

Call Out for September 10, 2021

This is Richard Dennis, Superintendent of Elmore County Public Schools.

COVID-19 numbers have decreased since last Friday with 16 employees and 89 students having tested positive over the past week. Please, continue taking precautions as necessary and encourage your student to try and maintain social distancing as much as possible to reduce the possibility of quarantine due to direct contact with a positive COVID case.

Due to extreme food supply chain issues being faced across the nation, we are beginning to see impacts on the food and supplies available to our child nutrition program. It is NOT affecting our ability to serve meals but we have transitioned to posting weekly menus which are located on our district's website under the child nutrition tab. We are doing our very best to continue offering our students a variety of meal options but it is becoming increasingly difficult to finalize menus more than a week in advance. Please know, menus are subject to change based on food and supply deliveries. We appreciate your understanding as we work through these obstacles. It is our goal to provide Elmore County students with nutritious meals they enjoy!

Finally, if you would prefer to get my call outs and other system-wide communications texted to you through Remind, visit the Elmore County Public Schools website and follow the registration process.

We appreciate your support and have a great weekend!

*Every Student Empowered, Every Student Succeeds.*

Richard Dennis
