Re: Safety Awareness

Welcome back to a new school year! As we begin, we want to share important information about the safety measures we have in place to protect our students and staff.

This year, we will be conducting monthly fire drills and lockdown drills to ensure our students are well-prepared for any type of emergencies. Safety is our top priority, and these drills will help students respond calmly and effectively in situations such as severe weather, active threats, or other emergencies in or around our community.

At the beginning of the school year, our staff receive training in active shooter response protocols and basic first aid. These trainings are designed to equip our team with the knowledge and skills needed to respond quickly and effectively in emergency situations.

We are also encouraging students to be vigilant and aware of their surroundings, and to report any concerns to a trusted adult. Creating a culture of awareness and communication is key to maintaining a safe school environment.

Thank you for your continued support. Let's work together to make this a safe, successful, and enjoyable school year.
