

# QUESTIONS TO ASK YOUR CHILD ON HOW TO IMPROVE THEIR GRADE

With the changes in grading in some classes, parents are finding that some of the questions they used to ask their children are no longer effective questions with Standards Based Grading (Competency Based Education). Here are some examples of questions you can ask your child to elicit more information!

## INSTEAD OF:

- Did you get your homework done?
- Can you get extra credit?
- What can you do to raise your grade?
- Why did you miss points on your homework assignment?

## TRY THESE!

- What is the standard you are practicing tonight?
- When is your next opportunity to reassess?
- What standards do you still need to practice (and then reassess)?
- What practice or reteaching opportunities do you need to do to prepare for the next assessment?
