 - Rodriguez- Excited for this as it builds on culture. It exposes them to Spanish. Need to work through the stuff on the wall. You can see what the students are working on and impressed with the portfolios. There was a lot of student ownership. Lots of emotion with the butterfly wall and that is what we want at Janie Howard Wilson.
 - Hernandez- Loved the passport book as students write about the different books and reflection. Gardens and taking care of the campus showed the students how to give back.
 - Morales- Loved the garden and how the students knew the ownership and to take care of it.
 - A huge thank you to Dundee Elementary for this opportunity.
- Safety Concern-
 - After a recent accident, pictures were uploaded. A response was given that we should expect an update in January.
