

WHAT'S THE BUZZ WITH MES? (CONT.)

How do I even start expressing my love for this amazing school? It is more than just a place of learning, we are a family where everyone works together with mutual respect and shared goals. I grew up in this school. My best friend and I promised each other we would have our kids in school together at MES and we kept that promise. I love seeing my babies and my friend's baby in these halls. What truly makes this school special, though, are the students. Watching them grow, not just academically but as individuals is incredibly rewarding. I was honored to be MES' Teacher of the Year this year, and knowing I play a small role in shaping their future motivates me every single day. There's a strong sense of purpose here. We're not just teaching subjects, we're building character and lifelong skills. I'm proud to be part of a school that genuinely cares about each child's journey and success. Once a Hornet, always a Hornet, and there is nothing else I would rather be!

-Marilu Brewer (5th/6th Grade Math)

This was my first year teaching at Monteagle Elementary and it has been such a welcoming place. The community here is really tight-knit, and everyone is so supportive and it truly feels like home. The kids have such a great love for learning, and their curiosity keeps me excited to teach every day. The relationships between teachers and students are real and meaningful. We work together, learn together, and have fun along the way. We put in a lot of hard work, but we make sure to enjoy the journey too. With Dr. Horton's strong leadership and a team that feels like family, this school is a truly special place to teach.

-Carly Ronaldi (1st Grade)
