A Note from the Principal

On behalf of the administrators, faculty, and staff, we would like to welcome you and look forward to serving you and your child during the 2023-2024 school year.

Throughout the year, there will be opportunities to strengthen the connection between home and school. We have several activities scheduled that will allow us to enhance learning and grow together as a learning community.

To provide ALL students with quality instruction, the administrators, teachers, and staff have committed to creating a culture of collective responsibility in the following areas:

- Creating a safe and positive learning environment by re-teaching, refining, and enforcing components of our Positive Behavioral Intervention System (PBIS)
- Analyzing assessments and using the results to determine next steps for small groups
- Providing meaningful activities to meet the individual needs of students

A Look Ahead
