9. Other Input: Imelda Vega stated that she has seen in other school districts that EL students sometimes get support in their home language in addition to learning English. She wanted to know if that is something we could think of doing in our district. Carmen Mora stated that this would be difficult in that different households have different styles of speaking Spanish. She would like to see more reading programs outside of the classroom to work on language skills and also to find ways for more parent involvement. Mrs. Diederich commented that prior to COVID we did district events such as math or science to invite parents to learn ways to help their students. Deisy Cuevas stated that it would be important to try and do those types of activities for families again. She feels that Zoom has really hindered Hispanic families primarily because of the technology. Mrs. Mora stated that we need to find ways to bring families in because the schools can't do everything. We need our families to get more involved. Lupita asked if anyone could come to our DELAC meetings. It was stated yes. She also asked if our reclassification number is average of how many kids were reclassified last year? Mrs. Diederich would have to go look at that and get back to her. Mrs. Diederich asked the group to brainstorm ideas over the summer on ways to involve our Hispanic families and when we reconvene next school year we can make this a goal for our team. There were no more questions.
