

Question:

The student numbers linked give the high school enrollment by grade level but not by course.

For the purpose of making the proposal as accurate as possible, can you please confirm the student enrollment numbers for these district courses?

Algebra 1

Geometry

Algebra 2

**the document says 333 students for 9th grade but I didn't want to assume that all 333 students are in Algebra 1.

Answer:

Algebra I - 325 students

Geometry - 168 students

Algebra II - 102 students
