## READ THESE NOTES.

1. Consult Instruction Form 43 "How to take the School Census."
2. If the district is fractional, write the names of the children in each township separately under the name of the township, beginning with that township in which the schoolhouse or site is situated. A separate statement must be made in the case of the several townships in which the district is in part situated, giving the number of children five years of age and under twenty years residing in that part of the district lying within their respective townships. If possible make print the child's name in full.
3. If there is not space on this page sufficient to contain the names of all the children in the district, write the remainder upon the blank provided for this purpose. If space blanks have not been furnished, use a separate sheet of paper.
4. The ages of the children must be given as they are on May 31, 1919. If a child celebrates his birthday during the year ending July 14, 1919, the total must agree with items 2a and 2b.
