedures that they have trained on throughout the year.

DELAYED START

The superintendent of schools may close any school because of an epidemic prevailing in the school district or because of the death, resignation, sickness, or dismissal of a teacher or teachers, or because of any other emergency necessitating the closing of the school. The superintendent is authorized to close schools and offices or dismiss them early in the event of hazardous weather or other emergencies which threaten the safety or health of students or staff members.

It is understood that the superintendent will take such action only after consultation with transportation, emergency management, and weather authorities. The superintendent shall notify the school board of the decision to close the schools. Parents, students, and staff members shall be informed how they shall be notified in the event of emergency closings, early dismissals, or delayed start.

When the superintendent declares a delayed start due to inclement weather conditions, typically a one or two hour delay, employees and students are expected to report to school at the delayed start time. For example, if there is a 2 hour delay from the usual start times, then, bus drivers who normally begin their routes at 6:30 am will begin at 8:30 am, staff who normally report at 7:15 am will report at 9:15 am, and school that normally begins at 7:45 am will begin at 9:45 am (students begin reporting at 9:15 am).

Information on closing and delays by the district will be announced on the district website and other internet outlets, selected radio and television stations before 6:00 a.m. No announcement means schools will operate on a normal schedule.

EXTREME WEATHER CONDITIONS

In cases of a severe weather alert, such as a tornado, hurricane, or snow/ice warning being issued by the National Weather Service, the superintendent of schools or designee shall notify each principal and necessary administrators. Children will be retained in the school buildings until it is deemed safe to dismiss them, unless they are picked up by their parents. Pupils will not be allowed to use the telephone during severe weather alerts except in cases of emergency. Parents and their children should have an arrangement worked out in advance with regard to transportation during extreme weather conditions. However, all such schools so closed shall operate for the required full time after being reopened during the scholastic year, unless the school board of the local school district submits a plan to alter the school term that is approved by the State Board of Education under the authority of Section 37-13-63(2). 37-13-65

DISASTER EMERGENCY

If the school board determines that it is not economically feasible or practicable to operate any school within the district for the full one hundred eighty (180) days required for a scholastic year as contemplated due to an enemy attack, a manmade, technological or natural disaster, or extreme weather emergency in which the Governor has declared a disaster or state of emergency or the U.S. President has declared an emergency or major disaster to exist in this

state, the school board may notify the State Department of Education of the disaster or weather emergency and submit a plan for altering the school term. If the State Board of Education finds the disaster or extreme weather to be the cause of the school not operating for the contemplated school term and that such school was in a school district covered by the Governor's or President's disaster or state of emergency declaration, it may permit that school board to operate the schools in its district for less than one hundred eighty (180) days; however, in no instance of a declared disaster or state of emergency under the provisions of this subsection shall a school board receive payment from the State Department of Education for per pupil expenditure for pupils in average daily attendance in excess of ten (10) days. 37-13-63

GANG ACTIVITY OR ASSOCIATION

Gangs which initiate, advocate, or promote activities which threaten the safety or well-being of persons or property on school grounds or which disrupt the school environment are harmful to the educational process. The use of hand signals, graffiti, or the presence of any apparel, jewelry, accessory, or manner of grooming which, by virtue of its color, arrangements, trademark, symbol, or any other attribute, which indicates or implies membership or affiliation with such group, presents a clear and present danger and is prohibited. This is contrary to the school environment and educational objectives and creates an atmosphere where unlawful acts and/or violations of school regulations may occur.

The Perry County School District shall enforce the above rule and attempt to ensure that any student wearing, carrying, or displaying gang paraphernalia or exhibiting behavior or gestures which symbolize gang membership and/or participating in activities which intimidate or affect the attendance of another student shall be subject to disciplinary action.

OTHER PROHIBITED ORGANIZATIONS/SECRET ORGANIZATIONS

No student shall actively participate or wear other indications of membership in an organization which advocates violence or hatred toward any group of students or other individuals, or an organization which either intends to or does disrupt the educational process through its purpose or actions.

State law specifically prohibits the existence of any sorority, fraternity, or secret society as part of any school in Mississippi. The Perry County School District expressly prohibits use of Perry County School District as part of the name of any of these groups, raising funds in the name of Perry County School District, conducting any part of the initiation at Perry County School District (including wearing of unusual dress, signs, and directions or instructions given to initiates by member), and the use of any school facility grounds or buildings for the purpose of meeting or holding any type of program or exhibition.

The above regulations are not inclusive; other conduct in connection with these groups is forbidden at or in the schools. Students who violate the position of the Perry County School District in this matter will be subject to suspension, with a parental conference required before student reinstatement.

STUDENT BULLYING

The Perry County School District does not condone and will not tolerate bullying or harassing behavior. Bullying or harassing behavior is any pattern of gestures or written, electronic or verbal communications, or any physical act or any threatening communications, or any act reasonably perceived as being motivated by any actual or perceived differentiating characteristic that (a) places a student or school employee in actual and reasonable fear of harm to his or her person or damage to his or her property, or (b) creates or is certain to create a hostile environment by substantially interfering with or impairing a student's educational performance, opportunities or benefits. A "hostile environment" means that the victim subjectively views the conduct as bullying or harassing behavior and the conduct is objectively severe or pervasive enough that a reasonable person would agree that it is bullying or harassing behavior.

Bullying or harassing behavior, including cyberbullying, will not be condoned or tolerated when it takes place on school property, at any school-sponsored function, on a school bus, or when it takes place off school property if such conduct, in the determination of the school superintendent or principal, renders the offending person's presence in the classroom a disruption to the educational environment of the school or a detriment to the best interest and welfare of the pupils and teacher of such class as a whole.

Cyberbullying refers to the use of electronic communication—such as social media, text messages, or emails—to harass, intimidate, or threaten others. Any cyberbullying that disrupts the school environment may result in disciplinary action, even if it occurs off-campus. Examples include sending mean or threatening messages online, posting harmful or false information or creating fake profiles to harass or impersonate someone.

The Perry County School District will make every reasonable effort to ensure that no student or school employee is subjected to bullying or harassing behavior by others. Likewise, the District will make every reasonable effort to ensure that no person engages in any act of reprisal or retaliation against a victim, witness, or a person with reliable information about an act of bullying or harassing behavior. Retaliation is strictly prohibited, and any form of intimidation, reprisal, or adverse action will result in disciplinary consequences.

The District encourages any student, parent, guardian, school employee, or volunteer who has witnessed or has reliable information that a student or school employee has been subject to any act of bullying or harassing behavior to report the incident using the PCSD Bullying/Harassment Form, available in the school office or on the district website.

The School Board directs the superintendent or designee to design and implement procedures for reporting, investigating, and addressing bullying and/or harassing behaviors. The procedures should be appropriately placed in District personnel policy handbooks, school handbooks that include discipline policies and procedures, and any other policy or procedure that deals with student or employee behavior. The discipline policies and procedures must recognize the fundamental right of every student to take "reasonable actions" as may be necessary to defend himself or herself from an attack by another student who has evidenced menacing or threatening behavior through bullying or harassing. Furthermore, the Perry County School District defines "reasonable action" as promptly reporting the behavior to a teacher, principal, counselor, or other school employee when subjected to bullying or harassing behavior. Ref: SB 2015; Miss. Code Ann. 37-7-301(e)

STUDENT COMPLAINTS OF BULLYING OR HARASSING BEHAVIOR

Students and employees in the Perry County School District are protected from bullying or harassing behavior by other students or employees. It is the intent of the Board and the administration to maintain an environment free from bullying and harassing behavior. This complaint procedure provides a process for filing, processing, and resolving complaints of such conduct. Adherence to these procedures is mandatory. The failure of any person to follow these procedures will constitute a waiver of the right to pursue a complaint at any level, including review by the Board.

1. Definitions

Bullying or harassing behavior is any pattern of gestures or written, electronic or verbal communications, or physical act or any threatening communication, or any act reasonably perceived as being motivated by any actual or perceived differentiating characteristic that (a) places a student or school employee in actual and reasonable fear of harm to his or her person or damage to his or her property, or (b) creates or is certain to create a hostile environment by substantially interfering with or impairing a student's educational performance, opportunities, or benefits.

A "hostile environment" means that the victim subjectively views the conduct as bullying or harassing behavior and the conduct is objectively severe or pervasive enough that a reasonable person would agree that it is bullying or harassing behavior.

2. Procedures for Processing a Complaint

Any student, parent, guardian, school employee, or volunteer who feels they have been a victim of bullying or harassing behavior, or has witnessed or who has reliable information that such behavior has occurred, shall report the conduct to a teacher, counselor, school administrator, other school official. The report shall be made promptly, but no later than five (5) calendar days after the alleged act or acts occurred.

Reports should be submitted using the PCSD Bullying/Harassment Form, which is available in the school office and counselor's office. A school official shall complete the form if the reporting party needs assistance. The form shall include the name of the reporting person, the specific nature and date of the misconduct, the names of the victim and alleged perpetrator, the names of any witnesses, and other relevant information.

The report shall be given promptly to the principal or superintendent, who shall institute an immediate investigation. Complaints against the principal shall be made to the superintendent, and complaints against the superintendent shall be made to the Board chairman.

The complaint shall be investigated promptly. Parents/guardians of both the alleged victim and the alleged perpetrator will be notified. The District official will arrange meetings as needed with all parties within five (5) working days of the complaint's receipt. All parties will have the opportunity to submit evidence and a list of witnesses. Findings will be documented in writing. Once the investigation is complete, the official shall notify the victim and parents, as appropriate, of the results and any disciplinary action.

If the victim, parent, or guardian is not satisfied with the decision of the District official, a written appeal may be submitted to the superintendent within ten (10) working days of the decision. The superintendent will arrange meetings as needed and provide a written decision within ten (10) working days.

If still dissatisfied, a final appeal may be submitted to the Board within ten (10) working days after receiving the superintendent's decision. The Board shall allow the victim and parent/guardian to appear within twenty (20) working days to present their case. The Board will provide a written decision within ten (10) working days following the hearing

HARASSMENT

Harassment is forbidden between student and student, teacher and student, teacher and parent, teacher and teacher or by any individual to another individual. Students are to report any harassment to a teacher or staff member as soon as possible and a preliminary report will be filed.

Harassment is forbidden on school property and during any school-authorized activity. Harassment may include, but is not limited to: name-calling, slurs, pulling on clothing, graffiti, notes or cartoons, unwelcome touching of persons or their property, hand signs or signals, gestures, facial expressions, badgering, bullying, coercion, jokes, rumors, innuendos, demeaning comments, or any verbal or written communication (including texts or other forms of electronic communications) that may make someone feel uncomfortable, embarrassed, or hurt physically or emotionally.

POSSESSION OR USE OF TOBACCO

Possession or use of tobacco or paraphernalia in any form including e-cigarettes and/or vapors is prohibited within the local buildings, on the school campus, going to or from school, or in the general vicinity of the school campus. Students possessing or using tobacco in any form, including e-cigarettes and/or vapors at school will be punished according to the discipline ladder. **(No persons under eighteen (18) years of age shall purchase any tobacco product. No student of any high school, junior high school or elementary school shall possess tobacco on any educational property as defined in Section 97-37-17, MS Code 97-32-9, (1972)).**

GENERAL DISTRICT INFORMATION/POLICIES

MAKE STATE ACCOUNTABILITY RESULTS PUBLIC

Within thirty (30) days of final State Board of Education approval of state accountability results, the Perry County School Board will publish, in a newspaper having a general circulation within the school district, and report to the State Board of Education and the Mississippi Reading Panel the following information relating to the preceding school year:

1. The provisions of this act relating to public school student progression and the school district's policies and procedures on student retention and promotion;
2. By grade, the number and percentage of all students performing at each level of competency on the reading and math portion of the annual state accountability system and the number and percentage of students given an approved alternative standardized reading assessment and the percentage of these students performing at each competency level on said alternative standardized assessment;
3. By grade, the number and percentage of all students retained in kindergarten through grade 5; and
4. Information on the total number and percentage of students who were promoted for good cause, by each category of good cause described in this act.

The MDE shall compile annually the required district information, along with state-level summary information, and report the information to the Governor, Senate, House of Representatives, and general public.

DISCIPLINE PLANS: Parental responsibility for conference appearances, fines and damages

1. A copy of the school district's student handbook distributed to each student enrolled in the district and the parents, guardian or custodian of such student shall sign a statement verifying that they have been given notice of the discipline policies. The school board shall have its official discipline plan legally audited on an annual basis to ensure that its policies and procedures are currently in compliance with applicable statutes, case law and state and federal constitutional provisions.
2. All discipline plans of school districts shall include, but not be limited to the following:
 - a. A parent, guardian or custodian of a compulsory school-age child enrolled in a public school district shall be responsible financially for his or her minor child's destructive acts against school property or persons.
 - b. A parent, guardian or custodian of a compulsory school-age child enrolled in a public school district may be requested to appear at school by an appropriate school official for conference regarding acts of the child specified in a paragraph (a) of this subsection, or for any other discipline conference regarding the acts of the child.
 - c. Any parent, guardian or custodian of a compulsory school-age child enrolled in a school district who refuses or willfully fails to attend such discipline conference specified in paragraph (b) of this section may be summoned by proper notification by the superintendent of schools and be required to attend such discipline conference; and
 - d. A parent, guardian or custodian of a compulsory school-age child enrolled in a public school district shall be responsible for any criminal fines brought against such student for unlawful activity as defined in Section 37-11-29 occurring on school grounds.
3. Any public school district shall be entitled to recover damages in an amount not to exceed twenty thousand dollars (\$20,000.00), plus necessary court cost, from the parents of any minor under the age of eighteen (18) years and over the age of six (6) years, who maliciously and willfully damages or destroys property belonging to such school district.

However, this section shall not apply to parents whose parental control of such child has been removed by court order or decree. The action authorized in this section shall be in addition to all other actions which the school district is entitled to maintain and nothing in this section shall preclude recovery in a greater amount from the minor or from person, including the parents, for damages to which such minor or other person would otherwise be liable.

PARENT CONFERENCES

Parent-teacher conferences are encouraged. Communication with parents many times is the key to student success and positive rapport with the parent. All parent-teacher conferences will be held before or after school, or during planning periods. Teachers will not be called out of their rooms to talk with a parent. A mutually satisfactory time will be arranged for the

conference. The principal will sit in on the conference if the teacher or parent requests. The counselor will assist in arranging conferences. *** (District's standard agenda for conferences is to be utilized)

Any parent, guardian or custodian of a compulsory school-age child who shall fail to attend a conference to which such parent, guardian or custodian has been summoned shall be guilty of a misdemeanor and upon conviction, shall be jailed and/or fined.

CUSTODIAL PARENTS

Perry County Schools will be responsible for issuing report cards, progress reports, and other necessary reports to either parent unless a court order states otherwise. **ONLY THE SIGNATURES OF PARENTS AND LEGAL GUARDIANS MAY GRANT PERMISSION FOR SCHOOL ACTIVITIES AND SIGN LEGAL DOCUMENTS SUCH AS INDIVIDUAL SUCCESS PLANS (ISP) AND GRANTING PERMISSION TO LEAVE SCHOOL WITH SOMEONE OTHER THAN THE CUSTODIAL PARENT.**

VISITORS

Parents are encouraged to visit the school. Visiting your child's school is one way of showing your child that you are interested in his/her success in school. It is very important that we know the people who are in the building, therefore: **EVERY VISITOR MUST CHECK IN AT THE ADMINISTRATOR'S OFFICE UPON ENTERING THE SCHOOL CAMPUS.** Visitors must be approved by administration and must surrender vehicle keys or driver's license to the office personnel before being given a **visitor badge** to wear while on campus. Anyone who fails to comply with this policy is subject to being reported to the local law enforcement authorities. This is very important in order to maintain a safe and secure environment for our students.

TEXTBOOKS

Textbooks are supplied by the school at no cost to the student on a loan basis. Since these books remain the property of the school district, defacement or abuse of books will result in the assessment of a damage fee. The amount charged will be determined according to the damage.

TRESPASSING

Students who are found on the school grounds at unauthorized times (including but not limited to early release) will be apprehended by either school officials or law enforcement personnel and may be subject to arrest. In all instances of such trespassing that involves vandalism, restitution will be the responsibility of the students and their parents. Students who are assigned to out-of-school suspension, recommended for expulsion, or expelled but are on campus unaccompanied by a parent/guardian will be considered to be trespassing.

COMPLIANCE POLICIES

The Perry County School District is in compliance with Title IV of the Civil Rights Act of 1962, including regulations in vocational education, Title IX of the Educational Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and Family Educational Rights and Privacy Act of 1974.

District policy assures that no one shall, on the grounds of race, color, age, religion, national origin, sex, or handicap, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination in any program or activity of the school. Copies of the Title IX policy of the Educational Amendments of 1972 and the Family Educational Act of 1974 are available in the principal's office in each building upon request.

CELL PHONE POLICY

Cell phone/electronic devices have been proven to be a distraction to the educational environment thus it is suggested that students leave these personal items at home. Perry County School District or its school personnel will not be responsible for any damaged, missing or stolen devices and accessories (headphones, earbuds, chargers, etc.).

Student cell phones, along with any accessories (earbuds, headphones, etc.) must not be on the person/student at any time. If these items are brought to school, students must keep them turned off, out of sight in their backpacks, at all times. Smart watches may be worn, but must be turned off while at school.

If a student refuses to adhere to the cell phone policies, the device will be confiscated and the discipline ladder will be followed.

If any student is caught recording/videoing/disseminating any violation of school policies, he/she will be placed on the discipline ladder at the discretion of the school administrator.

Consequences for failure to follow cell phone policy:

First Offense: If a cell phone is confiscated during the school day, the phone may be picked up by a parent. The parent will be given a copy of the cell phone policy and will be required to sign a formal acknowledgement.

Second Offense: If a student has a cell phone confiscated a second time, it will remain in the office for one calendar month.

Third Offense: If a student has a cell phone confiscated a third time, it will remain in the office for the remainder of the school year.

NOTE: If it is determined that a cell phone was used in a drug transaction, recording, sharing, or promoting a disturbance, texting answers, or any illegal/immoral activity,

the student will be suspended and the phone will be returned on the last school day of the school year.

FUNDRAISING

A school sponsored student organization must receive prior approval from the principal and the superintendent before beginning any fund-raising project. No student representing groups outside the school will be permitted to conduct fund raising activities in the school. Students possessing candy or other items at school for sale to other students, other than school sponsored and approved activities, will be subject to disciplinary action.

ORGANIZATIONAL FUNDS

School clubs and organizations will deposit all money and make requests for withdrawals through the office of the principal.

Failure to provide proof of insurance or failure to sign the waiver form will require the removal of the student from the program or activity. Treatment of Head Lice – Prescribed or over-the-counter anti-lice treatments are considered appropriate. Back comb hair with a fine-tooth comb to remove all the nits.

ATTENDANCE POLICIES

ATTENDANCE

The Mississippi Compulsory School Attendance Law (Miss.37-13-91) requires all children who have attained or will attain the age of six (6) years on or before September 1 of the calendar year and who have not attained the age of seventeen (17) on or before September 1st of the calendar year to be in regular attendance at school. The law also requires that the school administrators report immediately to the local school attendance officer any compulsory-school-age child who has not enrolled within fifteen (15) calendar days after the first day of the school year. In addition, the Superintendent will report any child with five (5) absences to the School Attendance Officer for appropriate consultation between the officer and parents/guardian. **When the child has twelve (12) un-excused absences, the law provides that charges of "Educational Child Neglect: may be brought against the parent/guardian. Potential punishment for Education Child Neglect is a fine of up to \$1,000.00 and/or one (1) year in jail."**

The school district must require students to be in attendance at school on a regular basis to foster student academic growth. Therefore, it is required that each student attend a minimum of 180 class days during the school year of course work.

Elementary and Middle School Students must be in attendance 63% of the instructional school day in order to be counted present for the day.

High School students **must be in attendance 50% of the class time in order to be counted present for that class.** No student will be entitled to receive academic credit for courses taken if more than 5 class periods are missed for 9 Week courses and 9 class periods for Semester courses. This is applied for each individual class period. (See ASAP policy)

Parents/guardians and attendance officer will be notified after students have been absent for five (5) unexcused days in a semester course or school year. **In the event that a student exceeds the allowable number of absences, the student will not be allowed to participate in school sponsored activities. Students should bring a note to the office on the day they return to school stating the reason for the absence and including a phone number so the absence can be verified.**

EXCUSED ABSENCES

A student may be excused for the following reasons:

1. Personal illness verified by medical note.
2. Serious illness or death in the student's immediate family. Immediate family includes: parent/guardian, brother, sister, grandparent, spouse, child, uncle, and aunt.
3. Deemed by school officials to be of sufficient educational value when compared to school work scheduled for that period or is of such urgent circumstances as to warrant and justify the absence. Written permission must be requested by a parent or guardian in advance and granted by school officials.
4. Students taking a regional, state, or national test during the school day must have approval of administration prior to missing in order for the absence to be excused.
5. Students may bring no more than 6 parental notes in a school year to excuse absences. This does not apply to tardies. Parent notes must include a valid telephone number.
6. Students must present an excuse when they return. If an excuse is not received after 5 days from the day of absence, the excuse will not be accepted.
7. College days (See High School Policies)

UNEXCUSED ABSENCES

Any other reason not listed above will be considered an unexcused absence unless approved by an administrator.

PERFECT ATTENDANCE

Perfect Attendance shall be defined and observed as no absences, no tardiness to school, and no early dismissals from school. Exceptions shall be school bus tardiness or school sponsored field/activity trips.

CARNEGIE UNIT ATTENDANCE REQUIREMENTS/AFTER SCHOOL ATTENDANCE PROGRAM (ASAP) ---- HIGH SCHOOL ONLY

Perry Central High School will operate an after school attendance program for students who have excessive absences or commit minor disciplinary infractions. Students who have excessive

 - No more than **3 absences**
 - Up to **5 absences** permitted with an **approved ASAP component**
- **½ Carnegie Unit (9-week course):**

ASAP Attendance Requirements

Students required to participate in the **ASAP program** must report at one of the following times:

- **Morning Session:** 7:30 AM – 8:25 AM (No entry after 7:30 AM)
- **Afternoon Session:** 3:45 PM – 4:30 PM (No entry after 3:45 PM)

Failure to meet these attendance requirements may result in loss of credit for the course.

For further details, please contact the school administration.

To be counted present in a class, a student will be in attendance at least 50% of the class. A student who has a long-term or major illness or injury should contact his/her principal to be excused from the after school attendance program. If a student does not attend the assigned ASAP, he/she may not receive credit for the high school course. Students will attend 1 session of ASAP for each excessive absence. ASAP may also be used as punishment for minor disciplinary infractions according to the discipline ladder.

After School Attendance Program:

1. A parent/guardian will be contacted about the assigned day of ASAP.

3. The student will stay in the designated room for the entirety of the ASAP period.
4. The student will complete assignments given by a teacher or an alternate assignment given by administration.
5. Students will not be allowed to enter ASAP without books and materials.

MAKE-UP WORK

Students who miss work due to absences are responsible for contacting teachers for make-up work. It is not the responsibility of the teacher to make arrangements with the student for make-up work. When a student is absent for any reason, they should, upon their return, ask for missed assignments and arrange with the teachers a time line to complete missed assignments. This should occur within two (2) days of their return. Students will be give the number of days missed plus one (1) to complete assignments.

Students who miss due to an out-of-school suspension will be allowed to make up his or her missed assignments, but that work must be made up within the same number of days that the student was suspended. For example, if a student has out-of-school suspension for three (3) days, upon his or her return, the student has three (3) days within which to complete his or her missed work. The requirement that the make-up work be completed within the same number of days the student missed due to out-of-school suspension does not relieve the student from the requirement that he or she complete the regular assignments given to his or her class in the time allotted as well.

STUDENT CHECK-OUT

Students may check out with a note presented to office upon arrival at school or may be picked up by an authorized person. Notes will be verified before a student is allowed to leave campus.

Phone calls will not be accepted during school hours for student check-outs. There will be NO CHECK-OUTS ALLOWED 30 MINUTES PRIOR TO DISMISSAL.

1. Students who were participating in a program that is no longer active will not be allowed to sign out early.
2. If a student is ill or an emergency arises, the student must come to the office and have a parent or preapproved person (designated and listed in active student for emergency checkout) called to come get the student.
3. If the student has a doctor or dental appointment, a pre-approved person or parent may come sign the student out or send a note that includes check-out time and telephone number where parent can be reached for verification purposes.
4. All checkout notes must be turned in before 1st period begins. School authorities have the right to refuse the release of the student if the note cannot be verified.
5. Any student checking out of school or participating in early release will not return to the campus nor will the student remain on campus after checking out.
6. Early release students are only allowed on campus during their scheduled class times.

STUDENT ARRIVAL AND DEPARTURE

Students will not be allowed on any campus without the supervision of a teacher or staff member of Perry County Schools. Students should not arrive before the scheduled student arrival time for each campus. Students should not remain after school unless they are attending a supervised school activity and are under the supervision of a staff member of the school district.

Students at Perry Central High School must exit their vehicle immediately upon arrival to campus and are not allowed to return to their vehicle until leaving campus for the day. Students who arrive on campus by bus must exit the bus and remain in the front of the school and are not allowed to enter the student parking area.

Students may not leave the school early without parental permission and must sign out in the front office before leaving campus. Students must meet the requirements established under the check-out policy. Students will be counted absent in the classes that are missed when they sign out early. Disciplinary action will be taken if a student leaves and disregards proper procedure.

STUDENT TARDINESS

Elementary

School attendance on a daily basis is critical to a child's academic success. Arrival at school on time and staying the entire school day is crucial to the learning process, especially at the elementary school level. Since students are engaged in learning activities the entire school day, parents are strongly encouraged to refrain from bringing a child late to school and from checking a student out of school.

Students are required to be at school when the tardy bell rings. **Any student arriving to school after the tardy bell MUST be escorted to the school office by a parent/guardian to obtain permission to enter class.**

The following are the only ways a tardy can be excused:

1. If a student is late for school because of a doctor or dentist appointment, the student must provide the attendance clerk with a doctor's excuse when the student is signed in to school.
2. A parent will be allowed to write six (6) notes to excuse tardies during the school year; the note to excuse a tardy must be presented to the office staff when the student is signed in to school.
3. Students who are riding a school bus that arrives late to school will not be counted as tardy.

All other tardies will be counted as unexcused.

The accumulation of three (3) unexcused tardies will result in the student receiving one (1) day of detention. The accumulation of five (5) unexcused tardies will result in the student receiving three (3) days of detention. Excessive tardiness will be turned into the truancy officer.

Middle School

School attendance on a daily basis is critical to a child's academic success. Arrival at school/class on time and staying the entire school day is crucial to the learning process, especially at the middle school level. Since students are engaged in learning activities the entire school day, parents are strongly encouraged to refrain from bringing a child late to school and from checking a student out of school.

Students are required to be at school/class when the tardy bell rings. Any student arriving at school after the tardy bell MUST be escorted to the school office by a parent/guardian to obtain permission to enter class. The teacher will document any student who arrives to class after the tardy bell rings.

The following are the only ways a tardy can be excused:

1. If a student is late for school because of a doctor or dentist appointment, the student must provide the attendance clerk with a doctor's excuse when the student is signed in to school.
2. Students who are riding a school bus that arrives late to school will not be counted as tardy.

All other tardies will be counted unexcused.

Detention will be issued for a fourth and every other tardy to school within the same term.

High School

The practice of being prompt is necessary for the student to be involved in the instructional process for the entire class period as mandated by the Department of Education. A record of each incidence of tardiness will be kept and will become a part of the student's attendance record.

1. Tardiness to School

- a. If a student arrives at school after the initial tardy bell of the day, he/she must check in at the office to receive an admission slip.
- b. A student is not tardy if:
 - i. Student had to report to a doctor and presents verification from the doctor's office.
 - ii. Student was on a late bus.
 - iii. Student was involved in an accident and presents verification from the police department or the principal has personal knowledge of the incident.
 - iv. There are medical reasons, which due to their nature, may cause a student to be tardy from time to time, if the school has been notified in writing by a doctor.

2. Tardiness to class

- a. If a student arrives to class (not to school) after the tardy bell, the teacher should mark the student tardy and follow the discipline plan outlined below.
- b. If a student arrives more than ten minutes after the tardy bell, they are truant. The teacher should notify the office and follow the discipline ladder.

After 3 parent notes, tardies will no longer be excused.

1st Offense: Warning from teacher

2nd Offense: Office Referral (Step 2 of discipline ladder)

Subsequent offenses: office referrals for tardies may result in increased placement on the discipline ladder, loss of final exam exemption, loss of driving privilege, and/or forfeiture of eligibility to participate in extra-curricular activities, including sports, or other consequences as determined by administration.

There is sufficient time to use the restroom between classes. Going to the restroom during class time is discouraged.

HOMework POLICY STATEMENT (Board Policy IHB)

The Perry County School District Board of Education recognizes the value of purposeful, well-planned, and properly motivated home assignments that are as follows:

1. Appropriate to the grade level, age, and abilities of the student;
2. Designed to stimulate initiative and independence or to reinforce and enrich classroom instruction;
3. In alignment with the goals of daily instruction;
4. Carefully planned so that home assignments are not so lengthy as to be self-defeating nor so complicated as to require assistance or resource materials not available to the student; and
5. An extension of class work that has already been introduced.

As in the assignment of in-school work, homework assignments must be left to the sound professional judgment of the teacher, who will be expected to interpret the needs and assess the abilities and interest of each student. All teachers in the Perry County School District are expected to follow the guidelines listed below in regard to their handling of homework assignments.

Time Element of Homework

The time necessary to complete a homework assignment should vary from kindergarten to twelfth grade. The maximum length of time which the school should expect an average student to devote to homework that is to be completed overnight is as follows:

1. Kindergarten, no homework
2. Grades 1-3, maximum 30 minutes
3. Grades 4-5, all subjects combined, maximum 60 minutes
4. Grades 6-8, all subjects combined, maximum 90 minutes
5. Grades 9-12, all subjects combined, maximum 120 minutes

PROGRESS REPORTS, GRADING, GRADE REPORTING

PROGRESS REPORTS

During the fifth week of each nine-week term, all teachers will inform the parents of the progress of the student in each subject. This is done by way of a progress report. Students will sign a receipt for the progress reports, which are to be signed by a parent and returned. Parents will find the progress report release dates on the school calendar.

REPORT CARDS

1. Report cards will be issued at the end of each nine week grading period.
2. Parents should be aware of dates when report cards will be issued. Parents should expect students to have their report cards on dates as noted in the district calendar. Parents should also check student progress via Active Parent. These grades will be updated weekly by teachers.

GRADE REPORTING

A -----	90-100
B -----	80-89
C -----	70-79
D -----	65-69
F -----	64 and BELOW

Daily grades will account for $\frac{1}{4}$ of the grade, tests will count $\frac{1}{2}$ of the grade, and nine weeks tests will count $\frac{1}{4}$ of the total grade. Teachers should ensure that each student has a minimum of nine grades per nine weeks excluding the exam.

Nine weeks grades are determined as follows:

		Example:
Daily Grades	$\frac{1}{4}$	86
Test (Major Projects)	$\frac{1}{2}$	$78 + 78 = 156$
9 Weeks/Final Exam	$\frac{1}{4}$	75
		$86 + 156 + 75/4 = 79$ Average

*The yearly average will be determined by adding the first and second term grades and dividing by two.

THE MULTI-TIERED SYSTEM OF SUPPORTS

Three Tier Instructional Model

The Three Tier Instructional Model is a part of State Board Policy 41.1. This model is designed to meet the needs of every student and consists of three tiers of instruction:

- Tier 1: Quality classroom instruction based on Mississippi standards.
- Tier 2: Focused supplemental instruction.
- Tier 3: Intensive interventions specifically designed to meet the individual needs of students.

If Tier 1 and Tier 2 instruction is unsuccessful, students must be referred to the Teacher Support Team (TST). The TST is the local team responsible for interventions developed at Tier 3. Each school must have a TST implemented in accordance with the process developed by the Mississippi Department of Education.

(Six-weeks minimum documented interventions, not to exceed eighteen weeks maximum per subject area.) Teachers shall use progress-monitoring information to (a) determine if students are making adequate progress, (b) identify students as soon as they begin to fall behind, and (c) modify instruction early enough to ensure each and every student gains essential skills. Monitoring of student progress is an ongoing process that may be measured through informal classroom assessment, benchmark assessment instruments, and large-scale assessments.

If strategies at Tiers I & II are unsuccessful, students must be referred to the Teacher Support Team (TST). The TST is the problem-solving unit responsible for interventions developed at Tier III. Each school must have a Teacher Support Team (TST) implemented in accordance with the process developed by the Mississippi Department of Education. The chairperson of the TST shall be the school principal as the school's instructional leader. The core members of the Teacher Support Team shall not be comprised of members of the school's Special Education staff. Special Education staff may serve in an advisory capacity only.

Interventions shall be:

- ✓ designed to address the deficit areas;
- ✓ research based;
- ✓ implemented as designed by the TST;
- ✓ supported by data regarding the effectiveness of interventions.

In addition to failing to make adequate progress following Tiers I & II, students will be referred to the Teacher Support Team for interventions as specified in the guidelines developed by MDE if any of the following events occur.

- A. Grades 1-3: A student has failed one (1) grade;
- B. Grades 4-12: A student has failed two (2) grades, OR
- C. A student failed either of the preceding two grades and has been suspended or expelled for more than twenty (20) days in the current school year.

Referrals to the Teacher Support Team must be made within the first twenty (20) school days of a school year if the student failed the preceding year resulting in a referral as stated above.

STUDENT DRESS CODE

Students are expected to dress appropriately for school and to maintain daily personal hygiene. All students are to comply with the policies listed below. VIOLATION OF DRESS CODE

1. First violation results in a warning and correction of dress offense.
2. Second violation and thereafter results in a discipline action.

SCHOOL BUS TRANSPORTATION

Riding the school bus is a privilege. This privilege carries with it some responsibilities on the part of the student. Behavior which prevents the driver and student from having a safe trip to and from school will not be tolerated.

Any violation of conduct by students, performed while on the school bus, waiting to board the school bus, or departing from the school bus, shall be addressed by utilizing the assertive discipline steps prescribed for elementary or secondary levels in the respective handbooks. Students may be denied the privilege of riding the bus because of improper behavior, including the suspension of the privilege of riding the bus for the remainder of the school year; in these matters the principal determines the action that is necessary for the safety of the other students on the bus. (MS State Code 37-7-301,e) The principal, according to the severity of offense, will determine consequences for misconduct on the bus.

Questions involving disciplinary actions should be directed to the school principal. Action requiring suspension shall be the responsibility of the school administration. The administration shall notify the transportation director/supervisor and/or bus driver and the student's parents when a student's bus riding privileges are suspended.

RESPONSIBILITIES OF THE STUDENT

23. Other misbehavior as determined by the administration including a pattern of repeated bus misbehavior will not be permitted. Written instructions from the parent must be presented to the principal before a student will be permitted to ride a bus other than his/her regular bus. The note must be given to the principal in advance in order to provide time for verification.
24. Any act, which places the safety of the students on the bus at risk, will be referred to the principal for appropriate action.
25. Students' behavior will be monitored on a random basis through video recording equipment installed on district buses. Students found to be continually disruptive or threatening to the safety of other students will be immediately removed from the bus and will be permanently suspended from bus transportation.

CONSEQUENCES FOR FAILURE TO FOLLOW BUS SAFETY RULES

Students will be disciplined for disorderly conduct on the bus. The bus driver will give to the principal a written report of the misbehavior. Reports will be investigated and offenders will be subject to the following consequences:

- **First offense:** reprimand, corporal punishment, parent care, or loss of transportation privilege for 1 to 3 days. A copy of the report will be sent home to the parent/guardian. Other appropriate action may be taken which may include suspension for 1-5 days from the bus, school, or both.

- **Second offense:** corporal punishment, parent care, or loss of transportation privilege for 3 to 5 days.
- **Third offense:** corporal punishment or loss of transportation privilege for 5 to 9 days.
- **Fourth Offense:** loss of transportation privilege for 9 days. Could also result in student being removed from the bus for the remainder of the school year.

**If a student is suspended from his/her bus, he/she may not ride any bus until the suspension ends.

Infractions involving spitting out the window, throwing articles out of the window or on the bus, smoking, striking matches, using lighters, or other dangerous behaviors will result in an immediate suspension from the school and the bus to be determined by the principal.

Fighting and vandalism or exiting the bus without permission will result in immediate suspension from the bus for:

1st offense ---- 1 nine week period

2nd offense --- 1 semester period

3rd offense ---- 1 year

Assault on the bus driver or school personnel will result in an immediate suspension from the school and a recommendation for expulsion for the remainder of the school year. A report will also be submitted to the local police department or Perry County Sheriff's Office.

The principal may, at his/her discretion, use more severe punishment than listed above if the situation warrants. When a student is suspended from the bus the parent/guardian must arrange for transportation to and from school. Regular school attendance is expected.

RIDING BUS OTHER THAN REGULARLY ASSIGNED BUS

Students often need to ride a bus to a different location other than the regular bus going to the student's residence. Such requests must be made by the parent/legal guardian in writing to the principal prior to the student being allowed to board any other bus other than the bus that the student regularly rides. Such requests must be presented to the principal on the day that the student wishes to board a different bus. The written request must be submitted by 12:00 noon on the day the boarding change is to occur. The written request must include a telephone number where the parent/legal guardian may be contacted for verification.

INTERFERENCE WITH SCHOOL BUSES

It is unlawful for any individual other than a member of the public school administration or faculty or a law enforcement official to interfere in any way with the operation of a school bus. State law prohibits unauthorized boarding of school buses or interference with passenger boarding or leaving under penalties of fine and/or imprisonment.

DISCIPLINARY POLICIES AND PROCEDURES

STUDENT CONDUCT

Although student conduct in the Perry County School District is considered in most cases to be exemplary and situations have not arisen to cause undue concern for students' welfare and safety, the Perry County School District is required to establish policies and procedures that

detail expectations of students and outline consequences of student misbehavior. The publication of these policies and procedures in the student handbooks will help assure that there is a clear understanding among students and parents concerning matters covered in the handbook under Student Conduct.

The provisions of these policies shall apply to all students at the discretion of the principal and his/her recommendation to the Board of Education of this school district. Appropriate referrals will be made to juvenile authorities as required under state law.

DISCIPLINE GENERAL INFORMATION AND GUIDELINES

The basic objective of discipline within the school may be described as fourfold:

1. To establish conditions under which no student will be permitted to prevent any teacher from teaching or any student from learning.
2. To establish and maintain study conditions conducive to learning.
3. To develop, on the part of each student, the habits and skills that make him/her self-directive and to help him/her realize that he/she is responsible for his/her own behavior.
4. To guide students in learning how to make better behavioral choices based on decision-making skills that enable them to become self-disciplined.

****In both elementary schools the *Keys to Successful Learning* will apply:**

1. Students can and will do what is asked, the first time they are asked, by any adult in the school.
2. Students can and will respect all people.
3. Students can and will do good deeds and say good things.
4. Students can and will ask permission to speak or to leave their seats.
5. Students can and will be prepared for class and do their best at all times.
6. Students can and will walk quietly from place to place, in a straight line.
7. Students can and will tell the truth at all times.

Conferences, reprimands, parent care, corporal punishment, suspension or expulsion may follow student's failure to conform to accepted standards of behavior in school.

CORPORAL PUNISHMENT

Corporal punishment is an option in the disciplinary program of the Perry County School District. The district has established procedures under which a parent/legal guardian will indicate whether he/she gives permission for his/her child to receive corporal punishment as appropriate under the assertive discipline plan outlined in the student handbook and in accordance with district policy. Alternative disciplinary actions will be required for students whose parents/legal guardians have declined in writing corporal punishment permission.

Disciplinary action in lieu of or in addition to corporal punishment may include parent care, suspension from school, referral to social services, or other appropriate disciplinary measures, including requirement that the parent or legal guardian attend classes with the child.

Corporal punishment shall be administered by an administrator in the principal's office or a designated area, with a witness present. A maximum of (3) three licks may be administered. Corporal punishment will not be administered to students with IEP and 504

Plans as described by law. All discipline K-12 will be at the discretion of the principal, subject to review by the Superintendent of Education.

SUSPENSION

Suspension (both in-school detention, ISD, and out-of-school suspension) is a forfeiture of participation in regular scheduled school activities for the time designated during suspension. Graded work missed during the time of suspension may be made up at a time designated by school officials. Students may be assigned to in-school, alternative school placement, or out-of-school suspension.

In all cases, parents must have a conference with the designated school administrator before the child will be allowed to return to classes. Telephone calls will not be acceptable. In-school detention requires that a student complete all assignments during the period of suspension. Additional time in ISD may be given for failure to complete assignments in the ISD program. A student who disrupts the ISD program will be referred to the appropriate administrator and the student will complete the assigned suspension in the district's alternative school or out-of-school; he/she will not be allowed to return to regular classes until suspension is completed in its entirety.

EXPULSION

Expulsion is the total exclusion of the student from participation in or attendance at any school District related activity. A student who has been expelled from the Perry County Schools must apply in writing to the Board of Education for possible re-admission.

DISCIPLINE DEFINITIONS

The following definitions and procedures shall be used as guidelines in matters relating to discipline and punishment.

1. **AFTER SCHOOL DETENTION**—Student detention is part of the discipline plan. Detention will be held at the discretion of the administration. Students must arrive on time or be assigned an additional hour of detention. Failure to follow the Administrator's directions during detention may result in more severe disciplinary actions. Students must provide their own way home and if they are unable to leave by this time they may be picked up at the Sheriff's Office. Students will have one day notice of assignment to detention.
2. **CORPORAL PUNISHMENT** is an option in the disciplinary program of the Perry County Schools and will be administered in accordance with the policy of the Perry County School District. The district has established procedures under which a parent/legal guardian will indicate whether he/she gives permission for his/her child to receive corporal punishment as appropriate under the assertive discipline plan outlined in the student handbook and in accordance with district policy. Alternative disciplinary actions will be required for students whose parents/legal guardians have not checked and signed the required Corporal Punishment Permission statement.
3. **PARENT CARE** is an intervention process through which a student is placed under parent supervision until a parent conference can be arranged with a building administrator. Parent care is not considered a suspension from school, but each day of a student's absence for parent care is considered an absence from school under the attendance policy.

4. **SUSPENSION/DETENTION** (both in-school detention and out-of-school suspension) is a forfeiture of participation in regulatory scheduled school activities (both Home & Away) for the time designated during suspension. Graded work missed during the time of suspension may be made up according to make-up work policy, see page 12. Students may be assigned to either in-school, or out-of-school suspension. In all cases, parents must have a conference with the designated school administrator before the child will be allowed to return to classes. Telephone calls will not be acceptable. In-school suspension requires that a student complete all assignments during the period of suspension. A student who disrupts the ISS program will be referred to the appropriate building administrator. Students who miss work due to an out-of-school suspension will be allowed to make up his or her missed assignments, but that work must be made up within the same number of days that the student was suspended. For example, if a student is suspended out-of-school for three (3) days, upon his or her return, the student has three (3) days within which to complete his or her missed work. The requirement that the make-up work be completed within the same number of days the student missed due to the out-of-school suspension does not relieve the student from the requirement that he or she complete the regular assignments given to his or her class in the time allotted as well.
5. **EXPULSION** is the total exclusion of the student from participation in or attendance at any school related activity. A student who has been expelled from the Perry County Schools must apply in writing to the Board of Education for possible readmission.

Repeated patterns of misbehavior may require counseling and parental involvement and assistance to the extent that the parent may be requested to come to school and attend classes with the student in order to identify and correct such behavioral patterns.

Conclusion

PCSD expects all students to uphold the highest standards of academic integrity. Understanding and adhering to this policy ensures a fair and honest academic environment for all.

DUE PROCESS: APPEALS OF DISCIPLINARY ACTIONS

Students are afforded due process. Information is distributed to the students regarding school rules and student conduct in the student handbook. When a disciplinary action results in a disciplinary reassignment, suspension, or expulsion, due process of law involves three procedures:

1. Prior Notification – The student and/or legal guardian is informed of the disciplinary action which is being considered.
2. Specification of Charges – The student and/or legal guardian is made aware of the misconduct for which the student is being accused.
3. Opportunity to Respond – The student and/or legal guardian is allowed to present his view of the accusations and of the disciplinary action to be taken.

If an administrator's decision is questioned, the parent or student may appeal the administrator's decision. The appeal must be made in writing to the District Discipline Appeals Committee. (District policy JCAA, DDAC)

SEARCHES

The right to inspection of students' school lockers or desks is inherent in the authority granted school boards and administrators and will be exercised to protect the well-being of all students. Not only do school authorities have a right to inspect, but their right becomes a duty when suspicion arises that something of an illegal nature may be hidden in a locker or desk. Drug dogs and metal detectors may be used in searches. By bringing a backpack, book bag, purse, etc. to school, a student hereby consents to a search of the contents by school personnel.

Repeated patterns of misbehavior may require counseling and parental involvement and assistance to the extent that the parent may be requested to come to school and attend classes with the student in order to identify and correct such behavioral patterns.

All disruptions/discipline problems and consequences shall be applicable to all students during all periods of time they are under and subject to the jurisdiction of the Board of Education of

this school district and/or while under the supervision and direction of any teacher, principal, or other authority of this school district.

The Mississippi High School Activities Association governs academic rules for students participating in activities. Students must meet all requirements by MHSAA. In order to be eligible for try-outs or for election(s), the student must meet all requirements established under the policies specifically related to each activity's area.

- A. To be eligible for participation in extra-curricular activities or election(s), eligibility will be determined at the end of each nine weeks. Students must have a cumulative average of 70 (core subjects averaged together). Students cannot have more than one failing grade. This means that more than one subject below 65 makes a student ineligible to participate in extra-curricular activities. Students who are failing one or more state tested courses **MUST** attend one hour per week of **MANDATORY** tutoring (during athletic block) for each failing course until his or her grade has

improved to passing. This policy must be monitored by the athletic director and respective coach(s).

If by the end of the nine weeks the requirements have not been met, the student would be ineligible. Students may become eligible if they meet requirements at the next progress report.

- G. Any student who stops participating in a sport during that season may not participate in any other sport until that season ends. If a student stops participating due to a medical condition, the principal may allow the student to participate in another sport. The principal must receive documentation from a doctor that permits the student to participate in one sport but excludes them from others due to medical reasons.

PERRY COUNTY SCHOOL DISTRICT STUDENT DRUG TESTING EXTRA-CURRICULAR ACTIVITIES

The Perry County School District School Board, in an effort to protect the health and safety of its students from illegal and/or performance enhancing drug use and abuse, thereby setting an example for all other students of this school district, has adopted the following policy for drug testing of students participating in extracurricular activities. Participation in school-sponsored extracurricular activities is a privilege. Illegal drug use of any kind is incompatible with participation in any extracurricular activities on behalf of the school district. This policy is intended to complement all other policies, rules, and regulations of the Perry County School District regarding possession or use of illegal drugs. This policy is not intended to be disciplinary or punitive in nature. The sanctions of this policy relate solely to limiting the opportunity of any student found to be in violation of the policy to participate in any extracurricular activities. There will be no academic sanction for violation of this policy. This policy shall apply to all participant students in Grades 9-12 or any student participating in varsity sports at Perry Central High School.

PROCEDURES

The drug-testing program shall be implemented in accordance with the established Perry County School Board Policy, and with the advice and assistance of representatives from the medical profession. The contracting biomedical laboratory shall be approved by the Perry County Board of Education and conduct testing according to national accepted standards and procedures. The testing shall be implemented only after written consent from the student and the parent legal guardian. If any student and/or parent/legal guardian refuses to sign the drug

testing informational release form or permission for the student to take the drug test, the student will immediately be suspended from participation in the extracurricular activity.

1. Each semester the school principal will present an information session to students to educate them about the sample collection process, privacy arrangements, and drug testing procedures. The students will also be informed of consequences of positive drug tests and related procedures and practices.
2. **Consent Form.** Any student who participates in extracurricular activities shall be provided with a copy of this policy and an "extracurricular activities student drug testing program consent form." This form shall provide consent for a sample of urine from the extracurricular participant to be tested for illegal or performance- enhancing drugs. The consent form must be read, signed, and dated by the student, parent or custodial guardian, and coach/sponsor before a participant student shall be eligible to practice or participate in any extracurricular activity. If any student, parent or guardian refuses to sign the consent to test and authorization to release form, the student will immediately be withdrawn from the extracurricular activity.
3. Each participant may be tested prior to the start of his/her season or extracurricular activity. Extracurricular participants who move into the district after the school year begins will be required to have a drug use test before being eligible to participate.
4. Random tests will be conducted on 10% of the selection pool at a various time during the school year. Students will be assigned a confidential number for the purpose of random selection.
5. **Drug Use Testing:** Any drug use test required by the school district under this policy will be administered by or at the direction of a professional laboratory chosen by the school district that uses scientifically validated toxicological methods.
 - a. The participant will be required to present proper identification at the collection site.
 - b. Each participant will be interviewed by the person collecting the sample to document relevant information to ensure proper identification of the specimen.
 - c. The participant will be asked to remove any coat or outer garments that might conceal materials that could be used to alter the specimen.
 - d. The specimen will be collected in a single use container that is sealed until given to the participant just prior to entering the collection room. The person collecting the sample will ensure that the participant does not have access to water or other substances that might alter the specimen.
 - e. The participant will enter the collection room and fill the container with the appropriate amount of urine.
 - f. The person collecting the specimen will follow processes that will ensure that no specimen is altered before transportation to the lab.
6. **Testing Monitor:** All aspects of the drug use testing program, including the taking of specimens, will be conducted to safeguard the personal and privacy rights of students to the maximum degree possible. If at any time during the testing procedure the collector has reason to believe or suspect that a student is tampering with the specimen, the collector may stop the procedure and inform the athletic

director/sponsor who will then determine if a new sample should be obtained.

7. **Test Results:** If the initial drug use test is positive, the initial test result will be subject to confirmation by a second test of the same specimen. The second test will use the gas chromatography/mass spectrometry technique. The unused portion of a specimen that tested positive shall be preserved by the laboratory for six months or to the end of the school year, whichever comes first. Student records will be retained until the end of the school year.

CONFIDENTIALITY

If the drug use test for any student has a positive result, the medical review officer will contact the school principal with the results. Procedures for maintaining confidentiality will be practiced. The school principal will then contact the parent or guardian of the student with instructions to contact the medical review officer to submit additional information. The medical review officer will review the additional information provided by the student, and/or the parent or guardian and determine if the positive test result occurred as a result of consumption of an illegal or performance-enhancing drug.

If it is determined that the positive test occurred as a result of the presence of an illegal or performance enhancing drug in the student's urine sample, the medical review officer will contact the school principal who will schedule a conference with the parent/guardian, the student, and the sponsor or coach of the extracurricular activity in which the student is involved. At the conference, the student and parent/guardian will be informed of which controlled substances were discovered as a result of the tests. The school district will rely on the opinion of the medical review officer in determining whether the positive test result was produced by other than consumption of an illegal drug or performance enhancing drug. Records of test results and referral to counseling or treatment are kept confidential and will never be part of a student's educational record, nor will they be forwarded to another school. Under no circumstances will results from a drug use test under this policy be turned over to any law enforcement officer or agency.

Appeal

A student who has been determined by the testing laboratory to test positive after two separate drug tests on the same urine sample, and who then has been determined to be in violation of this policy shall have the right to appeal the decision to a District Review Committee. Such appeal must be filed within five business days of notice of the initial report of the offense as stated in this policy, during which time the student will remain eligible to participate in any extracurricular activities.

The District Review committee shall review the findings of the laboratory and hear the recommendation of the school principal in accordance with this policy and then determine whether the original finding was justified. There is no further appeal right from the District Review Committee's Decision. The decision shall be conclusive in all respects. Any necessary interpretation or application of this policy shall be in the sole and exclusive judgment and discretion of the superintendent, which shall be final and not subject to appeal.

CONSEQUENCES

1. **First positive test:** The student will be suspended from participation in all extracurricular activities for 30 days. The student and parent/guardian are responsible for providing and attending mandatory drug abuse counseling by a qualified drug counselor two times during the suspension period as well as one follow-up session. Proof of completion will be required. The participant must submit to retest 30 days from the notification of the positive result. If the activity that the participant is associated with has ended its season or activity, the suspension will carry over to the next season.
2. **Second positive test:** The student will be suspended from participation in any extracurricular activity for 90 days. The student and parent/guardian are responsible for providing and attending mandatory drug abuse counseling by a qualified drug counselor six times during the suspension as well as three follow-up sessions. Proof of completion will be required. The participant will submit to a retest 30 day from the notification of the positive result. If the activity that the participant is associated with has ended its season or activity, the suspension will carry over to the next season.
3. **Third positive test:** The student will be suspended from participation in any extracurricular activity for the remainder of his/her time in the Perry County School District.
4. **Self-referral:** A student who self-refers to the athletic director, principal, coach or sponsor before being notified to submit a drug use test will be allowed to remain active in all extracurricular activities. However, the student will be considered to have committed his/her first offense under this policy and will be required to retest as would a student who has tested positive.
5. **Refusal to submit to a drug use test:** If a participant student refuses to submit to a drug use test under this policy, such student shall not be eligible to participate in any extracurricular activity, including all meetings, practices, performances, and competition for 180 school days, upon completion of which the participating student shall again be subject to this policy.

In addition to the grade average required, the student cannot accumulate more than five (5) absences during the year in that class/subject for any reason except school sponsored activities. The principal, at his/her discretion, can give consideration for bereavement. Students may not be exempt from any exams until all fines (library, cafeteria or textbooks) have been paid and all books returned.

During testing and review periods attendance will still be counted. If a student receives three (3) or more Office Disciplinary Referrals from an individual teacher to the principal, that student shall automatically lose any right to exemption in that teacher's class.

HONORS AND AWARDS

Superior performance in both academic and non-academic areas for students in Perry County School District shall be recognized. To accomplish this, the following honors and awards will be given to deserving students:

SCREENING

DYSLEXIA SCREENER

A dyslexia screener is administered to all students during the spring of their kindergarten year and the fall of their first grade year. If a student fails the screener, the parent or legal guardian will be notified of the results of the screener.

SPEECH LANGUAGE SCREENER

The Perry County School District ensures that all first grade students are screened for articulation, language, voice, and fluency disorders. If a student fails the screener, the parent or legal guardian will be notified of the results of the screener.

PROMOTION AND RETENTION POLICY GRADES K-5

Beginning in the 2014-2015 school year, a student scoring below the established score in reading on the established state assessment for third grade will not be promoted to fourth grade unless the student meets the good cause exemptions for promotion. (See Literacy Based Promotion Act Policy below)

In an effort to better determine academic progress of students in kindergarten and first grade, Perry County School District will utilize a standards-based checklist to indicate students' mastery of skills. The checklist of skills will be used instead of numerical or letter grades. In the classroom, teachers will use checklists, rubrics, student observation, detailed notes, and written assessments to determine student mastery. The Perry County Standards-based Checklist includes the skills expected to be mastered at each grade level in reading, language arts, and math, and the essential skills are highlighted. Mastery of skill is defined as being able to use 80% of the skill appropriately in each subject. Kindergarten students must be able to identify all letters with 100% accuracy. The goal is for all students to gain mastery of the skills, so students will be given multiple opportunities to learn skills and to show mastery.

Kindergarten retention will be recommended for any student who fails to meet minimum requirements on benchmark and state Kindergarten Readiness Assessments.

Grades 1-5

1. To be promoted, students in Grades 1-3 must pass Math, English Language Arts (ELA), Science, and Social Studies.
2. To be promoted, students in Grades 4-5 must pass Math, English Language Arts (ELA), Science, and Social Studies.
3. Exceptions to this policy are made only after consultation with parents, teachers, and administrators based on student performance data.

LITERACY BASED PROMOTION ACT (SB 2347)

Amended 2016 (SB 2157)

PURPOSE AND INTENT (Section 37-177-1)

The 2013 legislation mandates that third graders must score at an acceptable level on a state assessment in order to be promoted to the fourth grade. The Literacy-Based Promotion Act places an emphasis on grade-level reading skills for public school students, particularly as they progress through kindergarten and grades 1 through 3. The purpose of this legislature is to improve reading skills of all kindergarten and first through third grade students enrolled in public schools, to prohibit student promotion based on age or other social factors, and to ensure parents or legal guardians are informed of students' academic progress.

Intensive Reading Instruction and Intervention

Each student who exhibits a substantial deficiency in reading at any time, as demonstrated through performance on a reading screener approved or developed by the State Department of Education or through locally determined assessments and teacher observations conducted in kindergarten and grades 1 through 3 or through statewide end-of-year assessments or approved alternate yearly assessments in Grade 3, shall be given intensive reading instruction and intervention immediately following the identification of the reading deficiency. The intensive reading instruction and intervention must be documented for each student in an individual reading plan, which includes, at a minimum, the following:

- (a) The student's specific, diagnosed reading skill deficiencies as determined (or identified) by diagnostic assessment data;
- (b) The goals and benchmarks for growth;
- (c) How progress will be monitored and evaluated;
- (d) The type of additional instructional services and interventions the student will receive;
- (e) The research-based reading instructional programming the teacher will use to provide reading instruction, addressing the areas of phonemic awareness, phonics, fluency, vocabulary and comprehension;
- (f) The strategies the student's parent is encouraged to use in assisting the student to achieve reading competency; and
- (g) Any additional services the teacher deems available and appropriate to accelerate the student's reading skill development.

The universal reading screener or locally determined reading assessment may be given in the first thirty (30) days of the school year and repeated, if indicated, at midyear and at the end of the school year to determine student progression in reading in kindergarten through third grade. If it is determined that the student continues to have a reading deficiency, the student shall be provided with continued intensive reading instruction and intervention by the school district until the reading deficiency is remedied. A student exhibiting continued reading deficiency with continued intensive interventions should be considered for exceptional criteria (special education) evaluation.

A kindergarten or first-, second-, or third-grade student identified with a deficiency in reading shall be provided intensive interventions in reading to ameliorate the student's specific reading deficiency, as identified by a valid and reliable diagnostic assessment. The intensive

intervention shall include effective instructional strategies and appropriate teaching methodologies necessary to assist the student in becoming a successful reader, able to read at or above grade level, and ready for promotion to the next grade. A kindergarten-, first-, second- or third-grade student identified with a reading deficiency or not promoted may be placed in a transition class.

PARENT NOTIFICATION OF READING DEFICIENCY (Section 37-177-3)

Immediately upon the determination of a reading deficiency, and subsequently with each quarterly progress report, until the deficiency is remediated, the parent or legal guardian of a kindergarten- or first-, second-, or third-grade student who exhibits a substantial deficiency in reading shall be notified in writing by the student's teacher of the following:

1. That the student has been identified as having a substantial deficiency in reading;
2. A description of the services that the school district currently is providing to the student;
3. A description of the proposed supplemental instructional services and supports that are designed to remediate the identified area of reading deficiency which the school district plans to provide the student, as outlined in the student's individual reading plan;
4. That if the student's reading deficiency is not remediated before the end of the student's third-grade year, the student will not be promoted to fourth grade unless a good cause exemption specified under Section 37-177-11 is met;
5. Strategies for parents and guardians to use in helping the student to succeed in reading proficiency; and
6. That while the state annual accountability assessment for reading in third grade is the initial determinant, it is not the sole determiner of promotion and that approved alternative standardized assessments are available to assist the school district in knowing when a child is reading at or above grade level and ready for promotion to the next grade.

ALTERNATIVE STANDARDIZED ASSESSMENTS (Section 37-177-5)

The State Department of Education shall establish a Mississippi Reading Panel to collaborate with the State Department of Education in recommending appropriate equitable alternative standardized assessments and cut scores to be used to determine promotion to the fourth grade of those third-grade students who did not score at the required achievement level on the state annual accountability assessment, as outlined in Section 37-177-9, or who, for unforeseen circumstances, were unable to take the assessment. The panel should have knowledge and input in the adoption or development of a universal screener for required use only in select schools most in need for the reading intervention program to identify reading deficiencies and determine progress. A suggestive list of no less than four (4) screening assessments should be available to schools not selected for the critical reading intervention program taking into consideration those screening assessments already being used satisfactorily in Mississippi elementary schools. An approved alternative standardized reading assessment may be used in years when the state is transitioning to a new state annual accountability assessment.

NO SOCIAL PROMOTION (Section 37-177-9)

Beginning in the 2014-2015 school year, if a student's reading deficiency is not remedied by the end of the student's third-grade year, as demonstrated by the student scoring the established achievement level in reading on the state annual accountability assessment or on an approved alternative standardized assessment for third grade, the student shall not be promoted to fourth grade.

Beginning in the 2018-2019 school year, if a student's reading deficiency is not remedied by the end of the student's third-grade year, as demonstrated by the student scoring above the lowest two (2) achievement levels in reading on the state annual accountability assessment or on an approved alternative standardized assessment for third grade, the student shall not be promoted to fourth grade.

GOOD CAUSE EXEMPTION (Section 37-177-11)

1. A third grade student who does not meet the academic requirements for promotion to the fourth grade may be promoted by the school district only for good cause. Good Cause Exemptions for promotion are limited to the following students:
 - (a) Limited English proficient students who have had (2) years of instruction in an English Language Learner program;
 - (b) Students with disabilities whose individual education plan (IEP) indicates that participation in the statewide accountability assessment program is not appropriate, as authorized under state law;
 - (c) Students with a disability who participate in the state annual accountability assessment and who have an IEP or a Section 504 plan that reflects that the individual student has received intensive remediation in reading for more than two (2) years but still demonstrates a deficiency in reading or previously was retained in kindergarten or first, second, or third grade;
 - (d) Students who demonstrate an acceptable level of reading proficiency on an alternative standardized assessment approved by the State Board of Education; and
 - (e) Students who have received intensive intervention in reading for two (2) or more years but still demonstrate a deficiency in reading and who previously were retained in kindergarten or first, second, or third grade for a total of two (2) years and have not met exceptional education criteria.

A student who is promoted to fourth grade with a good cause exemption shall be provided an individual reading plan as described in Section 37-177-1(2), which outlines intensive reading instruction and intervention informed by specialized diagnostic information and delivered through specific reading strategies to meet the needs of each student so promoted. The school district shall assist schools and teachers in implementing reading strategies that research has shown to be successful in improving reading among students with persistent reading difficulties.

Good Cause Request

A request for good cause exemptions for a third-grade student from the academic requirements established for promotion to fourth grade must be made consistent with the following:

- (a) Documentation must be submitted from the student's teacher to the school principal which indicates that the promotion of the student is appropriate and is based upon the student's record. The documentation must consist of the good cause exemption being requested and must clearly prove that the student is covered by one (1) of the good cause exemptions listed in subsection 1 (a) through (e) of this section.
- (b) The principal shall review and discuss the recommendations with the teacher and parents and make a determination as to whether or not the student should be promoted based on requirements set forth in this act. If the principal determines that the student should be promoted, based on the documentation provided, the principal must make the recommendation in writing to the school district superintendent, who, in writing, may accept or reject the principal's recommendation.

The parent of any student promoted may choose that the student be retained for one (1) year, even if the principal and district superintendent determines otherwise.

THIRD GRADE RETENTION (Section 37-177-13)

Beginning in the 2014-2015 school year, each school district shall take the following actions for retained third grade students:

1. Provide third grade students who are not promoted with intensive instructional services, progress monitoring measures, and supports to remediate the identified areas of reading deficiency, as outlined in the student's individual reading plan, including a minimum of ninety (90) minutes during regular school hours of daily, scientifically research-based reading instruction that includes phonemic awareness, phonics, fluency, vocabulary, and comprehension, and other strategies prescribed by the school district, which may include, but are not limited to:
 - i. Small group instruction;
 - ii. Reduced teacher - student ratios;
 - iii. Tutoring in scientifically research-based reading services in addition to the regular school day;
 - iv. The option of transition classes;
 - v. Extended school day, week or year; and
 - vi. Summer reading camps
2. Provide written notification to the parent or legal guardian of any third-grade student who is retained that the student has not met the proficiency level required for promotion and the reasons the student is not eligible for a good cause exemption. This notification must include a description of proposed interventions and supports that will be provided to the child to remediate the identified areas of reading deficiency, as outlined in the student's individual reading plan. This notification must be provided to the parent or legal guardian in writing, in a format adopted by the State Board of Education in addition to report cards given by the teacher.
3. Third grade students who are retained shall be provided with a high-performing teacher, as determined by student performance data, particularly related to student growth in

reading, above-satisfactory performance appraisals, and/or specific training relevant to implementation of this act.

4. Provide parents and legal guardians of third grade students with a "Read at Home" plan outlined in a parental contract, including participation in regular parent-guided home reading.

DROP-OFF/PICK-UP PROCEDURES

It is critical for the safety of your children that the directions of the drop-off/pick-up area are followed. Students are to unload and load only where the adults are supervising can easily observe them. Parents are asked to please not block or delay traffic in the area.

Parents are urged to use extreme caution when children unload from vehicles. Dangerous situations exist when students get out of cars with clothing or straps from book bags getting near doors as they are closed. Parents should avoid distractions such as cell phones or pets. Please be sure your child has cleared the vehicle before pulling away. Students must move quickly without running to the loading area at dismissal time, pay attention to the loading supervisors and watch for his/her ride.

PARENTS ARE REQUIRED TO DISPLAY THE SCHOOL ISSUED CAR RIDER TAG IN ORDER TO PICK UP A STUDENT. If a tag is not visible, the driver MUST come inside, be confirmed as an approved contact, and show a valid ID in order to pick up a student. Parents who are picking up children may not arrive on campus any earlier than 2:15 p.m. Morning car line will begin at 7:00 a.m. and afternoon car line will begin at 2:30 p.m. All students should be picked up no later than 3:00 p.m.

Students who are habitually left at school may be referred to the appropriate youth services.
