Social Emotional

New Year

As we journey through this school year, we want to emphasize the importance of perseverance in our students' growth and success. Learning to face challenges, recover from setbacks, and stay committed to their goals are vital skills that will serve them far beyond the classroom. Your encouragement and support as parents are key in helping your child develop this resilience. Celebrate their effort rather than just the outcome, remind them that mistakes are opportunities to learn, and model perseverance in daily life. Together, we can help our students build the confidence and determination to overcome obstacles and achieve their fullest potential. Thank you for being our partners in this journey.

Nutrition: Jump Start your Day

Starting the day with breakfast can set you and your child up for success! Students who consume breakfast perform better academically, have increased alertness, a better mood, and improved overall diet quality. You can help your child make healthy choices on the go by providing simple breakfast options such as fruit and nut trail mix, yogurt cups, or a whole wheat tortilla spread with nut butter.

No Sodas!

Water bottles are for water only.

Please do not send sodas, Kool-Aid, juice, sweet tea, etc. to school with your children. Too much sugar is not good for their focus during school, and sticky drinks make a mess when spilled.

This is also apart of our school handbook policies. Thank you for your assistance with this!
