

School Year Asbestos Notification

As a result of federal legislation (Asbestos Hazard Emergency Response Act - AHERA), each primary and secondary school in the nation is required to complete a stringent inspection for asbestos and to develop a plan of management for all asbestos-containing building materials. The Warren-Alvarado-Oslo District has a goal to be in full compliance with this law and is following the spirit, as well as the letter of the law. As a matter of policy, the district shall continue to maintain a safe and healthful environment for our community's youth and employees.

In keeping with this legislation, all buildings (including portables and support buildings) owned or leased by the District were inspected by EPA accredited inspectors and samples were analyzed by an independent laboratory. Based on the inspection, the school prepared, and the state approved, a comprehensive management plan for handling the asbestos located within its buildings safely and responsibly.

Furthermore, the Warren-Alvarado-Oslo School District has completed its 3-year re-inspection required by AHERA. Our district buildings, where asbestos-containing materials were found, are under repair, removal, and Operations and Maintenance.

The Warren-Alvarado-Oslo School District has a list of the location(s), type(s), of asbestos containing materials found in and a description and how it was managed. Questions related to the plan should be directed to the Northwest Service Cooperative, 218/681-0895, or by contacting the Warren-Alvarado-Oslo School District.
