School Records

Your school records are an important part of your educational experience, and their security is a priority. You and your parents/guardians have the following rights concerning your records:

1. Access to Records: You and your parents/guardians have the right to know the contents of your school records.
2. Privacy of Records: You and your parents/guardians have the right to know who has access to your records and the reasons for that access.
3. Disclosure of Records: Your records will not be disclosed to individuals outside the school without your knowledge and permission, or that of your parents/guardians, except as required by a court order.

We are committed to maintaining the confidentiality and security of your educational records.

JCC High School is a Closed Campus. Students must remain on school premises from their arrival at the start of the school day until dismissal at the end of the school day, including the noon period. No student may leave without authorization from the principal or a designee. Additionally, students are not permitted to be in their cars during the school day. Violations of this policy will be treated as unexcused absences and subject to the school's discipline policy.

Family Rights and Privacy Act

The Family Education Rights and Privacy Act requires school districts to notify parents/guardians and students that certain information from student records will be released and made public without the written consent of the parents or students 18 years of age or older. This information is called "directory information." **Directory information includes Name, address,**

telephone, date, and place of birth, major field of study, participation in officially organized activities and sports, weight, height of athletic team members, dates of attendance, degrees, and awards received, previous school attended, and photos for school-approved publications, newspapers or district website. These publications could include district-initiated publications such as calendars, newsletters, annual reports, and brochures. They also include school-initiated publications such as student newspapers and yearbooks. In addition, media including weekly community newspaper, may ask to take photos of district students. Parents of a minor student of majority age who do not want directory information released must notify the district in writing by September 15. They must specify which types of directory information they do not want released.

Fire Drills/Tornado Drills/Active Shooter Drills

State of Minnesota regulations mandate fire drills, tornado drills, and Mock lockdowns during the school year.

1. Fire drills will occur periodically throughout the year, primarily in good weather. The initial fire drill will be pre-announced in the fall, giving teachers adequate time to inform students of procedures, routes, etc. Students are required to leave the building with their class or study hall. Any person turning on a false fire alarm will be subject to prosecution by the State Fire Marshal, as well as subject to disciplinary action in accordance with the school discipline policy.
2. Tornado Drills will be held in the spring of the year. All students and staff are to report to the lower-level storage area on the west end of the commons area.
3. Mock Intruder Drills will be performed at least five (5) times a school year.

Immunization Requirements

All students must provide proof of immunization or appropriate exemption documentation to enroll. This ensures the student is free from communicable diseases.

No student can enroll or remain enrolled without submitting the required proof of immunization to the designated school district administrator. Before attending school, the student or their parent/guardian must provide one of the following:

1. A statement from a physician or public clinic confirming the student received the required immunizations.
2. A statement from a physician or public clinic confirming the student received the primary schedule of remaining required immunizations, with the month and year of each immunization.

Over the Counter Medications

Students who bring over-the-counter medications must have a signed parent consent form and a signed student agreement form on file in the nurse's office. This agreement stipulates that students will carry medication in its original bottle, refrain from sharing it, and inform the office if their condition worsens. Further details are outlined in School Board Policy #516.

Student Lockers

School lockers are the property of the school district, and the school retains exclusive control over them for the convenience of students. School authorities reserve the right to inspect locker interiors at any time and for any reason, without notice, consent, or a search warrant. However, the personal possessions of students within lockers may only be searched if there is a reasonable suspicion of a law or school rule violation.

Following the search of a student's personal possessions, the school authorities must promptly notify the students whose lockers were searched, unless disclosure would hinder an ongoing investigation. Additionally, throughout the school year, a canine unit may be utilized to search school property, including lockers, storage areas, and parking lots, without prior notification.

Lost or Destroyed Books/Materials

An amendment to Minnesota Statutes §120.101 stipulates that schools have the authority to impose charges for lost or damaged textbooks, workbooks, or library books. To enact this, the school must annually inform students and parents or guardians of the policy regarding these fees. The notice shall state: "The school will charge an appropriate replacement fee for textbooks, workbooks, or library books lost or destroyed by students."

Furthermore, students are obligated to cover replacement costs for any school property they lose or damage.

Visitors

All visitors are to report directly to the High School Office upon entering the school. Students who want to have a friend come to school with them must get permission from the Principal **at least one week before** the friend may visit. You may not bring a visitor the week before a break or during the last week of school.

Electronic Devices/Cell Phones

Students are permitted to use electronic devices before school, between classes, during lunch, and after school. However, during class time, all students are required to surrender their phones to a designated area. If a violation of this policy is observed by a teacher, the device will be confiscated and taken to the office.

1. In such cases, a parent, guardian, or designated adult (non-school-aged) must retrieve the phone.
2. It is the responsibility of each student to ensure that their device is fully charged before coming to class. For detailed information on our policy, please refer to the following link: [Policy Document](#)
3. The school assumes no liability for the loss or damage of electronic devices brought to school.
4. Electronic devices equipped with picture/camera capabilities are strictly prohibited in locker rooms.

Prom

The following rules apply and regard to who may attend prom:

1. Students that are in 9th grade and younger may not attend
2. 10th-grade students may attend if they are asked by a Junior or Senior
3. Prom guests must be a minimum of a 10th grader in high school and no older than the age of 20. Verification of age for out-of-town guests is required.
4. Out-of-school guests must complete the JCC High School Prom guest registration process prior to the dance.

Expectations for Learning

At Jackson County Central High School, we are committed to high-quality course content and student progress. We believe all students should experience a rigorous program that challenges them and prepares them for college and career readiness. Our goal is for every student to graduate ready to enter postsecondary education or the workforce without needing remediation. As students progress through high school, they encounter grading standards that align with postsecondary and career expectations, helping them develop a strong understanding of what is required for success.

We aim to prepare students for college and career success by fostering critical thinking, argument development, problem-solving, and deep comprehension. This involves moving at a faster pace, being self-reliant, and knowing when and where to seek help. Our teachers design their grading schemes to reflect these expectations, including the value and weight of assessments, daily work, participation, project timelines, and presentations. They also establish criteria for accepting late or incomplete assignments.

Classroom expectations and grading are determined by each teacher and outlined in the course syllabus provided at the beginning of the term. This ensures students understand what is required to succeed and how they will be evaluated throughout the course.

Graduation Requirements

1. The credits for graduation will be prorated as follows:

Credits And Grade Point Average (G.P.A.)

1. Credits at Jackson County Central Senior High School are counted toward graduation and grade point average (G.P.A.) toward class rank. The G.P.A., for honor roll purposes, is figured as follows:

A	4.000	C	2.000
A-	3.667	C-	1.667
B+	3.333	D+	1.333
B	3.000	D	1.00
B-	2.667	D-	.667
C+	2.333	F and all other grades	- 0

2. All students who take PSEO classes along with high school classes have an obligation to their high school classes first.

Honor Roll

Following the end of each semester, the A and B honor rolls will be published in the Jackson County Pilot and the Lakefield Standard.

1. A student needs a 3.00 Semester GPA to make the “B” Honor Roll and a 3.70 Semester GPA to make the “A” Honor Roll.
2. No students receiving a grade of **D or F** will be allowed on the honor roll.
3. College-level courses taken through PSEO apply towards the high school honor roll and cumulative GPA.
4. Class rank is determined by the cumulative GPA which is every grade earned during high school.
5. A student’s cumulative GPA determines whether or not a student will be considered an Honor Student during commencement exercises.
6. Honor student class rank determination will be made following the final quarter/semester of grade 12.

Drop/Add Course

1. Students may request to drop or add a course during the first two days of the quarter only.
2. Not all requests will be granted due to class size and availability.
3. After the first two days of a quarter, schedules are locked.

Incompletes and Failures

Incompletes:

1. **All incompletes must be made up within two weeks** following the end of the marking period. In cases of emergency, illness, or other legitimate reasons, additional time may be allotted by the teacher.
2. If a student does not make up the incomplete during the allotted time they will earn an “F” unless the teacher chooses to issue a grade other than an “F”.
3. Incomplete grades, when changed to a final grade, will affect a student's GPA and eligibility.

Failures:

1. Any student who fails a quarter/semester or year-long required class must make up the class as soon as possible. Under normal circumstances, the student will retake the class.
2. When students fail a class they are required to schedule an appointment with the school counselor immediately. A credit recovery plan must be developed to keep them on track for graduation in four years.

Attendance

In accordance with the MN Department of Education and the Minnesota Compulsory Instruction Law, Minn. Stat. §120A.22, the students of the school district are REQUIRED to attend all assigned classes and/or study halls every day school is in session.

Purpose

1. The JCC school board believes that regular school attendance is directly related to academic success, benefits students socially, provides opportunities for important communication between teachers and students, and establishes regular habits of dependability crucial to the student’s future.

Socializing or sleeping is not permitted. Failure to complete detention will be considered insubordination and may lead to further consequences. Failure to meet detention obligations will result in a suspension.

When corrective action taken by a teacher fails or if the rule infraction is serious, the incident will be referred to the principal for investigation and action. The severity of consequences applied by the principal depends on the student's previous disciplinary record and the seriousness of the offense. A conference may be held, and a behavior contract may be implemented. Disciplinary actions, with possible parent notification, may include one or more of the following:

We expect all students to practice good grooming habits, reflecting personal pride and responsibility. We ask that all students present themselves in a manner that is suitable for the school environment during school hours. By adhering to these guidelines, students contribute to a positive and respectful school atmosphere and develop habits that reflect good citizenship and personal responsibility. Ineligibility will not carry over from one academic year to the next. (This applies to activities or events not already under the jurisdiction of the MSHSL)

Removal Of Students From Class

1. Teachers have the responsibility of attempting to modify disruptive student behavior. When interventions fail or when the teacher determines it is appropriate, the teacher shall have the authority to remove the student from class.

Food Service

The JCC School District operates a closed campus, including lunch, meaning students must stay on school premises throughout the school day. Food served at school must come from licensed sources per State Department of Health regulations. Parents may deliver restaurant or home-prepared lunches for their children only; direct restaurant deliveries to students are not allowed.

The Food Service Program is computerized, and students are encouraged to maintain a positive balance. A negative balance is allowed for up to three days, and all payments will first cover any negative balances. To check your account balance, call the office or use the Online Parent Access on our school web page. If you face difficulties with payment, please contact the school for assistance. (School Board adopted on April 25, 2016)

Menus

Jackson County Central Schools participate annually in the National School Breakfast and School Lunch Programs. These programs make available a nutritious breakfast and lunch meal daily for a reasonable cost.

- One half-pint of milk is included with every meal. Individual milk purchases do not fall under the free and reduced meal benefits. Students who bring lunch from home or want an additional milk may purchase it for \$.50 per carton.
- If students bring food or beverages from home, we encourage all families to select nutritious choices.
- Menus are planned using the USDA Menu Planning guidelines. Menus will be posted on the district website at <https://jccschools.schoolinsites.com/foodservice>.
- The “offer vs. serve” federal regulation allows students to choose from 5 required food components for lunch.
 - They may select 3, 4, or 5 items, but must include a full serving of fruit or vegetable.
 - For breakfast, students are offered 4 components and must choose at least 3.

 - Students are encouraged to take all offered items for a balanced meal at the best price.
- The Child Nutrition Department can accommodate dietary restrictions due to allergies or intolerances with proper medical documentation. Suitable alternatives will be provided when possible. For lactose intolerance, a lactose-reduced milk product will be provided at no extra charge with a complete meal upon written request from a parent/guardian or physician. Forms for allergies and special dietary needs are available from the District School Nurse. For questions, please contact the District School Nurse or the Child Nutrition Director.

Staff Meals, Adult Meals, Visitor Meals, and Second Meals

Parents/Guardians and other family members may eat with students during their meal time. All visitors are required to sign in at the school office. Staff meals, adult meals, visitor meals and second student meals are priced higher because the Child Nutrition Department does not receive any federal or state reimbursement for those meals, as we do for a student’s first meal. Meals are to be prepaid.

MSHSL Policies

Controlled Substances

Philosophy and Purpose

The Minnesota State High School League recognizes that the use of controlled substances and psychoactive chemicals presents a significant health problem for adolescents, negatively impacting behavior, learning, and overall development. The misuse and abuse of these substances can hinder extracurricular participation and skill development, affecting not only the individuals involved but also their families, team members, and other significant persons in their lives.

This policy applies throughout the entire calendar year. It is not a violation for a student to possess a controlled substance specifically prescribed for their own use by a doctor.

Prohibited Conduct

During the school year, regardless of the quantity, students shall not:

- Possess or use alcohol.
- Possess or use tobacco.
- Use, possess, buy, sell, or give away any other controlled substance.

Penalties for Athletic Activities

Accumulative Penalties:

- Penalties are accumulative, starting from the student's first participation in a League activity and continuing throughout their high school career.

BYLAW 206.00 GOOD STANDING AND GENERAL ELIGIBILITY REQUIREMENTS

Cross Reference: Fair Hearing Procedure 1.B.4

Good Standing

1. In order to be eligible for regular season and League tournament competition a student must be in good standing.
2. Definition: The term "Good Standing" shall mean that the student is eligible under all the conditions and eligibility requirements of that school as well as the eligibility requirements of the Minnesota State High School League.

Student Code of Responsibilities

Participation in interscholastic activities is a privilege that is accompanied by responsibility. As a student participating in League-sponsored activities, I understand and accept the following responsibilities:

1. I will respect the rights and beliefs of others and will treat others with courtesy and consideration.
2. I will be fully responsible for my own actions and the consequences of my actions.
3. I will respect the rights and property of others.
4. I will respect and obey the rules of my school and the laws of my community, state, and country.
5. I will show respect to those who are responsible for enforcing the rules of my school and the laws of my community, state, and country.

Penalty

A student who is dismissed from school or who violates the Student Code of Responsibilities is not in good standing and is ineligible for a period of time as determined by the school principal acting on the authority of the local board of education. The League specifically recognizes that certain conduct requires penalties that may exceed those penalties typically imposed for first violations. For example, when a student is suspended from school the student is not in good standing and cannot begin to serve the participation penalty until the student has completed the suspension from school and is returned to good standing.

Academic Code for Students Involved in Extracurricular Activities

The activities programs at JCC High School are designed to supplement classroom offerings, encouraging students to participate in sports, fine arts, or music to develop skills in areas of special interest. The staff, administration, and school

board believe that students must maintain certain academic standards to participate in these activities. Success in the classroom is essential for the full benefit of these programs.

These activities are privileges provided by the school district, not required by law. Students often represent the school in various competitions, which require special benefits and responsibilities, fostering a relationship of trust between the student and the school. Therefore, JCC High School places eligibility requirements on participation in extracurricular activities.

Starting the first week of school, progress reports will be run every two weeks on Wednesday.

1. Students failing a class will be placed on academic probation.
2. Following two weeks of academic probation, if the student is still failing one or more classes:
 - a. They will be assigned to after-school Academic Skills Class from 3:20 pm until 3:45 pm on Mondays, Tuesdays, and Thursdays until they are off academic probation.
 - b. If the student skips Academic Skills Class they will be ineligible for one event per unexcused absence.
 - c. At the next grade check, the student will be off of Academic Probation by passing all classes or will continue Academic Skills Class for the next two weeks.
3. Students passing all classes at the next grade check will be released from the Academic Skills Class.
4. Students failing one or more quarter or semester classes will be ineligible for two events.
5. Any student who fails a course at the end of the fourth quarter/second semester will be ineligible for two of the remaining spring events, or two events in the fall. Eligibility penalties from Fourth quarter will carry over to the following fall activities.

Participation in Extracurricular Activities.

This policy applies to all students involved in any extracurricular activity scheduled either during or outside the school day.

1. A student may not participate in any activity or program if he or she has an unexcused absence from any class during the day.
2. If a student is out of school suspended, he/she may not participate in a program or activity.
3. If a student is absent from school due to medical reasons, other than illness, he or she must present a physician's note. The note must be presented to the school office before the student participates in the activity or program.
4. In order for a student to participate in practice, game, or activity they must attend from 10:00 am to the end of the day. Exceptions may be granted by the Activities Director.
5. Students returning from late games and activities are expected to be in school the following day.
6. School-initiated absences will be accepted and participation in practice and contests will be permitted.

Appeal Process

Any student, who feels that there are mitigating circumstances that contributed to his/her ineligibility, is asked to write a letter to the principal asking for a hearing. The principal and another Administrative Team Member will determine whether the appeal is warranted. If an appeal hearing is scheduled, the participants will be:

1. The student.
2. A representative for the student - may be any individual chosen by the student.
3. The principal.
4. A member of the Administrative Team that was not involved in the original investigation.
5. One other in-season coach or advisor is chosen on a rotating basis. A list of coaches and advisors will be kept in the principal's office. Advisors are defined as the individual that is the supervisor for a particular activity, i.e.: math league, FFA, student council, etc.
6. Athletic Director and current classroom teachers.

PALMER SCHOOL BUS DISCIPLINE POLICY

Students are expected to be responsible for their behavior on the bus. Misbehavior could result in the bus driver being distracted, and the safe operation of the vehicle in jeopardy. Such distractions could endanger the lives of all students being transported. Therefore, behavior infractions must be reported and disciplinary action will be taken in accordance with these guidelines. It is the parent's responsibility to explain the importance of proper behavior on the bus. They are also expected to support disciplinary actions that are necessary to help their child change his/her behavior. The primary responsibility of the driver is to safely transport students to and from school. While transporting students, the driver also has the responsibility of maintaining discipline on the bus. Therefore, the driver will report behavior infractions to the proper authority on the forms provided. Examples of these behaviors are; throwing objects out of the bus, lighting matches or lighters, assault, harassment, failure to remain seated, disobedience to the driver, littering, throwing objects on the bus, unacceptable language, vandalism, excessive mischief, fighting, and smoking.

Dangerous Behavior Clause

If a student performs an act that obviously jeopardizes the safe operation of the bus, or endangers the safety of others, the driver may suspend the student from riding the bus. Fighting, vandalism, and possession of a weapon will result in immediate suspension. An official at Palmer Bus Service or District Bus Supervisor will attempt to notify the parent/guardian, and the appropriate school administrator of this action. Riding privileges cannot be reinstated until a conference is held with Palmer Bus Service, the student, the school administration, and the parent/guardian. The above behaviors will not be permitted on the bus. Questions? (507) 849-7117

514 – Bullying Prohibition Policy

I. PURPOSE

A safe and civil environment is needed for students to learn and attain high academic standards and to promote healthy human relationships. Bullying, like other violent or disruptive behavior, is conduct that interferes with a student's ability to learn and/or a teacher's ability to educate students in a safe environment. The school district cannot monitor the activities of students at all times and eliminate all incidents of bullying between students, particularly when students are not under the direct supervision of school personnel. However, to the extent such conduct affects the educational environment of the school district and the rights and welfare of its students and is within the control of the school district in its normal operations, the school district intends to prevent bullying and to take action to investigate, respond to, and to remediate and discipline for those acts of bullying which have not been successfully prevented. The purpose of this policy is to assist the school district in its goal of preventing and responding to acts of bullying, intimidation, violence, reprisal, retaliation, and other similar disruptive and detrimental behavior.

II. GENERAL STATEMENT OF POLICY

- A. An act of bullying, by either an individual student or a group of students, is expressly prohibited on school premises, on school district property, at school functions or activities, or on school transportation. This policy applies not only to students who directly engage in an act of bullying but also to students who, by their indirect behavior, condone or support another student's act of bullying. This policy also applies to any student whose conduct at any time or in any place constitutes bullying or other prohibited conduct that interferes with or obstructs the mission or operations of the school district or the safety or welfare of the student or other students, or materially and substantially interferes with a student's educational opportunities or performance or ability to participate in school functions or activities or receive school benefits, services, or privileges. This policy also applies to an act of cyberbullying regardless of whether such an act is committed on or off school district property and/or with or without the use of school district resources.

- C. Apparent permission or consent by a student being bullied does not lessen or negate the prohibitions contained in this policy.
- D. Retaliation against a victim, good faith reporter, or a witness of bullying is prohibited.
- E. False accusations or reports of bullying against another student are prohibited.
- F. A person who engages in an act of bullying, reprisal, retaliation, or false reporting of bullying or permits, condones, or tolerates bullying shall be subject to discipline or other remedial responses for that act in accordance with the school district's policies and procedures, including the school district's discipline policy (See MSBA/MASA Model Policy 506). The school district may take into account the following factors:
 - a. The developmental ages and maturity levels of the parties involved;
 - b. The levels of harm, surrounding circumstances, and nature of the behavior;
 - c. Past incidences or past or continuing patterns of behavior;

- d. The relationship between the parties involved; and
- e. The context in which the alleged incidents occurred.

Consequences for students who commit prohibited acts of bullying may range from remedial responses or positive behavioral interventions up to and including suspension and/or expulsion. The school district shall employ research-based developmentally appropriate best practices that include preventative and remedial measures and effective discipline for deterring violations of this policy, apply throughout the school district, and foster student, parent, and community participation.

Consequences for employees who permit, condone, or tolerate bullying or engage in an act of reprisal or intentional false reporting of bullying may result in disciplinary action up to and including termination or discharge.

Jackson County Central Schools

Inspiring Excellence

Jackson County Central utilizes the following local assessments and student surveys to guide decisions regarding curriculum and instruction. To decline participation in any of these local assessments or surveys, parents/guardians must fill out and return this form to the student's school office.

Please indicate the local assessment(s)/survey(s) you are opting the student out of this school year:

☐ **Student Surveys (grades 3-12)**

The district uses student surveys to learn more about students' thoughts, feelings, and attitudes. Student answers are anonymous (we will not know how individual students respond). District and School staff use the data collected to better understand how to support our students. Parents receive prior notice of all surveys, including how to locate and preview items/questions that will appear on that specific survey.

☐ **FAST: earlyReading (grades PK-1) and earlyMath (grade PK-1)**

earlyReading and earlyMath assessments are administered for the purpose of screening student advancement in foundational reading and math concepts. The outcomes guide instructional strategies at the classroom level and pinpoint areas of concern for individual students. This evaluation is administered one-on-one to students and requires 5 to 10 minutes per session.

☐ **FAST: aReading and aMath (grades 2-5)**

aReading and aMath are designed for screening to identify students at risk for academic delays and to inform differentiated instruction for students at all achievement levels. These are computer-adaptive measures of reading and mathematical skills that are individualized for each student. These assessments are delivered in a group format in about 30 minutes each.

☐ **FAST: CBMreading (grades 1-3)**

CBMreading is administered individually as a teacher listens to and assesses a student's oral reading fluency, considering factors such as accuracy, types of errors, and qualitative measures. This evaluation provides insights into student responsiveness to ongoing instruction, signals when instructional adjustments are warranted, and helps gauge the effectiveness of implemented changes. Each administration requires 1 minute of reading per student.

☐ **FAST: AutoReading and AutoMath (grades 4-5)**

AutoReading and AutoMath are designed for screening to identify students who may need additional support in foundational reading and/or Math skills and to inform differentiated instruction for students at all achievement levels. This is computer-administered in a group format in about 8 minutes each.

☐ **iReady Reading and Math Diagnostic (grades 6-11)**

iReady diagnostic assessments provide teachers with a complete picture of student performance in reading and math, giving teachers the information they need to understand current strengths and instructional priorities. Each assessment takes between 60 and 90 minutes to complete.

☐ **ASVAB (offered one time in grade 11)**

The ASVAB is a timed multi-aptitude test and career interest inventory. Scores count towards the Armed Forces Qualifying Test (AFQT) and determine qualification for certain military occupational specialties and enlistment bonuses. In addition, each student's career exploration score will help him/her determine their readiness for further education and training in different career areas. This assessment is administered in approximately 3 hours.

☐ **ACT (offered one time in grade 11 or 12)**

The ACT test scores reflect what students have learned throughout high school and provide colleges and universities with excellent information for scholarships, recruiting, advising, and placement.. This assessment is administered in approximately 3 hours and 35 minutes.

Statewide Assessments:

Parent/Guardian Participation Guide and Refusal Information

Your student's participation in statewide assessments is important as it allows your school and district to ensure all students have access to a high-quality education. In the past, students with disabilities and English learners were often excluded from statewide assessments. By requiring that all students take statewide assessments, schools and teachers have more information to see how all students are doing. This helps schools to continuously improve the education they provide and to identify groups, grades, or subjects that may need additional support.

Assessments Connect to Standards

Statewide assessments are based on the [Minnesota Academic Standards](#) or the [WIDA English Language Development Standards](#). These standards define the knowledge and skills students should be learning in K–12 public and charter schools. Minnesota prioritizes high-quality education, and statewide assessments gives educators and leaders an opportunity to evaluate student and school success.

Minnesota Comprehensive Assessments (MCA) and Minnesota Test of Academic Skills (MTAS)

MCA and MTAS are the annual assessments in reading, mathematics and science that measure a snapshot of student learning of the Minnesota K–12 Academic Standards.

ACCESS and Alternate ACCESS for English Learners

The ACCESS and Alternate ACCESS are the annual assessments for English learners that provide information about their progress in learning academic English based on the WIDA English Language Development Standards.

Statewide Assessments Help Families and Students

Participating in statewide assessments helps families see a snapshot of their student's learning so they can advocate for their success in school. High school students can use MCA results:

- For course placement at a Minnesota State college or university. If students receive a college-ready score, they may not need to take a remedial, noncredit course for that subject.
- For Postsecondary Enrollment Options (PSEO) and College in the Schools programs.

English learners who take the ACCESS or Alternate ACCESS and meet certain requirements have the opportunity to exit from English learner programs.

Taking Statewide Assessments Helps Your Student's School

Statewide assessments provide information to your school and district about how all students are engaging with the content they learn in school. This information helps:

- Educators evaluate their instructional materials.
- Schools and districts identify inequities between groups, explore root causes and implement supports.
- School and district leaders make decisions about how to use money and resources to support all students.

Student Participation in Statewide Assessments

Student participation in state and locally required assessments is a parent/guardian choice. If you choose to have your student not participate in a statewide assessment, please provide a reason for your decision on the form. Contact your student's school to learn more about locally required assessments.

Consequences of Not Participating in Statewide Assessments

- The student will not receive an individual score. For ACCESS and Alternate ACCESS, the student would not have the opportunity to exit their English learner program.
- School and district assessment results will be incomplete, making it more difficult to have an accurate picture of student learning.
- Since all eligible students are included in some calculations even when they do not participate, school and district accountability results are impacted. This may affect the school's ability to be identified for support or recognized for success.

Check with your local school or district to see if there are any other consequences for not participating.

Additional Information

- On average, students spend less than 1 percent of instructional time taking statewide assessments each year.
- Minnesota statutes limit the total amount of time students can spend taking other district- or school-wide assessments to 11 hours or less each school year, depending on the grade.
- School districts and charter schools are required to publish an assessment calendar on their website by the beginning of each school year. Refer to your district or charter school's website for more information on assessments.

(Note: This form is only applicable for the 20____ to 20____ school year.)

By completing this form, you are acknowledging that your student will not participate in statewide assessments and will not receive individual assessment results. This form must be returned to your student's school before the applicable test administration.
