POSITIVE THINKING

Luck vs. Wisdom

Luck is defined as the unpredictable occurrence of favorable events (good luck) or unfavorable events (bad luck). While it can lead to unexpected positive outcomes, luck is not something you can control or cultivate like wisdom. Some argue

that while luck might create opportunities, it's the wisdom and skill of an individual that determines how they capitalize on those opportunities.

Wisdom is about acquiring knowledge, experience and understanding to make sound decisions. It's an ability to discern inner qualities and relationships, offering insight and good judgement. Wisdom can help individuals navigate challenges and make choices that bring long term satisfaction. The harder and smarter you work, the luckier you get.

SPORTS ACTION

Boys Lacrosse

Looking for a spring sport? It's not too late to join the boys lacrosse team. If you play football, soccer, ice hockey, or wrestling, you already have skill sets and knowledge that will transfer to lacrosse.

No equipment? No problem! A brand new helmet is provided and equipment can be rented through Midland Lacrosse for a \$20 fee.

According to the National Lacrosse League, "The last two decades have seen an explosion in the popularity of lacrosse around the world." Come participate and see for yourself why this fast-paced sport is growing in popularity .
