

To: Board of Directors

From: Mark Bergthold, Bond Project Manager

Subject: Bond Activity Report as of May 15, 2023

Work continues on updating pricing for the projects scheduled for this coming summer. Two paving bids have been received, both were missing several items which the contractors have been asked to submit.

The installation of lighting and sound equipment is completed in the Donavon Wooley Arts Center and were used in last weekend's drama presentation of CLUE. Luminescent strips have been placed at the nose of each center step to prevent trips and falls.

The new kitchen appliances have been ordered – a dishwasher, a convection oven, a combi oven, a commercial refrigerator, and two stainless steel work tables. The dishwasher vent hood was raised 8.5" during spring break so the new dishwasher will fit. The original kitchen equipment that is being removed will be sold at a district auction.

Work on this summer's projects is scheduled to begin Monday June 19th.

Respectfully submitted,

Mark Bergthold

Bond Project Manager
