### INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees Kendrick Joint School District No. 283 Kendrick, Idaho

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the Kendrick Joint School District No. 283, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Summary of Opinions**

Opinion UnitType of OpinionGovernmental ActivitiesUnmodifiedAggregate discretely presented component unitQualifiedGeneral FundUnmodifiedDebt Service FundUnmodifiedAggregate remaining fund informationUnmodified

### Basis for Qualified Opinion on Aggregate Discretely Presented Component Unit

The financial statements of Kendrick Juliaetta & 7 Ridges Education Foundation, Inc. have not been audited, and we were not engaged to audit the Kendrick Juliaetta & 7 Ridges Education Foundation, Inc.'s financial statements as a part of our audit of Kendrick Joint School District No. 283's basic financial statements. Kendrick Juliaetta & 7 Ridges Education Foundation, Inc.'s financial activities are included in the District's basic financial statements as a discretely presented component unit and represent all of the assets, net position, and revenues, respectively, of the District's aggregate discretely presented component unit.

### **Qualified Opinion**

In our opinion, except for the effects of the matters described in the "Basis for Qualified Opinion on the Aggregate Discretely Presented Component Unit" paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of the aggregate discretely presented component unit of Kendrick Joint School District No. 283, as of June 30, 2019, and the changes in financial position thereof and for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Unmodified Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Kendrick Joint School District No. 283, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows, and the respective changes in financial position, thereof and for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Emphasis of Matter**

As discussed in Note 14 to the financial statements, the District recorded a prior period adjustment to recognize a deposit account held at the State. Additionally, the District recorded a prior period adjustment as a result of implementing GASB 75 related to other postemployment benefits for sick leave.

### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 7-11, budgetary comparison information on pages 49-50, the net pension liability related schedules on page 51, the other post-employment benefits liability schedule on page 52, and the net OPEB asset – sick leave plan related schedules on page 53 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information or provide any assurance.

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Kendrick Joint School District No. 283's basic financial statements. The combining and nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the financial statements.

The combining and nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and nonmajor fund financial statements are fairly stated in all material respects in relation to the financial statements as a whole.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 23, 2019 on our consideration of the Kendrick Joint School District No. 283's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government* 

Auditing Standards in considering Kendrick Joint School District No. 283's internal control over financial reporting and compliance.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees Kendrick Joint School District No. 283 Kendrick, Idaho

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of governmental activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of Kendrick Joint School District No. 283, as of and for the year ended June 30, 2019 and the related notes to the financial statements, which collectively comprise Kendrick Joint School District No. 283's basic financial statements, and have issued our report thereon dated October 23, 2019.

### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Kendrick Joint School District No. 283's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Kendrick Joint School District No. 283's internal control. Accordingly, we do not express an opinion on the effectiveness of the Kendrick Joint School District No. 283's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies in internal control over financial reporting (Finding 2019-001, 2019-002, 2019-003, 2019-004, and 2019-005).

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Kendrick Joint School District No. 283's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### MANAGEMENT'S DISCUSSION AND ANALYSIS For the Year Ended June 30, 2019

The discussion and analysis of the Kendrick Joint School District No. 283's financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2019.

### **Financial Highlights**

- Kendrick Joint School District carried a fund balance of \$1,191,953 thru June 30, 2019. Patrons funded a two-year Supplemental Levy in 2017-2018 totaling \$810,000.00 per year. We are in the last year of the two-year Supplemental Levy. The State Department of Education is continuing to follow and fund the Career Ladder Legislation, increasing Instructional and Pupil Service Staff yearly until 2020. Kendrick School District raised the classified wages in July of 2018 approximately 10% on average.
- The School board authorized the sale of General Obligation Refunding Bonds Series 2018 to refinance the General Obligation School Bond series 2007 last year. We are continuing to pay on this bond thru August 15, 2031.
- Plant Facility Levy improvements to the Kendrick Jr./Sr. High School completed the classroom remodel project two years ago by adding suspended ceilings with HVAC ductwork, new lighting, and replacing the door frames, doors and locks in each classroom. Building improvements at Juliaetta Elementary include installation of an HVAC unit in the Principal's office. Carpet was also replaced at both schools. The gym floor was resurfaced at the high school.
- Other improvements expensed from the General Fund were the demolition and removal of the old District Office.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

<u>Government-wide Financial Statements.</u> The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The statements present an aggregate view of the District's finances. They contain useful long-term information for the just completed fiscal year.

The *statement of net position* presents information on all of the assets, deferred outflows of resources, liabilities and deferred inflows of resources of the District, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the net position of the District changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

In the government-wide financial statements, the District's activities are all classified as government activities. Governmental activities include all regular and special education, all educational support activities, administration, custodial, maintenance, transportation and food service. Most of these activities are supported by property taxes and formula aid from the State of Idaho.

<u>Fund Financial Statements</u>. Funds are accounting devices the District uses to track sources of funding and spending for specific programs and to demonstrate compliance with various regulatory requirements. Fund Financial statements generally report operation in more detail than the government-wide statements. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on those which are considered most significant.

Governmental Funds. Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported on the "modified accrual" basis of accounting which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides.

*Proprietary Fund.* This internal service fund records transactions for the medical risk pool. It uses the same basis of accounting as business-type activities, and is consolidated with the governmental activities in the statements for the District as a whole.

Fiduciary Funds. The District serves as trustee, or fiduciary, for student organizations. The assets of these organizations belong to the organization, and not the District. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and only by those to whom the assets belong. These activities are excluded from the District-wide financial statements because the District cannot use these assets to finance its operation.

**Notes to the Financial Statements.** The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

### **Government-Wide Financial Analysis**

Net position may serve as a useful indicator of a district's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$3,897,909.

| Liabilities                           |               |               |            |
| Current Liabilities                   | 501,704       | 441,954       | 59,750     |
| Noncurrent Liabilities                | 2,440,195     | 2,665,818     | (225,623)  |
| Total Liabilities                     | 2,941,899     | 3,107,772     | (165,873)  |
| Deferred Inflows of Resources         | 1,241,829     | 1,167,918     | 73,911     |
| Net Position                          |               |               |            |
| Net investment in capital assets      | 2,601,066     | 2,541,551     | 59,515     |
| Restricted                            | 879,736       | 788,145       | 91,591     |
| Unrestricted                          | 417,107       | 250,913       | 166,194    |
| Total Net Position                    | \$ 3,897,909  | \$ 3,580,609  | \$ 317,300 |

The largest portions of the District's net position are (66.73%) reflect investments in capital assets (i.e. land, building, and improvements, furniture, and equipment) net of related debt (general obligation bonds) used to acquire those assets still outstanding. These capital assets provide services to students; consequently, these assets are not available for future spending.

An additional portion of the District's net position (22.57%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (10.70%) may be used to meet the District's ongoing obligations to students, employee, and creditors.

The unrestricted net position amount has been earmarked for the following purposes: To meet cash flow needs throughout the year and to provide a General Fund contingency.

Changes in Net Position - The table below shows the changes in net position. The District had total revenues of \$3,944,231 and total expenses of \$3,738,804 that generated an increase in net position of \$205,427.

### **District's Fund Financial Analysis**

<u>General Fund.</u> The General fund is the maintenance and operation fund and the most significant budgeted fund. At the end of the current fiscal year, the General Fund balance is \$1,191,953, which is up 3.70% from the ending balance in the prior fiscal year of \$1,148,960. The reason for the increase was because there was an increase in revenue in the General Fund. A minimum fund balance of two month's expenses is recommended by the Government Finance Officers Association. Revenues in the General fund totaled \$3,033,485, a 2.90% increase from the prior year of \$2,947,803. Expenditures in the General Fund totaled \$2,890,397, a 6.78% increase from the prior year of \$2,706,850.

<u>Internal Service Fund.</u> The District has an internal service fund which accounts for the activities of the Self-Insured Employee Medical Pool. To mitigate the effects of increasing health insurance premiums and position the District for partially self-insuring medical deductibles in the future, the Board contributed \$30,000 of the 2001 "Gainsharing" distribution into this fund. This fund has a net position totaling \$406,773 at June 30, 2019.

<u>Capital Assets.</u> The Plant Facility Fund is used for capital construction, building and site improvement, remodeling, and equipment; to purchase school buses; for lease and lease purchase agreements for any of the above purposes. A levy in the amount of \$50,000 was approved by the voters in 2009 and continues for ten years. At the end of the current fiscal year, the balance in the Capital Projects Funds is \$144,176. This is a \$6,757 decrease from the prior balance of \$150,933.

## Capital Assets Governmental Activities Net of Accumulated Depreciation

### RECONCILIATION OF TOTAL GOVERNMENTAL FUND BALANCES TO NET POSITION OF GOVERNMENTAL ACTIVITIES June 30, 2019

| Total fund balances - governmental funds   | 1,653,805    |
|--|--------------|
| Amounts reported for governmental activities in the Statement of Net Position are different because: |              |
| Capital assets used in governmental activities are not financial                                     |              |
| resources and therefore are not reported as assets in governmental funds:                            |              |
| Cost of capital assets   | 7,554,696    |
| Accumulated depreciation   | (3,428,630)  |
| Property taxes receivable will be collected this year, but are not available                         |              |
| soon enough to pay for the current period's expenditures, and therefore                              |              |
| are deferred in the funds.   | 56,594       |
| Internal service funds are used by the District to charge the cost of medical                        |              |
| benefits to the individual funds. The assets and liabilities of the internal service                 |              |
| funds are included in governmental activities.   | 406,773      |
| Certain pension related items are recorded as a deferred outflow or inflow of                        |              |
| resources and recognized in future periods for governmental activities:                              |              |
| Deferred outflows of resources   | 315,431      |
| Deferred inflows of resources  | (202,768)    |
|  | (===/: ==/   |
| Certain OPEB related items are recorded as a deferred outflow or inflow of                           |              |
| resources and recognized in future periods for governmental activities:                              |              |
| Deferred outflows of resources   | 8,648        |
| Deferred inflows of resources  | (9,307)      |
| Certain OPEB Sick Leave related items are recorded as a deferred outflow or inflow of                |              |
| resources and recognized in future periods for governmental activities:                              |              |
| Deferred outflow of resources  | 35,549       |
| Deferred inflow of resources   | (26,608)     |
| Total Net OPEB asset for PERSI sick leave is a long-term asset and is not available                  |              |
| to pay current year expenditures, therefore is not reported as an asset                              |              |
| in governmental funds  | 93,989       |
|  |              |
| Interest is accrued on outstanding debt in the government-wide financial statements,                 |              |
| whereas in the governmental fund financial statements, an interest expenditure is                    | (25.000)     |
| reported when paid.  | (25,068)     |
| Long-term liabilities are not due and payable in the current period and                              |              |
| therefore are not reported as liabilities in the funds. Long-term liabilities                        |              |
| at year-end consist of the following:  |              |
| Compensated absences   | (4,801)      |
| General obligation bonds   | (1,525,000)  |
| Other post-employment benefits liability   | (306,926)    |
| Net pension liability  | (698,468)    |
| Total net position - governmental activities   | \$ 3,897,909 |
|  |              |

### NOTES TO THE FINANCIAL STATEMENTS June 30, 2019

### NOTE 1 Summary of Significant Accounting Policies

The financial statements of the Kendrick Joint School District No. 283 have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below:

Reporting Entity - The Kendrick Joint School District No. 283 is the basic level of government, which has financial accountability, and control over all activities related to the public school education within the District. The Board receives funding from local, state and federal government sources and must comply with the requirements of these funding source entities. However, the Board is not included in any other governmental "reporting entity" as defined by GASB pronouncements, since Board members are elected by the public and have decision making authority, the authority to levy taxes, the power to designate management, the ability to significantly influence operations and have primary financial accountability for fiscal matters. The unaudited statements of Kendrick Juliaetta & 7 Ridges Education Foundation, Inc., a component unit, is presented on the Statement of Net Position and Statement of Revenues, Expenditures and Changes in Net Position.

**Basis of Presentation, Fund Accounting** - District-wide Statements: The statement of net position and the statement of activities display information about the financial activities of the overall district, except for fiduciary activities. Only governmental-type activities are shown, since there are no "business-type activities" within the school district.

The statement of activities presents a comparison between direct expenses and program revenues for each different function of the District's governmental activities.

- Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expenses expenses of the District related to the administration and support of the District's programs, such as personnel and accounting are not allocated to programs.
- Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes and state foundation aid, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category – governmental, proprietary and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

- General Fund. This is the District's primary operating fund. It accounts for all financial resources, except those required to be accounted for in another fund.
- Debt Service Fund. This fund is used to account for the financial resources that are legally restricted for the retirement of District general obligation bonds.

The District reports the following proprietary fund:

Internal Service Fund. The District has an internal service fund which is used to account for a medical risk pool. It uses the same basis of accounting as businesstype activities.

The District reports the following fiduciary fund:

Agency funds. These funds account for assets held by the District as an agent for various student groups and clubs.

Basis of Accounting - The district-wide, proprietary, and fiduciary fund (excepting agency funds) financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. State support and grant revenues are susceptible to accrual.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Expenditures are recorded when the related fund liability is incurred except for principal and interest on general long-term debt, claims and judgments and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by cost-reimbursement grants and general revenues. When program expenses are incurred, the related revenue of cost-reimbursement grants is recognized.

Internal service funds follow FASB Statements and Interpretations issued on or before November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins, unless these pronouncements conflict with GASB pronouncements.

**Restricted Resources** - The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

**Budgets** - Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual budgets are adopted for general, special revenue, and capital projects funds.

The Board of Trustees follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. At least 14 days prior to the public hearing the District publishes a proposed budget for public review.
- 2. A public hearing is set to obtain taxpayers comments.
- 3. The final budget is adopted by resolution of the Board at the regular June meeting of the Board of Trustees.
- 4. Prior to July 15, the final budget is filed with the State Department of Education.

The budget is a plan of spending under which expenditures may not exceed the budget at the fund level. Management may amend the budget without seeking the approval of the trustees for revisions which do not increase the total budget.

**Cash and Investments** - The District's cash includes amounts in demand deposits and checking accounts in local depositories. Investments are deposited in the Idaho State Treasurer's Local Government Investment Pool, which allow school districts within the state of Idaho to pool their funds for investments purposes.

Interest income is defined as non-operating revenue.

Deposits in State Treasurer's local government investment pool are stated at cost, which approximates market. All funds are invested in accordance with Section 67-1210 and 67-1210A of the Idaho Code. The primary objectives of the investment pool, in order of priority, are safety, liquidity, and yield.

**Short-term Interfund Loans Receivable/Payable** - During the course of operations, numerous transactions occur between nonmajor funds for goods provided or services rendered. These receivables and payables as classified as "due from other funds" or "due to other funds" on the balance sheet. Short-term interfund loans are classified as "interfund receivables/payables". Interfund balances have been eliminated, where applicable, on the statement of net position.

**Inventory** - The District does not follow the practice of capitalizing expendable supplies at yearend in the General Fund. All supplies are recorded as expenditures in the period in which they were purchased.

**General Capital Assets** - Capital assets are reported at actual or estimated historical cost based on appraisals or deflated current replacement cost. Contributed assets are reported at estimated fair value at the time received.

The Board has set a capitalization threshold of \$5,000. All purchases and improvements to facilities, which are not considered repairs, are capitalized and depreciated using the straight-line method in the government-wide statements and proprietary funds. Lives for buildings and improvements range from 15–30 years. Lives for equipment range from 3–10 years. Vehicles and school buses have estimated lives of 10-20 years.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Accumulated Unpaid Vacation and Sick Pay - Under the terms of the "Kendrick Joint School District Personnel Manual" District employees are granted vacation and sick leave in varying amounts. In the event an employee leaves the District's services, unused vacation credits are compensated at the employee's current rate of pay, ranging from 0 - 15 days. Employees are not paid for unused sick leave upon termination of employment with the District.

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it.

There is accumulated vacation payable of \$4,801 at June 30, 2019. In accordance with the provisions of Governmental Accounting Standards Board Statement 16, Accounting for Compensated Absences, no liability is recorded for non-vesting an accumulating right to receive sick pay benefits.

**Pensions** - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflow of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employee Retirement System of Idaho Base Plan (Base Plan) and additions to/deductions from Base Plan's fiduciary net position have been determined on the same basis as they are reported by the Base Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Long Term Obligations - In the District-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. In the fund financial statements, governmental fund types recognized bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**Deferred Compensation** - The Sick Leave Bank represents a type of long-term payroll protection insurance for absences beyond the employee's accumulated sick leave. Participation is optional for all employees eligible for the Idaho Public Employees Retirement System, with all new participants contributing one sick leave day.

The Bank is administered by an in-District five-member committee as provided in the Teacher Negotiated Agreement. At June 30, 2019, there were 80 days of sick leave in the bank.

**Encumbrances** - The District does not utilize an encumbrance system.

**Estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**Statement of Cash Flows** - For purposes of the Statement of Cash Flows, the District considers all highly liquid debt instruments with a maturity of three months or less to be cash equivalents.

**Fund Balance** - The *nonspendable* fund balance category includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The *restricted* fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers (grants), or through enabling legislation. The *committed* fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. Amounts in the *assigned* fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, *assigned* fund balance represents the remaining amount that is not restricted or committed. *Unassigned* fund balance is the residual classification for the government's general fund and includes all spendable amount not contained in the other classifications.

**Deferred Revenue** - Deferred revenue in the General, Debt Service, and Capital Projects Funds represent property taxes recorded but not estimated to be collected within 60 days of the end of the accounting period.

**Unavailable Property Tax Revenue** - Unavailable property tax revenue in the General Fund, Debt Service Fund and Capital Projects Funds represents the property taxes levied for 2019 that is measurable but unavailable to the District, and therefore recorded as a deferred inflow of resources in both the governmental funds and the government-wide financial statements.

**Subsequent Events** - Subsequent events have been evaluated through the date of the auditor's report. This is the date the financial statements were available to be issued. The District has concluded that no material subsequent events have occurred.

### NOTE 2 Property Tax

The District's property tax is levied each October on the value listed as of the prior January 1 for all real property located in the District. A revaluation of all property is required to be completed no less than every five years. The market value for the list of January 1, 2018 upon which the 2018 levy was based was \$138,046,657.

The District's actual levy was 3.62196% per \$100 for plant facility acquisitions and 10.41749% per \$100 for the payment of principal and interest on long-term debt. The combined tax rate to finance educational services other than the payment of principal and interest on long-term debt and plant facility acquisitions for the year ended June 30, 2019 was 57.77054% per \$100, which means that the District was required to pass an override levy in the amount of 57.77054% per \$100. The total tax levy for the year ended June 30, 2019 was \$1,005,263 with total tax collections being \$965,792.

Taxes are due in two equal installments on December 20th and June 20th following the levy date. Current tax collections for the year ended June 30, 2019 were 96.07% of the tax levy. Property taxes levied for 2018 are recorded as receivables to the extent of taxes not estimated to be collected within 60 days of the end of the accounting period.

In accordance with GASB 33, Accounting and Financial Reporting for Nonexchange Transactions, the District has recognized the 2019 property tax levy as an asset. This levy is an enforceable legal claim created during the fiscal year. The total property taxes levy for 2019 of \$1,003,146 is recorded as uncollected but are not considered available at June 30, 2019. The entire receivable is considered a deferred inflow of resources.

#### **Investment Maturities**

| External Investment Pool | <u>Book Value</u>  | Market Value       | Less than 1 Year   | <u>1-8 Years</u> |
|--------------------------|--------------------|--------------------|--------------------|------------------|
| State Investment Pool    | <u>\$1,989,310</u> | <u>\$1,989,310</u> | <u>\$1,989,310</u> | <u>\$ -</u>      |

The State Treasurer's Local Government Investment Pool is managed by the State of Idaho Treasurer's office. All funds are invested in accordance with Section 67-1210 and 67-1210A of Idaho Code. Authorized investments include bonds, treasury bills, interest-bearing notes, and other obligations of the U.S. Government, general obligation or revenue bonds of the State of Idaho or other local governments within the state of Idaho, bonds, debentures, or other similar obligations issued by the farm credit system or by public corporations of the state of Idaho, repurchase agreements covered by any legal investment for the state of Idaho, tax anticipation bonds or notes and income and revenue anticipation bonds or notes of taxing districts of the state of Idaho, revenue bonds of institutions of higher education of the state of Idaho, and time deposits and savings accounts in amounts not to exceed applicable insurance limits. The primary objectives of the investment pool, in order of priority, are safety, liquidity, and yield.

Participants have overnight availability to their funds, up to \$10 million. Withdrawals of \$10 million or more require three business days' notification.

The State Treasurer's investment policy and the Local Government Investment Pool financial statements which can be obtained by writing P.O. Box 83720, Boise, ID 83720-0091.

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the District will not be able to recover its deposits or will not be able to recover collateral securities that are in possession of an outside party. Custodial credit risk for investments is the risk that in the event of the failure of the counter party (e.g. broker-dealer) to a transaction, the District will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The District does not have a policy restricting the amount of deposits and investments subject to custodial credit risk.

### NOTE 3 Deposits and Investments (Continued)

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization such as Moody's or Standard & Poor's. The investments of the District at year-end are not required to be rated. The District does not have a policy regarding credit risk.

Interest rate risk is the risk that changes in market interest rates will adversely impact the fair value of an investment. Investments that are fixed for longer periods are likely to experience greater variability in their fair values due to future changes in interest rate. At year-end, the District is not subject to interest rate risk as all investments are held in the State Treasurer's Local Government Investment Pool, which has a maturity of 91 days. The District does not have a policy regarding interest rate risk.

Concentration of credit risk is the risk that concentration of investments with one issuer represents heightened risk of potential loss. No specific percentage identifies when concentration risk is present. The Governmental Accounting Standards Board has adopted a principal that governments should provide note disclosure when five percent of the total investments of the entity are concentrated in any on issuer. Investments in obligations specifically guaranteed by the U.S. government, mutual funds, and other pooled investments are exempt from disclosure. The district has no policy limiting the amount it may invest in any one issuer.

### NOTE 4 Changes in General Fixed Assets

A summary of changes in general fixed assets is as follows:

|                                  | Balance       | - • • • • |                  |                  | Balance       |

| 8/15/2030         | 4.00%       | 140,000          | 5,200              | 145,200            |
| 2/15/2031         |             |                  | 2,400              | 2,400              |
| 8/15/2031         | 4.00%       | 120,000          | 2,400              | 122,400            |
|                   |             | \$1,525,000      | <u>\$421,100</u>   | \$1,946,100        |

The District's Legal Debt Margin is calculated at 5% of the fair market value of property located within the District. At June 30, 2019 the Legal Debt Margin was:

| Market Value at January 1, 2018    | \$138,046,657      |
|------------------------------------|--------------------|
| Percentage allowed                 | <u>5%</u>          |
| Debt limitation                    | 6,902,333          |
| Less: Bonded debt at June 30, 2019 | (1,525,000)        |
| Legal Debt Margin                  | <u>\$5,377,333</u> |

As of June 30, 2019, \$213,634 was available in the Debt Service Fund to service the general obligation bonds.

## NOTE 6 Partially Self-Insured Medical Benefit Pool

Dramatic increases in health insurance premiums have made it necessary for Kendrick Joint School District No. 283 to look at alternative ways to provide the best medical coverage for its employees. As a result, the Board of Trustees encumbered \$30,000 of the General Fund Balance in the FY 2001-2002 budget as a Self-Insured Employee Medical Pool. The purpose of the pool was two-fold: to offset the liability assumed by providing a partial self-fund health insurance plan for its employees, and to help fund future increases in the cost of medical insurance through the savings projected in administering the plan.

The savings in insurance costs, along with interest earned on investments, increased the Self-Insured Medical Benefit Pool balance to \$406,773 by the end of FY 2018-2019. The purpose of this proprietary fund type is solely for budgeting and management of the Self-Insured Employee Medical Pool.

Administration – The Self-Insured Medical Benefit Pool is administered by the Kendrick Joint School District No. 283 Board of Trustees. The business manager will provide the Board with financial statements upon which the Board will make decisions and set a yearly budget. Operating transfers of funds out of the Pool will only be made at the direction of the Board of Trustees.

Initial Investment – With the exception of unusual circumstances, the initial investment of \$30,000 cannot be spent, only invested. An example of an "unusual circumstance" would be employee paid deductibles in a year that would exceed net earnings over the initial investment of \$30,000. An operating transfer to the General M & O Fund to help defray medical fringe benefit cost would not be an "unusual circumstance".

District Liability – 100% of the liability of self-insuring the employees and dependents of Kendrick Joint School Dist. No. 283 shall be retained in the Self-Insured Medical Benefit Pool. Liability is calculated by the number of employees and dependents plus the eligible retirees and dependents times 90% of the difference between the employee paid deductible and the district paid deductible.

Eligible Retirees – Retirees under the age of 65 years are eligible for benefits under the Self-Insured Medical Benefit Pool with no additional cost in premium to the retiree.

Dissolving the Self-Insured Medical Pool – If the Self-Insured Medical Benefit Pool is dissolved at some point in time, the fund balance will revert back into the General M & O Fund through an operating transfer of funds.

#### NOTE 7 Pension Plan

In accordance with GASB 68, Accounting and Financial Reporting for Pensions, which became effective for the year ended June 30, 2015, the financial reporting and note disclosures are based off the most recent audited financial statements of PERSI, which was completed for the period ended June 30, 2018. All amounts are as of June 30, 2018 unless otherwise noted.

#### Plan Description

The District contributes to the Base Plan which is a cost-sharing multiple-employer defined benefit pension plan administered by Public Employee Retirement System of Idaho (PERSI or System) that covers substantially all employees of the State of Idaho, its agencies and various participating political subdivisions. The cost to administer the plan is financed through the contributions and investment earnings of the plan. PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at <a href="www.persi.idaho.gov">www.persi.idaho.gov</a>.

Responsibility for administration of the Base Plan is assigned to the Board comprised of five members appointed by the Governor and confirmed by the Idaho Senate. State law requires that two members of the Board be active Base Plan members with at least ten years of service and three members who are Idaho citizens not members of the Base Plan except by reason of having served on the Board.

#### Pension Benefits

The Base Plan provides retirement, disability, death and survivor benefits of eligible members or beneficiaries. Benefits are based on members' years of service, age, and highest average salary. Members become fully vested in their retirement benefits with five years of credited service (5 months for elected or appointed officials). Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. The annual service retirement allowance for each month of credited service is 2.0% (2.3% for police/firefighters) of the average monthly salary for the highest consecutive 42 months. Amounts in parenthesis represent police/firefighters.

The benefit payments for the Base Plan are calculated using a benefit formula adopted by the Idaho Legislature. The Base Plan is required to provide a 1% minimum cost of living increase per year provided the Consumer Price Index increases 1% or more. The PERSI Board has the authority to provide higher cost of living increases to a maximum of the Consumer Price Index movement or 6%, whichever is less; however, any amount above the 1% minimum is subject to review by the Idaho Legislature.

#### Member and Employer Contributions

Member and employer contributions paid to the Base Plan are set by statute and are established as a percent of covered compensation and earnings from investments. Contribution rates are determined by the PERSI Board within limitations, as defined by state law. The Board may make periodic changes to employer and employee contribution rates (expressed as percentages of annual covered payroll) if current rates are actuarially determined to be inadequate or in excess to accumulate sufficient assets to pay benefits when due.

The contribution rates for employees are set by stature at 60% (72%) of the employer rate. As of June 30, 2019 it was 6.79% (8.36%). The employer contribution rate is set by the Retirement Board and was 11.32% (11.66%) of covered compensation. The District's employer contributions required and paid were \$193,309, \$184,404 and \$181,883 for the three years ended June 30, 2019, 2018, and 2017, respectively.

Pension Liabilities, Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District reported a liability for its proportionate share of the net pension liability as of June 30, 2018. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions in the Base Plan pension plan relative to the total contributions of all participating PERSI Base Plan employers. At June 30, 2018, the District's proportion was 0.0473532 percent.

The District's pension expense (revenue) is calculated and made available as part of PERSI's annual audit. PERSI's audit for the year ended June 30, 2019 has not been completed at the time of issuance. The pension expense (revenue) for the year ending June 30, 2018 was calculated at \$140,078.

At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   | Deferred<br>Outflows of<br>Resources | Deferred<br>Inflows of<br>Resources |
|---|--------------------------------------|-------------------------------------|
| Differences between expected and actual experience                              | 76,672                               | 52,751                              |
| Changes in assumptions or other inputs  | 45,450                               | -                                   |
| Change in proportionate share   | -                                    | 72,413                              |
| Net difference between projected and actual earning on pension plan investments | -                                    | 77,604                              |
| Employer contributions subsequent to the measurement date                       | 193,309                              |                                     |
| Total   | <u>\$315,431</u>                     | <u>\$698,468</u>                    |

\$193,309 reported as deferred outflow of resources related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (revenue) as follows:

| For the Year    | Amount to be      |
|-----------------|-------------------|
| Ending June 30: | <b>Recognized</b> |
| 2020            | \$56,777          |
| 2021            | \$6,690           |
| 2022            | \$(57,234)        |
| 2023            | \$(14,466)        |

### **Actuarial Assumptions**

The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation                            | 3.00%                            |
|--------------------------------------|----------------------------------|
| Salary Increases including inflation | 3.75%                            |
| Investment rate of return            | 7.05% net of investment expenses |
| Cost-of-living adjustments           | 1.00%                            |

Mortality rates were based on the RP - 2000 combined table for healthy males or females as appropriate with the following offsets:

- Set back 3 years for teachers
- No offset for male fire and police
- Forward one year for female fire and police
- Set back one year for all general employees and all beneficiaries

The long-term expected rate of return on pension plan investments was determined using the building block approach and a forward-looking model in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Even though history provides a valuable perspective for setting the investment return assumption, the System relies primarily on an approach which builds upon the latest capital market assumptions. Specifically, the System uses Callan Associates 2016 capital market assumptions in analyzing the System's asset allocation. The assumptions and the System's formal policy for asset allocation are shown below. The formal asset allocation policy is somewhat more conservative than the current allocation of System's assets.

The best-estimate range for the long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation.

| Asset Class  | Target<br>Allocation | Long - Term Expected Nominal Rate of (Arithmetic) | Long - Term Expected Real Rate of Return (Arithmetic) |
|--|----------------------|---|---|
| Asset Class  | Allocation           | (Antimetic)                                       | (Antimetic)   |
| Core Fixed Income  | 30.00%               | 3.05%   | 0.80%   |
| Broad US Equities  | 55.00%               | 8.30%   | 6.05%   |
| Developed Foreign Equities   | 15.00%               | 8.45%   | 6.20%   |
| Assumed Inflation - Mean   |                      | 2.25%   | 2.25%   |
|  |                      |   |   |
| Assumed Inflation - Standard Deviation                                       |                      | 1.50%   | 1.50%   |
| Portfolio Arithmetic Mean Return   |                      | 6.75%   | 4.50%   |
| Portfolio Standard Deviation   |                      | 12.54%  | 12.54%  |
|  |                      | C 420/  | 2.770/  |
| Portfolio Long-Term (Geometric) Expected Rate of Return                      |                      | 6.13%   | 3.77%   |
| Assumed Investment Expenses  |                      | 0.40%   | 0.40%   |
| Portfolio Long-Term (Geometric) Expected Rate of Return, Net of Investment E | Expenses             | 5.73%   | 3.37%   |
| Portfolio Long-Term Expected Real Rate of Return, Net of Investment Expense: | S                    |   | 4.19%   |
| Portfolio Standard Deviation   |                      |   | 14.16%  |
|  |                      |   |   |
| Valuation Assumptions Chosen by PERSI Board                                  |                      |   |   |
| Long-Term Expected Real Rate of Return, Net of Investment Expenses           |                      |   | 4.05%   |
| Assumed Inflation  |                      |   | 3.00%   |
| Long-Term Expected Geometric Rate of Return, Net of Investment Expenses      |                      |   | 7.05%   |

#### Discount Rate

The discount rate used to measure the total pension liability was 7.05%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate. Based on these assumptions, the pension plans' net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term expected rate of return was determined net of pension plan investment expense but without reduction for pension plan administrative expense.

Sensitivity of the Employer's proportionate share of the net pension liability to changes in the discount rate.

The following presents the Employer's proportionate share of the net pension liability calculated using the discount rate of 7.05 percent, as well as what the Employer's proportionate

share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.05 percent) or 1-percentage-point higher (8.05 percent) than the current rate:

|                                   | 1% Decrease<br>(6.05%) | Current Discount Rate (7.05%) | 1% Increase<br>(8.05%) |
|-----------------------------------|------------------------|-------------------------------|------------------------|
| Employer's proportionate share of |                        |                               |                        |
| the net pension liability (asset) | \$1,748,423            | \$698,468                     | \$(170,938)            |

#### Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately

issued PERSI financial report.

PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

#### Payables to the pension plan

At June 30, 2019, the District reported payables to the defined benefit pension plan of \$0 for legally required employer contributions and \$0 for legally required employee contributions which had been withheld from employee wages but not yet remitted to PERSI.

## NOTE 8 Other Post-Employment Benefit Plan – Sick Leave Plan

In accordance with GASB 75, Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions, which became effective for the year ended June 30, 2018, the financial reporting and note disclosures are based off the most recent audited financial statements of PERSI, which was completed for the period ended June, 30, 2018. All amounts are as of June 30, 2018 unless otherwise noted.

#### Plan Description

The District contributes to the Sick Leave Insurance Reserve Fund (Sick Leave Plan) which is a cost-sharing multiple-employer defined benefit OPEB plan that covers members receiving retirement benefits that are administered by PERSI that covers substantially all employees of the State of Idaho, its agencies and various participating political subdivisions. The cost to administer the plan is financed through the contributions and investment earnings of the plan. PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for the Sick Leave Plan. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Responsibility for administration of the Base Plan is assigned to the Board comprised of five members appointed by the Governor and confirmed by the Idaho Senate. State law requires that two members of the Board be active Base Plan members with at least ten years of service and three members who are Idaho citizens not members of the Base Plan except by reason of having served on the Board.

#### **OPEB Benefits**

Group retiree health, dental, accident, and life insurance premiums may qualify as a benefit. Retirees who have a sick leave account can use their balance as a credit towards these premiums paid directly to the applicable insurance company.

#### **Employer Contributions**

The contribution rate for employees are set by statute at .065% of covered compensation for state members. Covered school members contribution rates are set by statute based on the number of sick days offered by the employer. The contribution rate of 1.16% for school members with nine or ten sick days, 1.26% for school members with 11-14 sick days. If a school member has more than 14 days of sick leave then the contribution rate will be set by the PERSI Retirement Board based on current cost and actuarial data and reviewed annually. The District's contributions required and paid were \$18,655, \$17,623 and \$18,119 for the three years ended June 30, 2019, 2018, and 2017, respectively.

OPEB Liabilities, OPEB Expense (Expenses Offset), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2019, the District reported an asset for its proportionate share of the net OPEB asset as of June 30, 2018. The net OPEB asset was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB asset was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB asset was based on the District's share of contributions relative to the total contributions of all participating Sick Leave employers. At June 30, 2018, the District's proportion was 0.01133146 percent.

The District's OPEB expense (expense offset) is calculated and made available as part of PERSI's annual audit. PERSI's audit for the year ended June 30, 2019 has not been completed at the time of issuance. The OPEB expense (expense offset) for the year ending June 30, 2018 was calculated at \$5,144.

At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

|   | Deferred Outflows of       | Deferred<br>Inflows of |
|---|----------------------------|------------------------|
| Differences between expected and actual experience                              | <u>Resources</u><br>10,634 | <u>Resources</u><br>-  |
| Changes in assumptions or other inputs  | 476                        | -                      |
| Change in proportionate share   | 5,784                      | 21,025                 |
| Net difference between projected and actual earning on pension plan investments | -                          | 5,583                  |
| Employer contributions subsequent to the measurement date                       | 18,655                     |                        |
| Total   | <u>\$35,549</u>            | \$26,608               |

The \$18,655 reported as deferred outflows of resources resulted from employer contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB asset in the year June 30, 2019.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense (expense offset) as follows:

| For the Year Ending June 30: | Amount to be Recognized |
|------------------------------|-------------------------|
| 2020                         | 340                     |
| 2021                         | 340                     |
| 2022                         | 340                     |
| 2023                         | 1,736                   |
| Thereafter                   | 2,430                   |

### **Actuarial Assumptions**

Valuations are based on actuarial assumptions, the benefit formulas, and employee groups. The Sick Leave Plan amortizes any net OPEB asset based on a level percentage of payroll. The maximum amortization period for the Sick Leave Plan permitted under Section 59-1322, <u>Idaho</u> Code, is 25 years.

The total OPEB liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement.

Inflation3.00%Salary increases3.75%Salary inflation3.75%

Investment rate of return 7.05%, net of investment expenses

The long-term expected rate of return on OPEB plan investments was determined using the building block approach and a forward-looking model in which best estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The health care trend rate is not applicable as the benefit amount a participant will receive is established with a set amount upon retirement thus would have no impact.

Even though history provides a valuable perspective for setting the investment return assumption, the System relies primarily on an approach which builds upon the latest capital market assumptions. Specifically, the System uses consultants, investment managers and trustees to develop capital market assumptions in analyzing the System's asset allocation. The assumptions and the System's formal policy for asset allocation are shown below. The formal asset allocation policy is somewhat more conservative than the current allocation of System's assets.

The best-estimate range for the long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation.

|   |            | Long - Term  | J            |
|---|------------|--------------|--------------|
|   |            | Expected     | Expected     |
|   | Tauast     | Nominal      | Real Rate of |
|   | Target     | Rate of      | Return       |
| Asset Class   | Allocation | (Arithmetic) | (Arithmetic) |
| Core Fixed Income   | 30.00%     | 3.05%        | 0.80%        |
| Broad US Equities   | 55.00%     | 8.30%        | 6.05%        |
| Developed Foreign Equities  | 15.00%     | 8.45%        | 6.20%        |
| Assumed Inflation - Mean  |            | 2.25%        | 2.25%        |
| Assumed Inflation - Standard Deviation  |            | 1.50%        | 1.50%        |
| Portfolio Arithmetic Mean Return  |            | 6.75%        | 4.50%        |
| Portfolio Standard Deviation  |            | 12.54%       | 12.54%       |

#### Discount Rate

The discount rate used to measure the total OPEB liability was 7.05%. The projection of cash flows used to determine the discount rate assumed that contributions form plan members will be made at the current contribution rate. Based on these assumptions, the OPEB plan's net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The long-term expected rate of return was determined net of OPEB plan investment expense but without reduction for OPEB plan administrative expense.

#### Sensitivity of the net OPEB asset to changes in the discount rate

The following presents the District's proportionate share of net OPEB asset calculated using the discount rate of 7.05 percent, as well as what the District's proportionate share of the net OPEB asset would be if it were calculated using a discount rate that is 1-percentage-point lower (6.05 percent) or 1-percentage-point higher (8.05 percent) than the current rate:

|  | 1% Decrease<br>(6.05%) | Current Discount Rate (7.05%) | 1% Increase<br>(8.05%) |
|--|------------------------|-------------------------------|------------------------|
| Employer's proportionate share of the net OPEB liability (asset) | \$(82,989)             | \$(93,989)                    | \$(104,319)            |

OPEB plan fiduciary net position

Detailed information about the OPEB plan's fiduciary net position is available in a separately issued PERSI financial report.

PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at <a href="https://www.persi.idaho.gov">www.persi.idaho.gov</a>.

Payable to the OPEB plan

At June 30, 2019, the District reported payables to the defined benefit OPEB plan of \$0 for legally required employer contributions and \$0 for legally required employee contributions which had been withheld from employee wages but not yet remitted to PERSI.

# NOTE 9 Contingent Liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

# NOTE 10 Excess of Actual Expenditures over Budget in Individual Funds

The following funds had an excess of actual expenditures over budget for the year ended June 30, 2019:

| <u>Fund</u>                       | <u>Excess</u> |
|-----------------------------------|---------------|
| IDEA Part B (611 School Age 3-21) | 3,053         |
| School-Based Medicare             | 21,787        |

These over-expenditures arose due to unexpected increases in expenditures. To meet the student's education needs, the Board of Trustees approved the additional expenditures when additional funding became available. Idaho Code Section 33-701 allows the District to make budget adjustments to reflect the availability of funds and the requirements of the school district.

# NOTE 11 Interfund Receivables, Payables and Transfers

Generally accepted accounting principles require disclosure of certain information concerning nonmajor funds including:

**Interfund Transfers** - Transfers to support the operations of other funds are recorded as "Transfers" and are classified with "Other financing sources or uses." Idaho Code and State Department of Education Regulations mandate transfers into the School Plant Facility — Bus Depreciation to cover the depreciation reimbursement. Total transfers are as follows:

|  | <u>Out</u> | <u>In</u> |
|--|------------|-----------|
| General                                  | 100,095    | -         |
| Internal Service Fund                    | -          | 80,000    |
| School Plant Facility – Bus Depreciation |            | 20,095    |
| Totals                                   | \$100,095  | \$100,095 |

The composition of interfund receivables and payables as of June 30, 2019 was as follows:

|  | Due from<br>Other Funds | Due to<br>Other Funds |
|--|-------------------------|-----------------------|
| General  | <u>Other runus</u>      | 325,331               |
| Special Revenue Funds:                                     |                         | 010,001               |
| Child Nutrition  | 17,817                  | -                     |
| Drivers Education  | 1,745                   | -                     |
| Federal Forest   | 71,986                  | -                     |
| Technology - State   | 11,139                  | -                     |
| Title V-B, Rural Education Initiative Program              | -                       | 5,279                 |
| Title I-A, ESSA – Improving Basic Programs                 | 7,677                   | -                     |
| IDEA Part B (611 School Age 3-21)                          | 11,052                  | -                     |
| State Professional Technical                               | 1,866                   | -                     |
| Title II-A, ESEA–Supporting Effective Instruction          | 1,638                   | -                     |
| Substance Abuse – State                                    | 10,605                  | -                     |
| Title IV-A, ESSA – Student Support and Academic Enrichment | -                       | 13,209                |
| Title IV-A, ESEA – Safe & Drug-Free School                 | -                       | 237                   |
| School-Based Medicaid                                      | -                       | 5,247                 |
| Debt Service   | 74,463                  | -                     |
| School Plant Facility                                      | 85,568                  | -                     |
| School Plant Facility – Bus Depreciation                   | 53,747                  |                       |
| Totals   | \$ 349,303              | \$ 349,303            |

## NOTE 12 Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions and natural disasters for which the District carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

### NOTE 13 Other Post-Employment Benefits

#### **Summary of Significant Accounting Policies**

For purposes of measuring the net Other Post-Employment Benefits (OPEB) liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the Kendrick Joint School District Employee Group Benefit Plan have been determined based the requirements of GASB 75, Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions. The Plan has been calculated using the entry age normal funding method. As an alternative to an actuarial valuation, the District qualifies for and has presented the OPEB liability using the Alternative Measurement Method.

#### General Information about the OPEB Plan

The Kendrick Joint School District Employee Group Benefit Plan is a single-employer defined benefit OPEB plan that provides benefits to current and future retirees.

#### Retirement and Dependent Medical Benefit Eligibility

Upon separation from public school employment by retirement in accordance with Chapter 13, Title 59, Idaho Code, a retiree may continue to pay premiums for the retiree and the retiree's dependents at the rate for the active employee's group health, long-term care, vision, prescription drug and dental insurance programs as maintained by the employer for the active employees until the retiree and/or the retiree's spouse becomes eligible for Medicare at which time the district shall make available a supplemental program to Medicare for the eligible individual (Medicare Retirees).

#### Eligibility for Retirement

Normal retirement eligibility is age 65 with five years of service, including six months of membership service. Early retirement eligibility is age 55 with five years of service, including six months of membership coverage.

#### **Medicare Retirees**

Medicate retirees are defined as retirees who are 65 years of age or older, are not included in the District's plan, and Medicare will be considered their primary plan. Medicare Retirees and eligible dependents who enroll in Medicare (both Part A and Part B) are eligible to participate in the Statewide School Retiree Program that supplements Medicare.

# NOTE 13 Other Post-Employment Benefits (Continued)

### **Funding**

The District's OPEB plan is funded under a pay-as-you-go funding method. Under this method, the District has not set aside any assets (nor accumulated any assets in a trust) that meet the definition of plan assets under GASB 74 or 75 to offset the OPEB liability. Therefore, the Net OPEB liability is equal to the Total OPEB liability.

#### **OPEB Benefits**

The health care benefits are contracted by the District through group medical plans. The medical plans include an annual deductible, coinsurance payment requirements, and an annual out-of-pocket maximum for the member/family. The prescription drug benefit is provided through a tiered system comprising of the type of prescription (generic, preferred brand, and non-preferred brand) and the method of purchase (retail or mail order).

#### **Census Data**

As of June 30, 2017, the valuation date, the District had 38 active (future retirees) participants and no inactive (current retirees) participants.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2019, the Employer reported a liability of \$306,926 of the net OPEB liability. The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2017.

For the year ended June 30, 2019, the Employer recognized OPEB expense of \$37,222. At June 30, 2019, the Employer reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

|   | Deferred Outflows<br>of Resources | Deferred Inflows<br>of Resources |
|---|-----------------------------------|----------------------------------|
| Differences between expected and actual |                                   |                                  |
| experience                              | 8,648                             | -                                |
| Changes of assumptions                  |                                   | 9,307                            |
| Total                                   | <u>\$8,648</u>                    | <u>\$9,307</u>                   |
|   |                                   |                                  |

## NOTE 13 Other Post-Employment Benefits (Continued)

The amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB's will be recognized in OPEB expense as follows

| Year | ended | June | 30: |
|------|-------|------|-----|
|------|-------|------|-----|

| 2020       | (4)     |
|------------|---------|
| 2021       | (4)     |
| 2022       | (4)     |
| 2023       | (4)     |
| Thereafter | \$(639) |

#### **Actuarial assumptions**

Valuation Date

June 30, 2017

Measurement Date

June 30, 2017

Rollforward Date

June 30, 2018

Interest/Discount Rate 3.58 % as of the measurement date 3.87% as of the roll forward

date.

**Projected Payroll Increases** 3.75%

Health Care Cost Trend Rate Medical and Prescriptions: between 2.3% and 7.0%

**Retiree Contributions** Retiree contributions are assumed to increase to match the health care cost trends.

#### **Participation**

For future retirees, participation rates were assumed to be 45.0% for medical coverage.

#### Mortality

For active members, inactive members and healthy retirees, mortality rates were based on the RP2000 Combined Healthy Mortality Table adjusted with generational mortality adjustments using Scale AA, set back three years for both males and females. For disabled retirees, mortality rates were based on the RP2000 Disabled Mortality Table adjusted with generational mortality adjustments using Scale AA, set back one year for males and set forward two years for females.

#### *Interest/Discount rate*

The interest rate is based on the 20-year municipal bond index.

# NOTE 13 Other Post-Employment Benefits (Continued)

### **Sensitivity Disclosures**

The following presents the net OPEB liability of the Plan as of June 30, 2019, calculated using the discount rate of 3.87%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.87%) or 1-percentage-point higher (4.87%) than the current rate:

| Current | Discount |
|---------|----------|
|---------|----------|

|                    | 1% Decrease (2.87%) | Rate (3.87%) | 1% Increase (4.87%) |
|--------------------|---------------------|--------------|---------------------|
| Net OPEB liability | Unavailable         | \$306,926    | Unavailable         |

The following presents the net OPEB liability of the Plan as of June 30, 2019, calculated using the assumed heath care cost trend rate, as well as what the net OPEB liability would be if it were calculated using a heath care cost trend rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

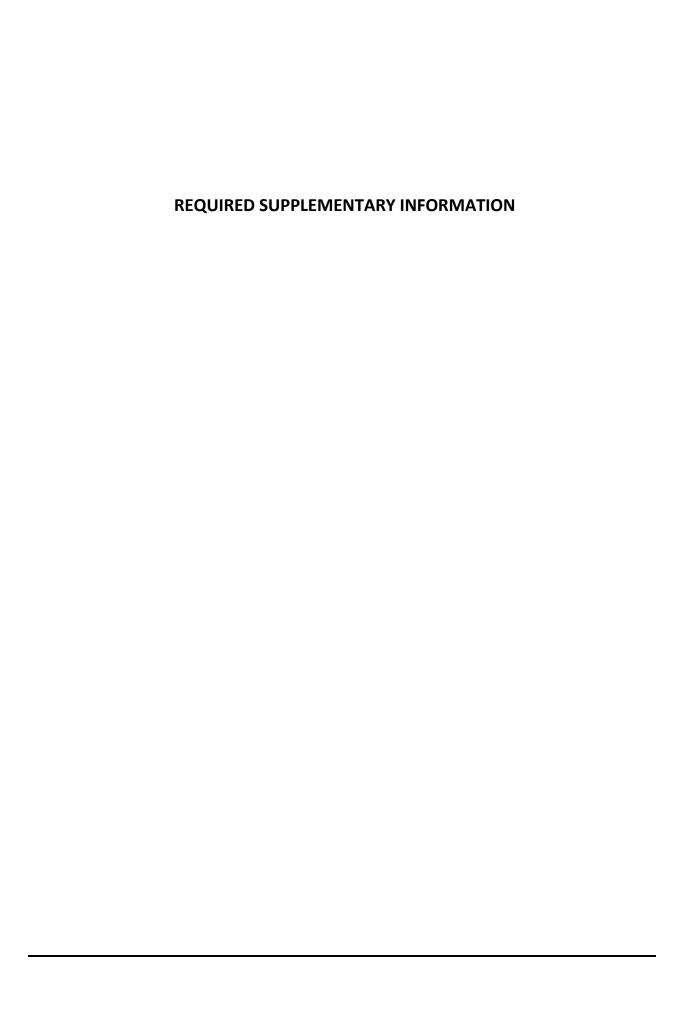

|                    | 1% Decrease | <b>Current Discount Rate</b> | 1% Increase |
|--------------------|-------------|------------------------------|-------------|
| Net OPEB liability | Unavailable | \$306,926                    | Unavailable |

### **Summary of the Change in OPEB Liability**

| Total OPEB Liability — Beginning of Year          | 291,838          |
|---|------------------|
| Service Cost                                      | 24,962           |

| Difference Between Expected and Actual Experience | -                |
| Changes of Assumptions or Other Inputs            | -                |
| Benefit Payments (Estimated)                      | (22,134)         |
| Total OPEB Liability – End of Year                | <u>\$306,926</u> |

# NOTE 14 Prior Period Adjustment

As a result of implementing GASB 75 related to other post-employment benefits – sick leave plan, a prior period adjustment was made to record the estimated asset in the amount of \$94,250 as of June 30, 2018. The adjustment increased deferred outflows of resources by \$17,623 and increased unrestricted net position by \$111,873.

# GENERAL FUND STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE - BUDGET AND ACTUAL For the Year Ended June 30, 2019

#### NONMAJOR SPECIAL REVENUE FUNDS

**Child Nutrition Fund** - To account for costs of operating the school lunch program at the District. Financing is provided by State and Federal assistance and by sale of lunches. Reporting is done as a special revenue fund rather than as an enterprise fund due to the large amount of State and Federal assistance received by the program.

**Federal Forest Reserve Fund** - To account for Federal revenue received from the U.S. Department of Agriculture. This Fund has been used for special capital outlay projects.

**Drivers Education - State Fund -** To account for costs of providing a driver education program. Financing for the program is provided through the Idaho State Department of Education.

**State Professional Technical Fund** - To account for restricted State revenue to be spent on equipment and materials for vocational programs.

**Technology – State Fund** - To account for restricted State revenue to be spent on vocational training for alternative high school.

**Substance Abuse – State Fund -** To account for restricted State revenue to be spent on drug education in-service training for teachers and parents and materials for classroom.

**Title I-A, ESSA – Improving Basic Programs Fund** - To account for restricted Federal revenue to be spent on programs to provide special instruction to disadvantaged students.

**IDEA Part B (611 School Age 3-21) Fund** - To account for restricted Federal revenue to be spent on programs to provide for special testing, physical therapy, teacher aides, equipment and materials, etc. in special education.

**School-Based Medicaid Fund** - Revenues generated through billings to Medicaid for services provided to eligible special-needs students

**Title IV-A, ESSA – Student Support and Academic Enrichment** - To account for restricted Federal revenue to be spent on programs to provide student support and academic enrichment

**Title V-B, ESEA – Rural Education Initiative Program Fund** - To account for restricted Federal revenue to be spent on enhancing the other Federal programs.

**Perkins III – Professional Technical Act Fund** - To account for restricted Federal revenue to be spent on equipment for the vocational program.

**Title II-A, ESEA – Supporting Effective Instruction Fund** - To account for restricted Federal revenue to be spent on in-service training of math and/or science teachers.

# SCHEDULE OF FINDINGS AND RESPONSES For the Year Ended June 30, 2019

### Finding 2019-001 Review of Bank Reconciliations

**Condition** Throughout our testing, we found no secondary review of bank

reconciliations completed throughout the year. We discussed internal controls with management and inquired as to the controls of bank reconciliations. Based on the responses form management, we determined that no controls over bank reconciliations were in place

during the year.

**Cause** Deficiency in the design of controls over cash.

**Criteria** Bank reconciliations made in the accounting software should be reviewed

by a second person.

Potential effect of

Condition Misstatements in cash whether due to error or fraud would not be

identified.

**Recommendation** We recommend that management designate a second person to review

all bank reconciliations monthly. This review should be documented.

Management's

Response Management has agreed that this is an important control and will

implement a review of bank reconciliations as recommended.

# SCHEDULE OF FINDINGS AND RESPONSES For the Year Ended June 30, 2019

# Finding 2019-002 Review of Journal Entries

**Condition** Throughout our testing, we found no secondary review of journal entries

posted throughout the year. We discussed internal controls with management and inquired as to the controls over journal entries. Based on the responses from management, we determined that no controls

over journal entries were in place during the year.

**Criteria** Journal entries made in the accounting software should be reviewed by a

second person.

**Cause** Deficiency in the design of controls over journal entries.

Potential effect of

**Condition** Misstatements on the financial statements whether due to error or fraud

would not be identified.

**Recommendation** We recommend that management designate a second person to review

journal entries monthly. This review should be documented.

Management's

Response Management has agreed that this is an important control and will

implement a review of journal entries as recommended.

# SCHEDULE OF FINDINGS AND RESPONSES For the Year Ended June 30, 2019

# Finding 2019-003 Year-end Financial Close and Reporting

**Condition** Throughout our testing, we did not find effective internal control

processes for reconciling general ledger accounts, especially at the end of the fiscal year. We discussed internal controls with management and inquired as to the controls over year-end financial closing and reporting. Based on the responses from management, we determined that no controls over year-end financial closing and reporting were in place

during the year.

**Criteria** Year-end financial close and reporting procedures should be formalized

and documented.

**Cause** Size and limited resources.

**Potential Effect of** 

**Condition** Misstatements on the financial statements due to error or fraud by not

reconciling general ledger accounts to be in accordance with generally

accepted accounting principles.

**Recommendation** We recommend that management further develops year-end closing

procedures to reduce necessary audit adjustments by training and

education the Business Manager to perform these procedures.

Management's

Response Management has agreed that this is an important control and will

continue to implement a financial close and reporting process as

recommended.

# SCHEDULE OF FINDINGS AND RESPONSES For the Year Ended June 30, 2019

# Finding 2019-004 Review of Payroll

**Condition** Throughout our testing, we did not find effective internal control

processes for the review of payroll at the superintendent level. We discussed internal controls with management and inquired as to the controls over the process of reviewing payroll to ensure it is accurate, reasonable and coded correctly. Based on the responses from management, we determined that no controls over review of payroll

were in place during the year.

**Criteria** Effective internal control includes a process of reviewing payroll.

**Cause** Deficiency in design of controls over payroll.

**Potential Effect of** 

**Condition** Misstatements on the financial statements due to error or fraud by not

reporting in accordance with generally accepted accounting principles.

**Recommendation** We recommend that management implement a review process by the

superintendent of payroll before it is processed to ensure it is accurate,

reasonable and coded correctly.

Management's

Response Management has agreed that this is an important control and will

implement a review process as recommended.

# SCHEDULE OF FINDINGS AND RESPONSES For the Year Ended June 30, 2019

## Finding 2019-005 Approval of Disbursements

**Condition** Throughout our testing, we did not find effective internal control

processes for the approval of disbursements. We discussed internal controls with management and inquired as to the controls over cash disbursements. Based on the responses from management, we determined that no controls over disbursements were in place during the

year.

**Criteria** Effective internal control includes a process for evaluating and approving

expenditures to ensure that they are reasonable and appropriate.

**Cause** Deficiency in controls over cash disbursements.

**Potential Effect of** 

**Condition** Misstatements on the financial statements due to error or fraud by not

approving and possibly allowing unauthorized expenditures.

**Recommendation** We recommend that management review invoices to determine if

District should include related expenditures and to ensure that

corresponding disbursements are reasonable and authorized.

Management's

Response Management has agreed that this is an important control and will

implement review of disbursements process as recommended.
