THIS IS SO high school

Woah. Back up. So you're telling me that for four years of my life I have to walk these halls, take boring classes, deal with the teachers, and show up every morning at 7:40 a.m. with a smile on my face. Along with all of that, and ON TOP of the pressures of dealing with all the drama, trying to look my very best everyday, attempting to attract the attention of you-know-who, having the best friends and worse enemies, I will be having both the worst and best time of my life all at the same time? Waiting four years to get respect from underclass men, go to prom with the perfect date, and, in the end, graduate with all the people who's seen me in my best and worst times? Well, since you put it that way, it sounds perfect. I hope I can deal. I just need to sit back and remember that these

that these four years are the best four years of my life, and at the end of the day, this is just so high school!

"I loved being the E'. It was a lot of fun being with some of my best friends." Jessica Harley

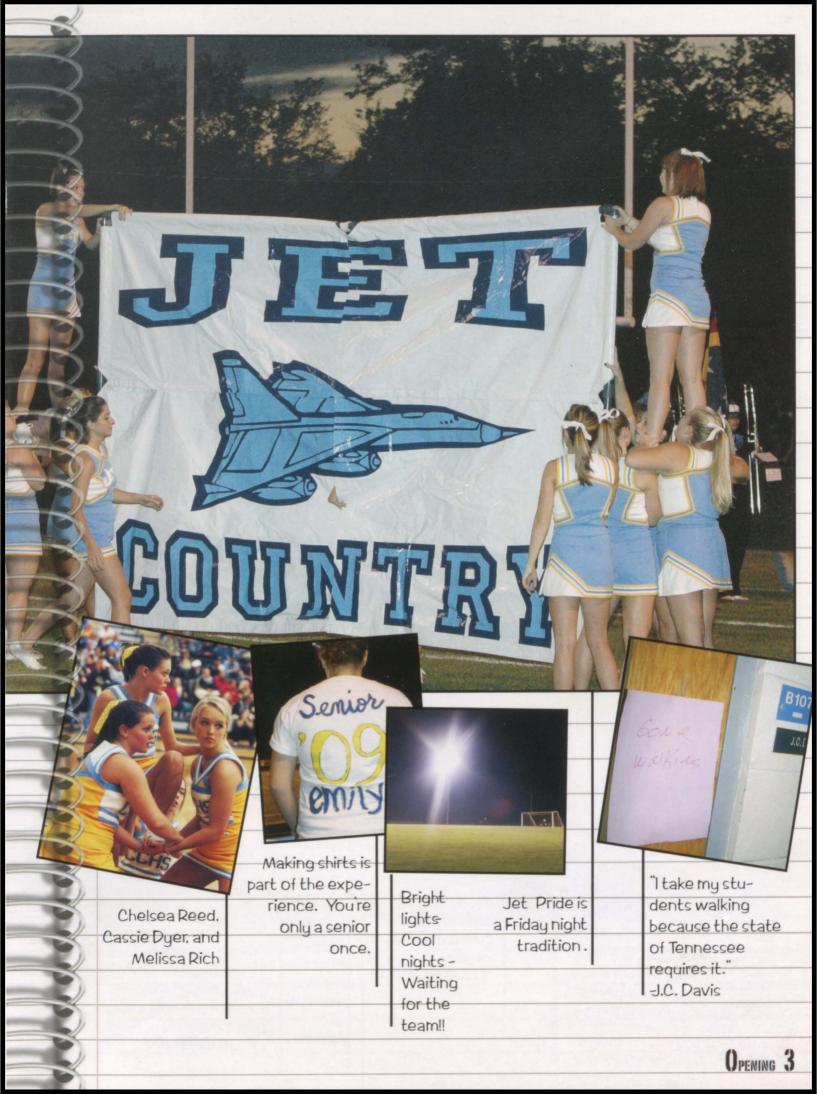

"I like wanted to win the dance competition so I could brag to all my friends." -David Qualls

"I enjoy being painted to support the JETS." Jordan Burse

"I love going to the games and especially yelling at Morgan Freeman." -Cody King

THIS IS SO thenby we Live

The life of a student can be described as many things. What makes our lives so special is that they are all very different. Each person's way of living is based on what they like, what they believe, and their individuality. It's not about who is who, winning or losing, or even those dorky shoes we wore. It's about making the best of the experiences life threw at us. It's about the way we define our life. This is so the way we live.

I was a little let down when they told me I had to work in the animal exibits at the fair every night because I won it, but I got really good at judging cows and sheep." says 2008 Fairest of the Fair Stormi Henley. 6. "Showing cows at the fair is pretty fun. You hang out with a lot of people and you get a lot of money." says Tyler Green. 7. "I loved the fair! My boyfriend and I won a huge care bear." says Rachel Rich and friend Danielle Lancianese comments. I didn't ride any rides cause they scare me." 8. Sydney Delvers and Jessica Harley said. "Our favorite ride is the Rock 'n' Roll." "It was my first time riding it," says Jessica. "and I was so nervous, but I ended up loving it!" 9. Kathy Snow and her summer chior sing for Gospel day.

CUMBERLAND COUNTY

The 2008 Cumberland County Fair was a popular hangout and gathering place for CCHS students. Belle City Amusements provides the managerie of rides; some being the Rock 'n Roll. Power Surge, Ring of Fire, and Drop Zone. They also have the more classic rides, such as, the Carousel and the Ferris Wheel. Not only do rides draw students and people of all ages, the "fair food" attracts them also. Frito banditos, cotton candy, candy apples, and funnel cakes are the many delicious treats that everyone's taste buds go crazy over.Parentsareoftencaughtoffguardwhentheir teen returns home with a gold fish or an iguana as anew family pet. Even better, is a gigantic stuffed animal that takes up half the room. For those not drawn the the excitement of the midway, the livestock shows and arts & crafts competitions offer a unique alternitave. One of the most popular nights at the fair revolves around the Fairest of the Fair Competition. Our own CCHS student. Stormi Henley, took home the crown this year.

Football homecoming, to some students, is the most fun and the most exhausting week of the school year. There is so much going on from float and door decorations, to the dress-up days, to the parade, pep rally, bonfire, and the big game. There is just so much to do with so little time to do it. Since school was behind schedule, the students had to step it up and work really hard. Things turned out great! Although we didn't win the big game, the football players fought hard with their JET spirit. There was BIG competition between the classes this year. Students postponed their homework, so theu could work on their floats. Homerooms took time to do something new this year: they decorated the doors to their advisory classrooms. In the end, the seniors won the competition followed by the sophomores. With a tremendous amount of hard work, homecoming really turned out to be something great this year. We got to step back and admire what we had achieved. We showed our spirit and never failing JET pride. Isn't that what homecoming is all about?

FAN(ILY)

Family is one of the most important things in a person's life. They are one's backbone and support in everything one does. The love of a family member is something that one should not take for granted. Every family may have their ups and downs, but in the end they are always going to be there. One should cherish every moment that they get to spend with their family. As you grow older and move further on into your future, friends may fade and go their own way, however family will always be there.

"I pick on her, of course, because of her height mainly and her big head," says Daniel Gonzalez about picking on his older sister.

Opposites

"Actually, my brother and lare nothing alike... Theonlythingwehaveincommonareourgood looks," saus Jeff Flack when asked if he and his brother had the same interests in common.

Tough Love

"She just acts weird sometimes, like grabbing my cheeks and pinching them and saying how cute I am. That's the only thing I can think of, but I know she does more. I love her to death though," says Marshall Pickard about his mom embarrassing him.

Blame Game

In answer to the question, when you were little did you get blamed foreverythingevenifyouryounger brother actually did it. Tyler Kerley said. "OH YES!!!! All the time!"

Describing their special family traditions Stephanie Moerduk said. "For our fifteenth birthdays we have a quincera, which is a big party."

Daddy took me to Knoxville to look for cars, and I saw my BMW and fell in love with it! So for the next two weeks I waited for it to come in and finally we went and picked it up." - Courtney Koehl. 6. "Drivin' in my drop top is the best part about my car." - Corey Buckner. 7. "I picked my truck because, first of all Ford trucks are by far the best and I really like the bodystyles. After I bought it I put some 20" tires on it and some chrome wheels." - Andrew Phipps. 8. "I wanted different wheels because how often do you see a yellow bug with daisy wheels? And they were also very girly, just like me." - Brandy Cates 9. "I drive my camaro because it has at least two wheels and it runs." - Darel Davis.

CCHS CAR GARAGE

Ford Mustangs, Volkswagen Beetles, BMWs, and Chevy Trucks are just some of the many vehicles you will see parked every morning at Cumberland County High School. They vary in colors and years: all having their own stories and owners. Some are pimped out hot rods, and others are sweet old classics. But no matter what, the students at CCHS love their cars even if they're a hunk-of junk.

At CCHS it is a big deal to get a good parking spot. At the beginning of the year they announce the students with straight A's the year before, and they get to pick any parking spot they desire before anyone else. Then Seniors are the next students to choose, then Juniors and on down.

Driving is a great privilege that high school students have, and showing off their new cars is what they like to do best. best tomy friend

When you think of friendship, you might think of the person you hang out with or the one you sit with at lunch, but a true friend is so much more. True friends are there in the good times and the bad. They are there when you are going through rough times and need someone to talk to. A real friend is there to just listen. They are the people that no matter what the circumstance, stand by you to the end. In our lives, people come and go, but true friends will be there regardless of arguments, scuffles, or even long time spans where you haven't seen each other. A true friend is one that you can ALWAYS count on to be there.

CCHS got TALENT

Talents and hobbies play a major role in a students high school experience. Some become interested in a specific hobbie or talent when they are very young but others stumble upon an interest in one through family, friends, and teachers help. It is very important for CCHS students to have extracurricular activities. Life would be boring without them. They not only help you get into college, they give you memories that will

last a lifetime. Many unforgetable friendships also are a result from the talents or hobbies one chooses. Many hobbies and talents are a reflection of what one whats to do with their life or in the future. A good thing about hobbies or talents are that they are something you enjoy and love doing. One doesn't have to have a talent or hobbie to live but it helps the great times and memories live forever in one person's heart.

Converse, Abercrombie, and AE too.
What's the difference between me and you?
I may not wear those clothes you see.
But that don't mean you're better than me.
I may buy clothes at Wal-Mart sometimes,
Because I may be saving my dimes.
Or it could be because it's not what you wear,
or the chemical color you put in your hair.
It's not the manicured nails or the fake bling bling.
In the end they won't matter none of these things.

It's not the cute Ugg boots or the Paris Hilton Shades.
It's not the size of your house or if you have a maid.
Life's about what really counts not what you wear.
That's how God first made it. Adam and Eve were bare.
Don't think you're too cool with your dainty high heels.

THIS IS SO

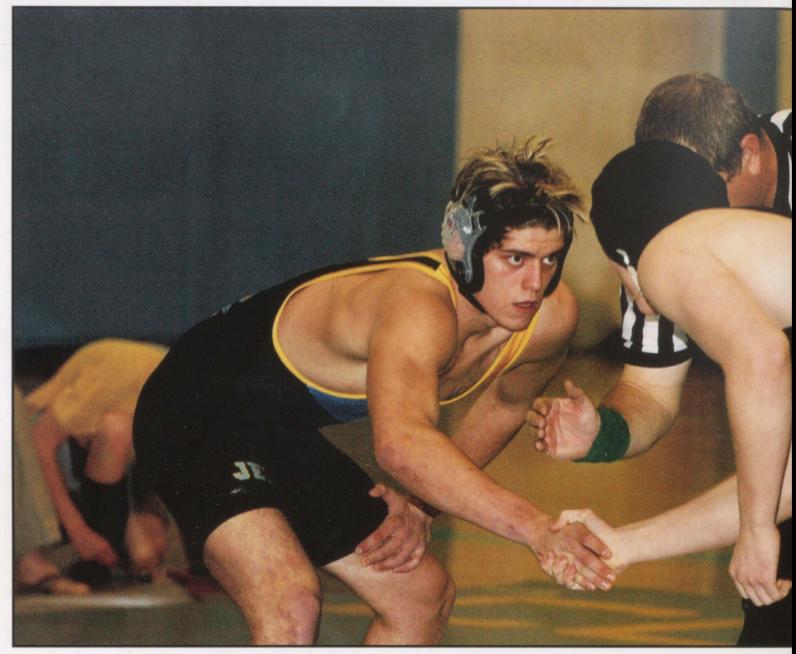

Athletic achievement is taken very seriously here at CCHS. Countless hours and days were spent toward improving individual skills during practice in order to give our all at games, meets, matches, and races. Even a two week school delay couldn't hold back these fired up athletes. They showed true dedication throughout the year, and that dedication paid off with great athletes representing our school. Every competitor, whether on a team or in single competition, set their eyes on the prize. And, in evey aspect, they succeeded. Welcome to Jet Nation!

JET MRESTING "pinning them" in 08-09

This year the wrestling team had a phenomenal season finishing up the season with 18 wins to 8 losses. Over the summer senior Darel Davis competed overseas, when asked about the expierience he said. "Going overseas was an awesome experience. I met new people, saw some amazing things, and ate weird food. Other than that the wrestling was great. I placed first in the world, beating a two time Hungarian champion." Among all of this success the wrestling team has had a very sadyear. Josh Stephens, a junior on the wrestling

team. who was diagnosed with an agressive form of brain cancer last April. passed away this year. Josh was a brave and caring person. Throughout his treatments be maintained a positive outlook, never complained, and

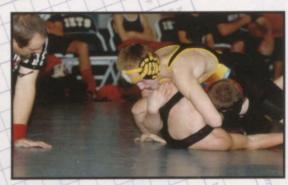

was an inspiration to many. He was loved greatly by many and will be sorely missed.

CROSS COUNTRY "breaking records" in 18-19

The CCHS Cross Country team had an exceptional season this year. With five experienced seniors and eleven new freshmen, both the boys and girls teams have improved tremendously. The Lady Jets won two tough meets and placed an impressive second place at the AAA Region 3 meet, sending them to state, where they placed 19th. The boys finished fourthin the region-

als, missing state by only 13 seconds. Both teams continuously shattered records throughout the season. The girls team broke 25 individual and team records, and the boys' team broke

JET FOOTBALL "Working to Win" in 08-09

This team worked harder from May to November than any team I have ever been a part of in my four years of football at CCHS. We were pretty successful in the spring: worked countless hours in the summer. We even endured 4-a-day practices, which was simply ungodly. We did all this in preparation to play our bitter rivals across the road (not Martin), the Stone Memorial Panthers. Then adversity struck - The county commission faltered on passing the school budget, putting our entire season in jeopardy. If they couldn't pass the budget, that meant no school. No school meant no sports, and no sports meant no football. We were no longer worried if, or when, we would get to play Stone, but whether or not any of us would ever have the opportunity to play football at all. We continued

to practice, however, not knowing if our pains taking efforts that we invested for so long would ever be worth anything. For our seniors, it was devastating. To spend three year-long excruciating seasons, and never get the satisfaction of knowing what all our hardwork paying off felt like, was something we were not willing to accept. We were going to play that fourth season we had

coming to us. And we were going to get what was ours: a win. The season finally started, and four weeks into it, playing against sparta, we finally received the reward we had been working for over the past four years. The euphoria we felt that night from that victory will never be forgotten. That night everything we had ever invested in together as a football team was worth it!

ADV JET VOLLEYBALL "Every Play, Every Day" in 18-19

After a great season, the Lady Jets finished up in good standing. With only one senior leaving last year, all of the girls carried over their tight bonds from last season. Seniors Mandy Moss, Emily Jones, Lillie Scarbrough, and Sarah Andrews were tremendous contributors to the great season.

Inpractices they worked on set plays and exercised specific skills as a team to increase their game. Before each game the girls did their motivational cheer to get each other pumped. Even though the seniors will be heading off to college, next years team will keep up the traditions.

Success was written down in the books, finishing off their

season with a tie for third place in the district. Mandy Moss and Emily Jones were selected All-District.

The 2008 season was the best season yet. The team credited Head Coach Gargac for their success, and felt herencouragementanddirectionmade it all possible. It was Assistant Coach

Epperson's first year with the volleyball team and he added a lot to the program. Hope and spirit are both high on the agenda for next year's team!

In doing so, they have shown major potential that will take them and our school to the top in the next four years. The 2008 season has been astepping stone for the freshman team. They will continue to grow and improve for years to come. With continued success, our football team will become a team to make everyone proud. The goal is

The 2008-2009 CCHS Jet Pride Marching Band had an astounding season. Performing Tim Burton's "Nightmare Before Christmas" was just one of the memorable activities of the year. The goal for the band was to work hard to make this year the best it could be. New uniforms were purchased this year. It not only boosted the morale of the band members, but it helped boost the

home crowd during football games. We felt a higher sense of pride, and it showed inour performances. Theyear was busy as the band went to many competitions and watched their scores improve every time. An invitation to march in Disney World's Parade on the 28th of December was a highlight of the year. It was an exciting trip! This band year has been so much fun for everyone involved. CCHS "ENNIS "Game, Set, Match" in 18-19

The primary goal of tennis is to get the ball over the net, and at the same time try to keep it within the boundaries of the court. Tennis is not a gentle game. Psychologically it is vicious. If you can react the same way to winning and losing, that's a big accomplishment. That quality is important because it stays with you the rest of your life, and there's going to be a life after tennis that's a lot longer than your tennis life. One of the greatest joys of tennis is having a nice volley, and not really keeping score, not really looking at the lines, but just keeping up with each other. Ms. Phillips always gave us great advice about when we were nervous. She said "pressure is felt on both sides of the net, so focus

on transferring that to the other player. That always got us pumped up. This year the team came together and formed a special bond. Whenever we were down in a game we encouraged each other without saying a word. In tennis you aren't allowed to talk to the players while they are playing so we came up withhandsignals to help each other

out. Tennis is not easy but as long as you are willing to put in the grueling hours of hitting the ball, running til your legs won't move and sweating till you feel like you've been swimming, you will succeed!

TRAP SHOOTERS

"The CCHS swim team grew from last year's size of five to a team of ten in Just a year. Swimming is one of the hardest and most competitive sports in the U.S. This year Kyle Presson and new comer Sean Lachance went to state competitions at the University of Tennessee, and despite the heavy opposition, represented our school very well! The entire swim team was devoted to the sport, and really kept the Jet spirit alive this year."

"This is my third shooting on the Cumberland County Trap Team. I have improved so much on my shooting skills. thanks to all of my coaches. I am so excited about this season too. We have a great team and I am hoping we will do good at State this year. Our biggest competition was a team of ten shooters from the other county school, but I still think we had the better shooters. This year the Cumberland County Jets had only four competing shooters: Wilson Tanksley, Spencer Music, Carl Kerley, and myself. Our season started in April, until then, we met at the Fairfield Trap Range once

The CCHS Jet soccer team showed a lot of heart all throughout the season. Being dedicated through the treacherous weather during practices and pre-season tournaments prepared our boys for this challenging season. The leadership from our seniors and captains was outstanding, and helpedcreateastrongdetermination to win. Speed, accuracy, and flat-out skill gave the players a "take-no-prisoner" attitude, and

FRESHMAN CHERLEADERS "flying high" in 08-09

The CCHS freshman cheer squad started off the uear with 6 a.m. practices to prepare for camp. Ugh! But cheer camp proved to be worth the early morning starts. While there, we learned many new cheers and some great dances. We took first place in our Home Pom, Extreme Routine, and Cheer competitions. We also received a Superior trophy and numerous spirit sticks. This recognition boosted the teams spirits, and made us wanting to get better. We had a great time and made many new friends. Football season was a lot of fun and we got to cheer for several winning games. Halfway through the football season. Brianna Hoyt joined the squad. She fit in very well with the other nine girls. Unfortunately, we lost Kayla Williamson half way through basketball season to an ankle injury. We have learned new cheers and did new stunts. We liked stunting the best! We also went to gymnastics classes every week and tried not to fall on our heads. It was a great year!

AND ISAN Finishing Strong in ISAN

The 2008-2009 Lady Jet basketball season will be one to remember forever. Since the Cumberland Couty schools split in 2006, the team worked hard to be noticed. This season was the best the Lady Jets have had in many years. For two years. Coach Epperson, along with Coach Whitson and Coach Shoemaker, brought the team together in a way never thought possible. Because of these coaches, supporting families, and loyal fans, a strong team emerged and found great success. Every girl on the team realized from the very start that it was going to take a lot of hard work and dedication to get where they wanted to go and to have a winning season. Every day the team focused on finishing what they started

and, at the end of the year, felt that they had accomplished that goal.

Not only did the Lady Jets compete well in the county this year, but they also did well in their District games where they finished as Runner-Up. The team continued on to the Regional Tournament where they won another Runner-up trophy. This win

assured them a place in the sub-state competition, and hopes for Staterecognition. Mandy Moss. Taylor Williams, and Missy Bargayo were selected as All Tournament District and Region players. This year's basketball season created a lifetime of memories for all of the Lady Jets!

JET 34\$16:11341. "Going Hard" in 18-19

This season for the Jets was another year of: "On the road toward future success". We took agressive strides this year toward our ultimate goal of being in the State Tournament. We set our goals high and found success through the commitment of the team coming together and being a unit. We were not individuals: we were a team.

Team success started with leadership from our seniors. Jeremy Jacobs and Joe Blalock. The desire to make it to the Regional Tournament two consecutive years, and the drive not to have anyone outplay us on the court, were the key

factors in the Jets success this year. This determinationwillcarry over into our futureseasons as westrive to once again establish the tradition of Cumberland County Basketball. Coach Eggleston completed his 3rd year as Head Coach He was assisted by Coach Foster, Loui Delorenzo and Drew Delorenzo. Each

year these coaches brought something new and exciting to Jet basketball. They have taken us to a 4th place finish in the District, and we had a great experience at the Christmas tournament in Illinois. The Jets are powered up and ready to

W JET BASKETBALL "Rising High" in 18-19

The bou's Junior Varsity basket ball team had yet another success ful season. The team's winning record was brought on by their hard work and their "never quit" attitude. Perhaps the team's greatest achievement was how they helped the varsity team prepare. The players not only learned the other team's offenses and defenses, they truly got into the mindset of the opposing team. No one can doubt that these boys were a major part of the team this year. The JV boys team had many exciting games. In two of the games, they went into double overtime and never gave up. They always dug deep and found something in themselvesto give. They found the sweet taste of victory and the bitter taste of defeat, and that alone drove them to play hard.

The girl's junior varsity basketball team also had a great season this year. Every day they continued to improve by pushing themselves and each other to be all they could be so that they can keep the tradition and the future of Lady Jet basketball alive.

Losses: The goal of the Lady Jets JV team was

to improve the attendance of fans to their games. With great playing, they got fans to come early to watch them, and they never disappointed. Boys JV added to the excitement with a great wrap-up to every double-header.

VARSITY CHERLEADERS "show spirit" in 10-19

Cheerleading is a sport that requires extreme dedication and perseverance. The season starts in the middle of March after a two-weekbreak from basket ballseason. After a week of truouts. we start immediately preparing for our competiton season at our summer camp by practicing four days a week. Once school is out we start our 6:00 am practices throughout the summer months. After camp, our first priority is preparing to support our football team. This is done by learning new cheers and band dances, making signs and planning pep rallies. In addition to the above, we must also begin preparing for our competion on season. One foorball season, two peprallies, and two competitions alater, we must be gin our transiton to basket ball season. This re-

quires learning a new collection of cheers andalsobringsasmall break due to a fourinstead-of-five-daya-week schedule. After cheering our basketballl teams to a victorious season. it is now time to say good-bye to our se-

niors. And finally after another much-needed two week break: it is time to start over again.

THIS IS SO Success

Why do we go to school? What is the point of it all? Although sports and friends are fun and are a big part of our high school experience, it all boils down to learning. Why do we need to learn all this? Well, where would we be without education? Our society thrives on the imagination and the applied knowledge of bright individuals now as in times past. Society would still be in the Stone Age if no one learned anything. You can do all kinds of things if you put your mind to it. While we are here, we must learn all that we can, and it will definitely, positively affect our lives.

IN HIGH SCHOOL

Some people ask. "Why history?". My repsonse is "why not history?". Gilgamesh, Leonidas, Thor and Genghis - what is not to like? To be honest though. I wasn't interested in history in the least until my junior year of high school. I had a great teacher who literally brought the subject to life. My love grew stronger my junior year of college, I was 2I years old and the only history I had been exposed to was American history, I all aspects of social studies include American History, World History, Sociology, Economics, and Geographyl. History is like the definition of why the world is what it is today. That all changed during my World Civilization class. It was like discovering a new element! Some people refer to history as a bridge, the water under the bridge, the land the bridge connects to, and the people that cross the bridge. Everything has a beginning, a way of fading, and whatever is in the middle. History is like the definition of why the world is what it is today. History encompasses everything.

Choir was awesome this year. All the new kids did a great job of following directions and listening to Mrs. Snow: which made them very good to work with. We had some really good music picked out for our spring concert this year and the choreography was incredible. The biggest change in choir this year was probably all of the music theory that we had to learn. None of us really had any idea how hard it was to learn how to read music until Mrs. Snow started teaching us. One of the best parts about choir this year, it seemed to be that everybody had really awesome friends in there. That enabled us to work really well together. We looked forward all year to our competition in New York and hoping to come back with a first place trophy like the choir did when they went 3 years ago. CHOIR RULES!!! —Spenser Rohr

What is art? It's hard to define sometimes it's a song with a silly little rhyme. Art can be a picture seen through searching eye.
or it could be a paintingthe product is a surprise.
Art can take talent to be the absolute best. or it could come on a whim where imagination is the test. Your tools can differ depending on what you create. some use a camera while others use a slate. No matter what you use. or even what you make,
it's made by you

My passion for reading caused me to choose language arts above any other subject. I not only enjoy reading for the pure imaginative pleasure, but for the investigative aspect of discussing what the author was thinking when writing. The idea of how history and culture play a part in language and storytelling is so intriguing as well. When my classes and I can come together for a discussion. I enjoying hearing their ideas about what we are reading. The way students can weave their personal life experi-

ences into a text is amazing to me. My philosophy about teaching Literature Arts is to embrace it with enthusiasm, and your students will embrace the content taught. Always teach your passion with energy, and your students will be excited to learn. I have found even something as complex as William Shakespeare can be enjoyed if taught with excitement."

What the students think about their teachers...

Science teachers have a unique way of opening doors to places where the eye cannot see, and where the imagination has limitless boundaries. They somehow make those late nights and early mornings studying, and dreading the tests, all worth it. When you take that next step to a new harder science class, you feel ready. The one thing that really stands out about science teachers is that they make you realize that high school is a stepping stone. It is just one step in a journey that lasts for many more years down the path to creating your own life. They make you see the potential of your own life as it relates to the world around you, and help you realize there is always new horizons to conquer and explore.

"My favorite triangle is an equilateral triangle because they are the easiest to work with and they don't confuse me as badly." -Dustin Stephens

2+2=4. A $^2+8^2=C^2$. Circumference = pix diameter. These fundamental truths have been drilled into our minds time after time. However, the field of mathematics is so much more than that. Math is a puzzle waiting to be solved: a door waiting to be opened. Without math, where would we be? The answer to that question is nowhere. The only way to travel would be on foot, because there would be no planes, trains, or automobiles. We couldn't follow recipes because we would have no idea how to measure 3/4 of a cup. We couldn't build skyscrapers because there would be no such thing as an architect. We couldn't buy anything because there would be no such thing as finances. Without math, several fields of science would be nonexistent.

Math is so important in our lives. It only makes sense that we strive to learn more of it. There are always new ways we can incorporate math into our daily lives in order to be more efficient and successful. For this reason, it is a good idea to take advantage of the many math classes that are available to us in high school. We can take every class from Algebra to Calculus. Some students enjoy every type of math, others will have a favorite type of math like Algebra. Geometry is for those who enjoy figuring out how numbers relate to shapes, while algebra is just working with numbers. Math, it could be argued, is the most useful subject we are taught.

"What do you want to be when you grow up?" When we were asked this question as children, we probably said we were going to be pilots, or firemen, teachers, or doctors. Broadcasting is news. sports, feature films, interviews, stories about teachers and classmates, politics, and club profiles. We combine photos, video clips, and music as we tell the story of daily life at CCHS. Students in this class are responisible for the daily broadcasting of the school news lannouncements), production of the school podcast, and the development and maintenance of the school website. This class is operated with all of the components of a video production studio and daily experiences simulate those found in business and industry.

Through this class, students gain proficiency in using interactive multimedia tools to develop and present digital communications. Creative design, persuasive communications, and language arts skills are applied through research, evaluation, validation, and written and oral communication. Typography, layout, and design guidelines are applied. Copyright laws and ethical practices are reinforced in creating and formatting various presentations that require imported data/graphics, digital, audio, and video clips. Students create a number of multimedia presentations in a fast-paced, high energy environment. As shown, Jeff Flack, Zachriah Pearson, Matthew Dodson, and Prue Hamilton, are diligently looking over the segments of the day.

IGH SCHOO

Freshman Academy is a great way to help incoming freshmen get acclaimated to the high school life. The very first experience many of our freshmen have with CCHS is during the summer at Freshman Orientation. This year's orientation in June provided a great way to meet the new students for the first time.

The students got a chance to see the entire school and meet some of their future teachers. My Job was to inform the students of all the extracurricular activities that are available to them at CCHS. "After a thirty minute tour and all the excellent information that I brought to them, the new freshmen were as confused as ever as to where to go in this great big world that we call Cumberland County High School!" said Coach Foster.

Freshman Academy is not only orientation. There are a variety of other ways that this new program benefits our freshmen. Freshman Academy offers incentives for those who meet the requirements, follow the rules, and stay out of trouble. The core freshman classes are kept free of those taking the course a second time and are housed, for the most part, on A and G wings so that the students are less likely to be late to class. This all helps make the transition into high school much smoother.

Hands-On-Learning

"My favorite thing about physical science is the labsbecause it is hands-on-learning instead of just taking notes and sitting in class. Ilike Mrs. Brewer because she is a great teacher, and she explains science very well." -Brandi A. Green

Doing the Wave "We were working on some kind of wave project for physical science. Science isn't my favorite subject, and I would rather be playing Halo, but Mrs. Brewer is a pretty good teacher and doing labs is definately more exciting than doing stuff in our books.

Rising to the Top...

Recognition and reward comes to those who strive to achieve the top. Knowing that the other person has your back is a good feeling when times are tense. "I was racing my brother. James, to the top of the course at the JCLC camp." Bragging rights went to the winner. but everyone wins when there are young people willing to serve their country in such an honorable way.

-Ryan Ashburn

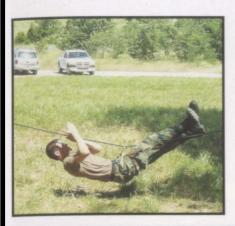

Always driving themselves to be the best they can be, and giving that extra effort. creates the strength of the program. "I had to do as many push-ups as I could in 2 minutes in the JROTC pentathlon meet. It was hard, but I felt good about what I had accomplished.

-Chelsey Medley

Enrollment in the JROTC program has been beneficial to me in several ways. When I started as a new cadet at the beginning of my freshman year, I didn't quite realize how much I had to gain from JROTC. There were short-term benefits to enrolling in the program, such as exemption from certain courses through taking it, and the chance to join the military with advanced rank. Plus, now I have training and experiences that will help me for the rest of my life. Attending JROTC class every day and being in the military environment not only motivated me to become physically stronger, it also gave me a much greater interest and understanding of the military, as well as a much deeper sense of patriotism. I've stayed in JROTC since I first entered high school. As I rose through the ranks and positions I gained more leadership capabilities each time I moved up. Having to speak to groups of people over the years of being a cadet has helped me get out of my comfort zone, and has made my public speaking skills stronger than they were before. Also, being the Cadet Battalion Commander has helped me learn how to organize events and conduct business. The highlight of my experiences here in JROTC would be if I could look back and say that I in some way had a positive long-term affect on some student's life.

Mr. Alva

The world is infuenced by so many cultures. Nowhere is this more evident than in the foreign language department. This year our highschool offered two foriegn language classes: Spanish and French. Our foreign language teachers for Spanish are Mrs. Hall and Mr. Alva. These two top teachers are the reason so many students take Spanish. The one and only Mrs. Robbins is our French teacher. Our teachers for these languages put in a great deal of effort in running clubs as well as teaching. The French classes celebrated National French Week this year. They learned about French history and monuments of Paris. Mrs. Robbins dressed up each day as something different including a gargoyle, a revolutionalist, the Statue of Liberty, and Marie Antionette. Then at the end of the week, the students enjoyed French food like croissants and truffels.

Clubs give us the opportunity to find our passion and others to share it with. They allow us the chance to share our unique interests and learn more about ourselves. From sharing your faith to learning a new skill, joining a club helps you to grow as a person and become involved in your school. The dedication of the sponsors as well as the members help to better our surroundings and make prominent memories that will last a lifetime. We started out small, and as we found our purpose we grew. They have left a legacy to those who would like to follow and make CCHS the place to be involved.

BETA CLUB

Smarty Pants

"One of my favorite experiences in Beta was being initiated and officially becoming a memeber. I enjoy being a part of such a great cludb and being able to help people and other organizations along the way."

-Anna Hill

Teachers Pet

"I really like Beta. But I might be a bit biased since mom is the head sponsor. I just really like helping people. Beta offers great ways to serve others like feeding the homeless and giving gifts to children in foreign countries. The Beta Club helps such charity programs as Crossville Pregnancy Center, Bread of Life. Operation Christmas Child. Salvation Army, and others. Helping others is very satisfying. With Beta. you also get to go to convention at the Gaylord Opryland. In addition, you get to wear a cord and stole with your graduation gown. There are lots of benefits with Beta."

- Marshall Pickard

Princess Kelsey

"Beta makes me imagine butterflies, rainbows, and daisies. Mrs. Pickard is pretty much the Queen of Beta, so I think being president makes me the Princess. When you're the Princess of butterflies, rainbows, and daisies, it is just plain magical."

"Ivery much so enjoy Renaissance. It's one of my favorite responsibilities at CCHS".

-Mrs. Atkinson

Packing Cookies

"like Renaissance because I get the opportunity to help the school in this club."

-Jazmine Dearinger

Team Effort

"Renaissance is one of very few clubs in our school which focuses on bringing everyone together. Mrs. Atkinson, Mrs. Herring. Mrs. Burnett and Mrs. Vincent always do an amazing job of finding a way to include everyone."

Deadlines, Deadlines, Deadlines!!!

Yearbook is a lot of fun. The only thing I HATE about yearbook are the deadlines! They are so horrible! Also. Mr. Sanderson is a dictator who makes us come in on snow days and never gives us pizza! Just kidding. we love ya Sanderson.

-Jennifer Cox

THIS IS SO

The people section is a very special part of the yearbook. It's where everyone can be found. There will always be those people that think this is just the section of mug shots, but in the eyes of others it's seen differently. It is a record of what we are at this moment in time. Years down the road, there will always be that one goofy picture that still makes everyone laugh. These are the memories that surround our school. It's the friendships that will last a lifetime, and we made the best of it! This is so you and me!

THIS IS SO

Selling ads sounds easy and fun, but it can be very hard. Sometimes people say they will call you back, and never do. Sometimes they say our ads are too expensive and they can't afford it. Other times, we are told to come back later only to find out that they have already bought an ad from someone else. Then there are some kind-hearted people who buy ads and do everything they can to support our year-book; and we are very grateful! It took the dedication of the entire ads staff to get the ads sold, but it paid off.

Brandon Rains

Congratulations Brandon! We are all so very proud of you! All who know you are truly blessed. Always remember you can do all things through Christ who strengthens you. Daddy would want to say. "THAT A BOY!!"

We love you!!! Love Mom, Dad, John, and April

Gina Augustina We are so proud of the beautiful young lady you have become and we are blessed to call you our daughter. You have accomplished so much and you have only just begun We are amazed that this little girl who loved to draw and paint, ride horses and go-carts, catch fish, swim like a mermaid and dress up like a queen is now part of the graduating Class of 2009. Dream big sweetheart and the future is yours. Keep working toward your goals. reaching for yours dreams and with Gods help, all things are possible. Love. Dad Mom Dominick, and Angela For I know the plans I have for you declares the Lord, plans for good and not for harm, to give you a future and a hope. Jeremiah 29:11

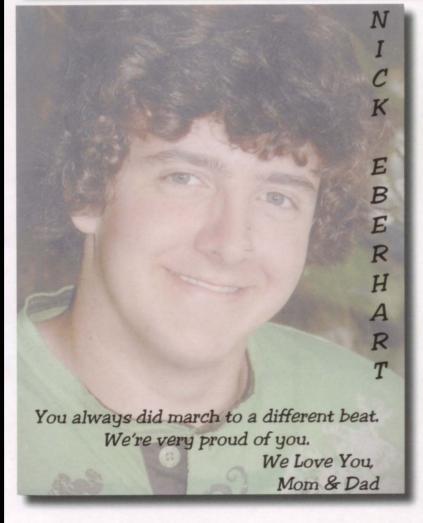

Matthew Blaylock

Memories filter through my mind of the years since your sweet birth creating pathways to my heart' my most treasured gifts on earth. From tiny baby to toddling child, you grew before our eyes, never knowing each step you took woul be blessing all our lives. There were soccer games, and Sonic bicycles became a car. Each moment shaping perfectly the man you now are. Graduation....Its hard to believe your're almost on your own. I thank God for your faith in Him for voull never walk alone. Look for the rainbow when you only see rain. Though clouds blurr your vision Gods wonders remain. Take time to enjoy life's journey. Talk to God every day. Greet each trial and truumph as a step along your way. Look forward to tomorrow, remember yeaterday, and know that you're still our blessing. We're behind you all the way. LOVE, MOM, DAD, AND DYLAN

If you think you are beaten, you are if you think you dare not, you won't, If you like to win, but don't think you can it's almost a clinch vou won't

If you think you'll lose, your're lost for out in the world you find, Success begins with a fellow's will it's all in a state of mind

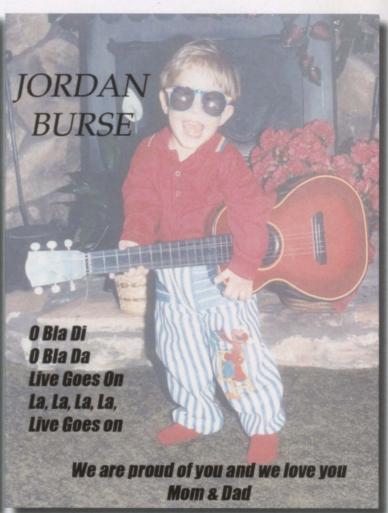

For many a game is lost Ere even a play is run, and many a coward fails Ere even his work is begun

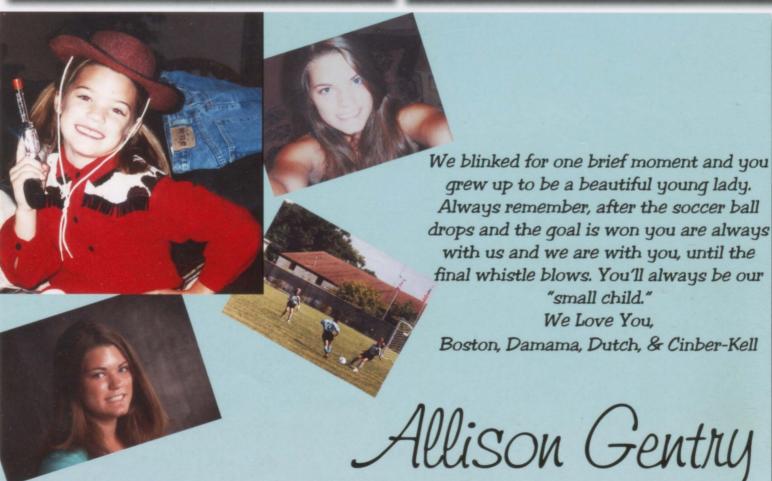

Think big and your deeds will grow think small and you'll fall will it's all a state of mind

If you think you are out-classed, you are you've got to think high to rise you've got to be sure of yourself before you can ever win a prize

Lifes battles don't always go to the stronger or faster man but sooner or later, the man who wins is the fellow who thinks he can

THIS IS SO High School

Okay. We did it. Another year of high school marked down and recorded in the pages of The Plateau. Friends made the 7:40 starting time a little more bearable, and could always put a smile on our faces. All those classes we worried about turned out to be more interesting than expected, and the teachers we dreaded instilled in us a respect for learning and a desire to create our own future. The halls of CCHS rang with laughter and drama. Every student found a niche in some aspect of our school. Whether it was with a club, a team, a class, or just a group of peers, there was a sense of belonging. Some will be leaving to pursue higher goals, leaving others behind to carry on the many facets of life in these old halls. They will look back and admit that these were indeed the best four years of their life, because as we all know, all of life truly is So High School!!

How are you going to use this achievement to affect your futures.

"As for as my future correct and aspirations go, the title doesn't change any thing. I may use it for finanoial reasons but beyond that I don't want people to have any expectations of meather than I am willing to work have and have the to accomplish

How does it make you feel to be Valediotorian? "I valued my academic performance novethan most other things in my life. It was a chance I took and don't regree t. It's nice to know that anything is truly possible with the vight attitude. I learned that even if you are on the vight trock, you'll get run over even if you are on the vight track, you'll get run over

Truthfully, this wosn't a good I had set for my self.
I did, however set particularly high standards for my high solvents to particularly high standards for my high solvood experience. I am extremely self-motivated and I am probably one of the most exorbinativated and I am probably one of the most exorbinativated and I am probably one of the most exorbinativated and I am probably one of the most exorbinativated and I am probably one of the most incept.

dreamed of wearing a stylish cap and gown of gold at graduation. I'm totally psyched about having my picture on the A-wing wall forever too. But of the reason I achieved this award was becaused my supporting town goals and aspirations which made getting the grades so much easier.

The pretty amake you feel to be salutatorian. It isn't as such a fun word to say... Salutatorian.

"It's pretty amake you feel to be salutatorian. It isn't as such a fun word to say... Salutatorian. It isn't as one dong yearsty amake, such as gullible, lemon, typo, and gregarious, but it's definitely up there on my list."

How are you going to use this achievement to affect your future?

Knowing I'm Soluto torion now gives meareason to worke up every morning. It also shows meit I set my mind to doing some thing, with God's help, I aan do

This is sooooo ... school.

Webster defines school as In.) an organization that provides instruction; an institution for the teaching of children IVI to teach or drill certain knowledge; to educate in an institution of learning.

As each of us reflects about our theme for this edition of the PLATEAU, this is soooooo. . . . school, different images of school will come to the forefront depending on our unique experiences while in the place we call school.

These images will alter as we again as your generation of -- maybe this one or perhaps

School, for the most students with course offering not thought about in public berland County High School have thought about classes in school level "back in the day"? tional experiences you too will ing opportunities available to today.

However, the basic same. It will still be a place for

look back in a few years and then children enter the doors of school another

part, is a great experience for opportunities to learn in arenas school when the doors of Cumwere opened in 1962. Who would aviation or forensics at the high As your children begin their educabe amazed at the new and excitthem which are uet unthought-of

tenets of school will remain the teaching children and to educate a

new generation of children in new and exciting ways, therein the action part of the word school.

As a school, our job is and will continue to be to teach skills that will allow you to step into your next phase of life and help you to make personal and professional decisions that will impact you and those in your circle of influence. Our hope is that you might be able to say we have done our job well and that you are ready for another "school" experience of some fashion.

School is about relationships, team building, learning, respect and how to deal with some of the curves thrown our way. These skills will continue to be a part of life no matter if your next "school" experience is the school of life or another tupe of formal school.

Focus on your dreams and think big. Remember your school days with fondness and join us as Jet Alumni and always-always carry your "JET PRIDE" with dignity and honor along with those who traveled this path before you and for those yet to come.

Sincerely, Janet C. Graham

The 2009 volume 46 edition of the Plateau was published by the yearbook publication class of Cumberland County High School. The Plateau was printed by Jostens Publishing in Clarksville, Tennessee. The 224 page full-color book. including candid photos, was submitted digitally for a press run of 550. The book sold for \$75.00. Ads were sold by the staff and ranged from \$75.00 to \$300.00 for Senior ads and \$75.00 to \$400.00 for business ads. All pages were produced using Adobe Photoshop CS3 and InDesign CS3.

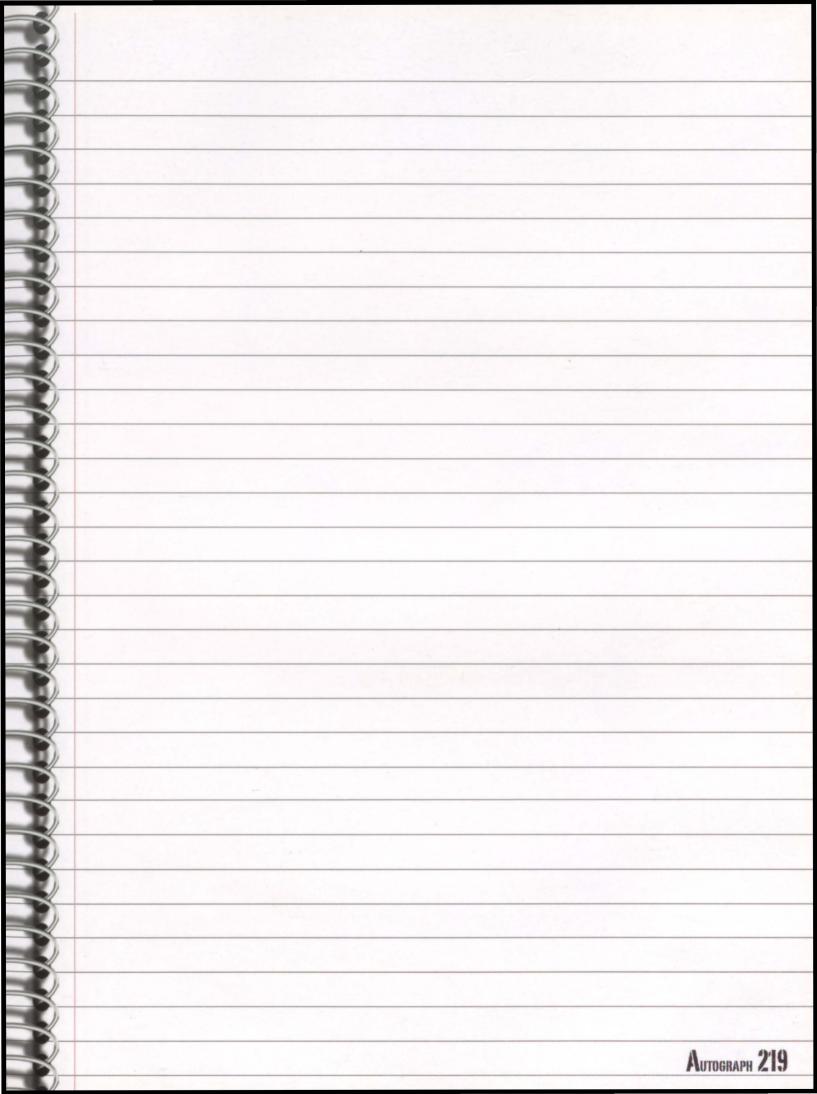

The Plateau sales representatives were Harold McGehee and Jason McGehee, account executive was Anissa Coleman, and Creative Accounts Manager Laura Schaub. Senior, underclassmen, faculty, and group photos were taken by Prestige/Lifetouch Studios at no charge.

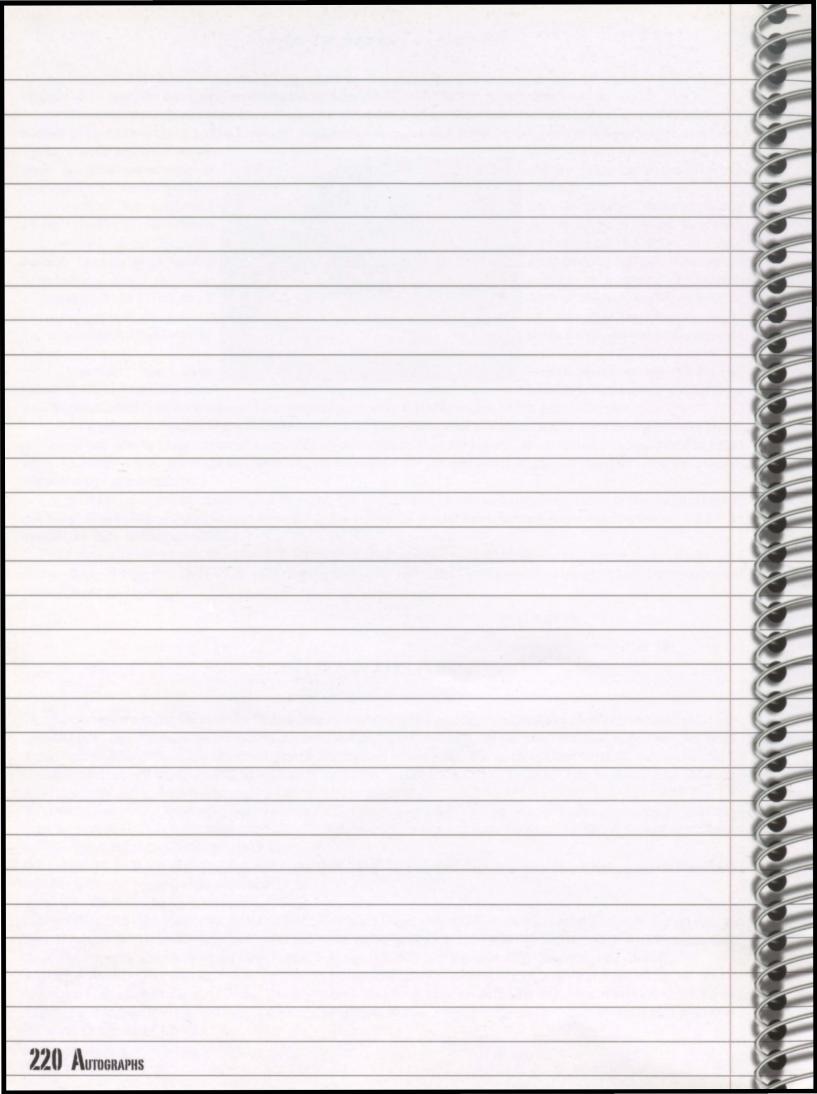

We would like to thank Mrs. Graham, and the entire CCHS faculty and staff for the support they gave us. Pat Koehl, and Maria Server for all the donations of pictures.
