

SBDM Information

2022-2023

A school council, advised by the school's staff, will make policies on curriculum, instructional practices, schedules for the staff and students, use of school space, discipline, classroom management, and extracurricular activities.

To help make these policies effective, councils will also decide:

- *what instructional materials the school will use;
- *what support services the school will provide for its students; and
- *how many people the school will employ in each job classification.

The Principal at each school will direct the implementation of council policies and select people to fill vacancies at the school, after consulting with the council. The council will select a new principal when that position becomes available. SBDM meetings are held the third Monday of each month at 2:35 PM in the conference room or library. The meetings are open to the public.
