The image features a central white rounded rectangle with a red border, set against a background of colorful triangular segments in shades of red, orange, blue, and green. The text "Spring 2025 i-READY Diagnostics" is centered within a green rectangular area inside the white box. The design is decorated with various icons: a yellow star in the top-left, a white paper with lines in the top-right, an orange highlighter in the bottom-left, and several small colored circles (blue, red, green) scattered throughout the background.

**How do we address areas
needed to achieve
proficiency (on grade level
or above) in all grades for
ELA and/or math?**

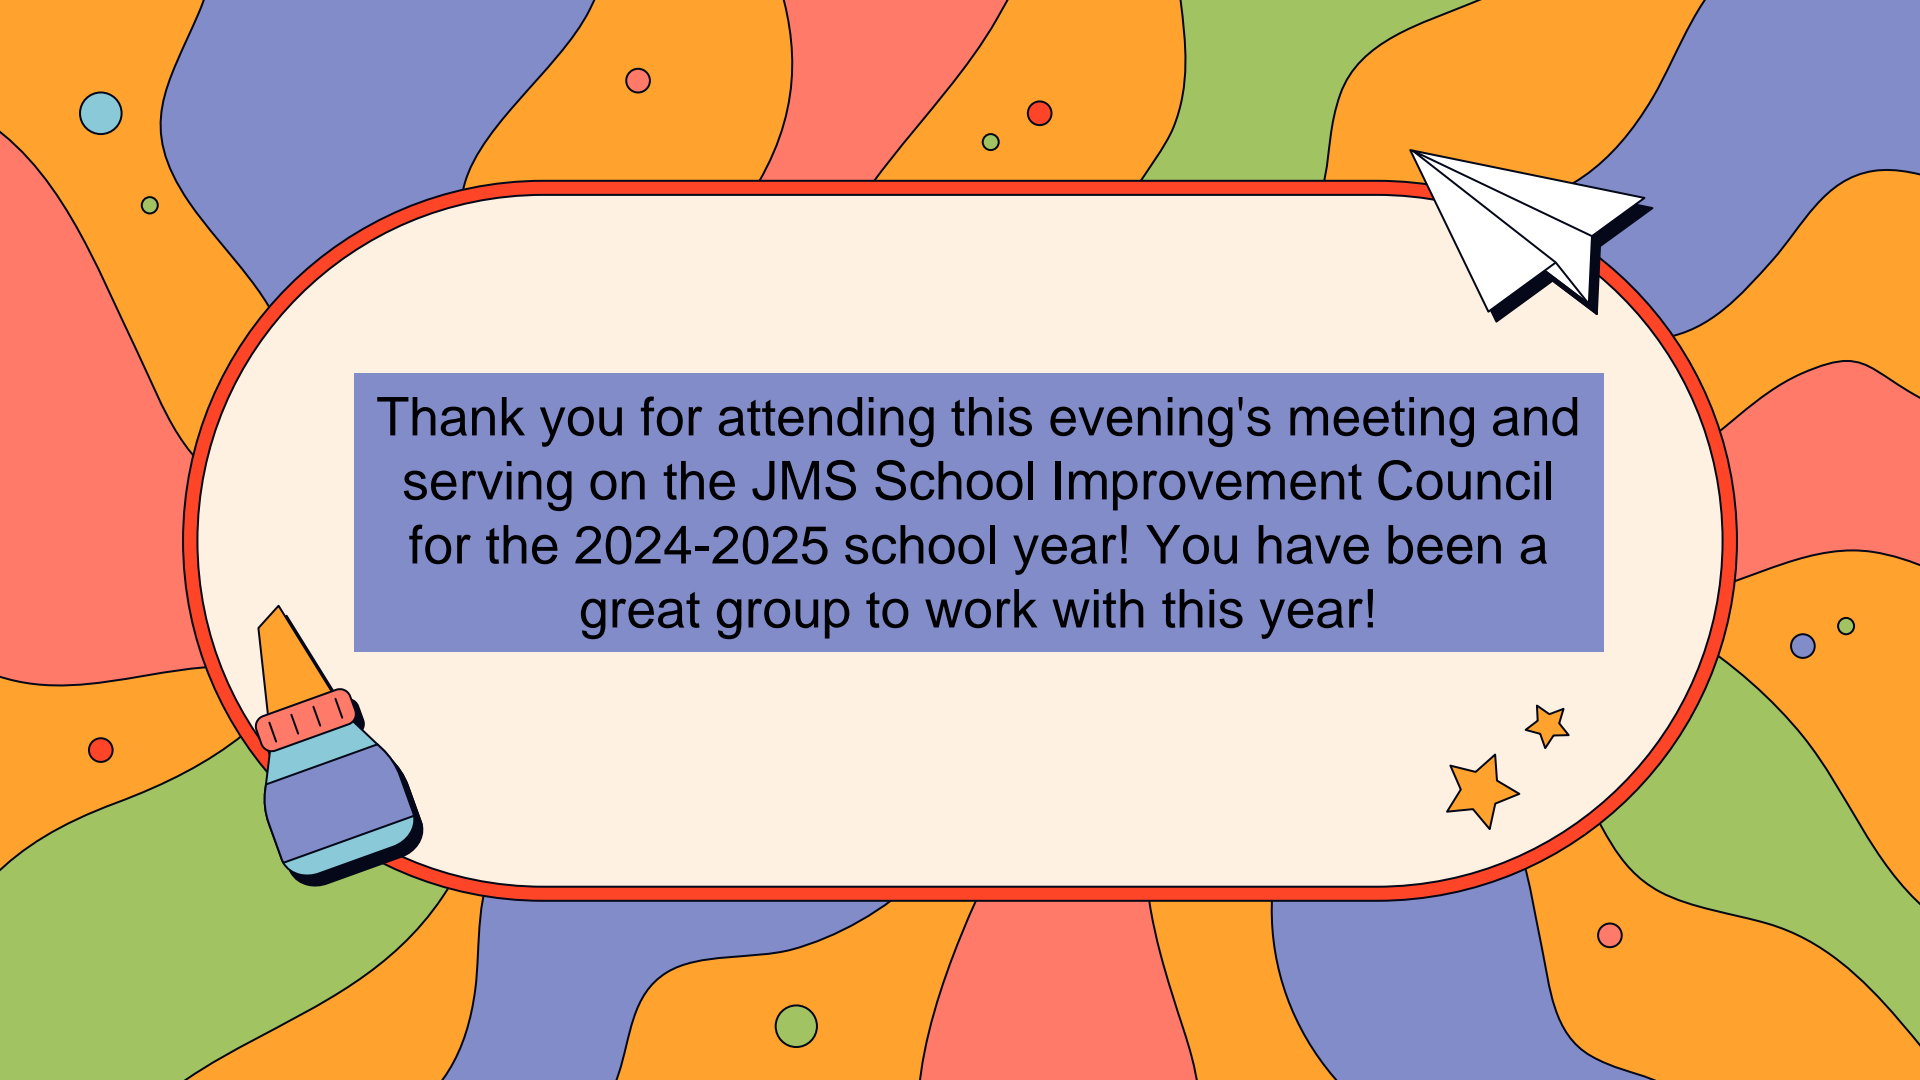

- ✓ The principal sent a PowerPoint presentation with data and held phone meetings with each grade level to collaborate on the data and necessary strategies along with coaches sharing strategies and ideas.
- ✓ Identified bubble students (those very close to advancing to the next level) for ELA and math.
- ✓ Using data from i-Ready, we will address student weaknesses through small group and individualized instruction.
- ✓ Mastery Checks for ELA and Math (SC Ready test like questions from i-Ready)/ Utilize Mastery Check Form A (Teacher modeling and thinking out loud) then Form B Mastery Check (Individual Student Practice, Partners, etc.)
- ✓ Working collaboratively within grade levels, the next two weeks will ensure that these remediations are executed with fidelity.
- ✓ Instructional Coaches being available to assist teachers.
- ✓ Each grade level was required to submit a grade-level plan to the principal summarizing how they would review for SC-ready testing.
- ✓ During the last two weeks of review and throughout the testing period, we will utilize both intrinsic and extrinsic incentives to motivate students to strive for excellence.
