

# William Daugherty

A teaching veteran of 22 years, William was diagnosed with Stage 4 Large B-Cell Lymphoma, the most common type of non-Hodgkin's lymphoma, in 2020. Due to his complex medical situation he often has to take medical leave from work. William has been on medical leave since September 8, 2023, and as a result has depleted his PTO and sick days. Regardless of the medical setbacks he's faced, William continues to have a 'give back' mentality, even though during the last 12 months he hasn't had the energy to volunteer and give back to the community.
