

## **FOR DISTRIBUTION**

Superintendent Search Committee SAU 7

Meeting 2 Summary

October 19, 2023

The SAU 7 Search Committee met October 19 and reviewed and finalized the roles and competencies they will use in the candidate evaluation. They reviewed and discussed a draft Community Survey. They made edits and suggested that the Survey be disseminated to all SAU 7 schools, staff, and to as many community access venues as possible with a return date of October 30, 2023.

They spent some time highlighting the areas' positive attributes that we can use in the position posting materials.

They also reviewed the process for next steps and what to do when we have applicants and then finalists. They determined that it would be optimum to have the top finalists come for two days to spend time in all the school districts getting to know staff, students, families, community members, and the area. The full Board will also conduct their finalists interviews at that time.

They decided that we would cancel the meeting scheduled for October 26 to allow time to get the survey results back to make sure that community input was obtained and utilized at their November 2 meeting.
