

2nd Grade Newsletter

The Week of October 26th, 2026

Upcoming Dates

10/28 & 10/29 ~ Parent/Teacher Conferences
10/29 ~ Fall Celebration – wear purple and/or **black**!
10/30 ~ No School: Teachers In-Service
11/2 ~ Expect report cards in folders
11/9~ Late Start Monday

A Note To You

Hello Families,
I am looking forward to seeing you this week to discuss your student's experience in second grade! Parent-teacher conference confirmation forms are in folders again today.
This Thursday, we will be celebrating Halloween by having a fall party. Our class is dressing in purple and black to celebrate. Then, in the afternoon we will be playing games, crafting, and celebrating as a class. It will surely be lots of fun! Thank you for signing up to supply snacks!
Mrs. Summerfield

Practice At Home

- UFLI at home practice will guide you through the spelling pattern we are learning in class. We are reviewing some of the tricker patterns we've learned so far this week. Practice reading the passage on the UFLI page to build grade-level reading fluency.
- Math Practice Sheet
- Practice breaking words apart into syllables to read and them syllable-by-syllable.

This Week's Agenda

Spelling: Vowel-R Pattern Review AND Review of tch & dge
AR: has a unique sound that you can hear to spell, like in 'farm'
OR & ORE: have a unique sound that you can hear to spell, like in 'corn'. ORE
ER, IR, UR: There is not a rule to help us decide whether to use 'er', 'ir', or 'ur'. They can all go anywhere in a word.
DGE follows a short vowel sound, while GE is used any other time at the end of a word.
TCH follows a short vowel sound, while CH is used any other time at the end of a word.
Reading: We will finish up our learning about schools around the world this week. We will complete our writing tasks and engage in a reader's theater that covers what we've learned.
Math: We will wrap up what we've learned about pennies, dimes, and dollars and how they relate to hundreds, tens, and ones. We will discuss how the place value helps us to add and/or subtract numbers with two or even three digits.
