Attachment Summary	29

Instructions

Title I Schoolwide schools, must complete all of the following sections of this ACIP diagnostic:

- **Title I Schoolwide Diagnostic**
- **ACIP Assurances**
- **Parent and Family Engagement Diagnostic**
- **Coordination of Resources - Comprehensive Budget Diagnostic**
- **eProve™ strategies - Goals & Plans**

Parent Surveys must be done annually, but it can be done electronically in eProve or by paper.

2022-23 Title I Schoolwide Diagnostic for ACIP

Component 1: Comprehensive Needs Assessment (Sec. 1114(b)(6))

1. How was the comprehensive needs assessment conducted?

In the Spring and Summer of 2022, teachers, students and parents of Pine Level Elementary

School (PLES) were asked to consider areas of need to address during the 2021-2022 school year. Surveys were completed by all three stakeholder groups. During the summer of 2022, faculty and staff also completed a Program Evaluation and a Needs Assessment Survey identifying academic and professional needs to be addressed during the 2022-2023 school year. Throughout the 2021-2022 school year, faculty and staff met monthly (data meetings, faculty meetings, PST/RTI meetings

and in-service sessions) to discuss individual students who were and were not meeting proficiency levels and to identify barriers to success that existed at PLES. Attendance and behavior were also addressed at these meetings. Data gathered from PowerSchool, ACAP, Scott Foresman Reading, Pearson Math, Scantron Assessments, STAR Reading/Math, and teacher-made evaluations provided evidence to support the identified

areas of strengths and weaknesses. Administrators and Reading Specialist led data meetings in which

assessment scores were analyzed. Instructional changes were made as a result of this analysis. New early reading and math assessments as well as a new reading curriculum, Open Court Reading (OCR), are being utilized to effectively measure the desired learning outcomes. The Title I Committee,

comprised of administrators, teachers, parents and community representatives met in August 2022 to evaluate the 2021-2022 aCIP and to identify needs for the upcoming school year. Data for student groups performing at or above proficiency has been evaluated and strengths noted. Data for subgroups that perform poorly has been identified, evaluated and discussed so that teachers, administrators and support staff can conduct strategic planning to improve the achievement of each group.

2. What were the results of the comprehensive needs assessment?

Multiple strands of data are analyzed to identify school-wide strengths and weaknesses and plan for success. Demographic information, such as attendance and discipline speak to the culture of the school. Academic achievement is measured through formative and summative assessments. Expectations for attendance, behavior and learning are established and goals are set. Pine Level Elementary School (PLES) implements a comprehensive student assessment system. Teachers determine short-range learning by using locally made rubrics and assessments. Journals and non-verbal assessments are also used. Teachers collaborate to analyze data and make instructional changes during planning sessions, grade level meetings and data meetings. Practices throughout PLES continually prove the effectiveness of the programs and allow the enactment of

consistent modifications when needed. Teachers and administrators collect and maintain data in PowerSchool related to student learning. Attendance and discipline data are analyzed to determine their impact on student success. Special Education, Gifted, EL, 504 teams, Counselors, Administrators, K-1 Reading Intervention teacher, 2-3 Reading Intervention teacher, 3-5 Math Intervention teacher, and our Reading Specialist also keep records to track student academic growth and needs. Teachers use item analyses from math and reading tests to determine strengths and weaknesses. School personnel relate sets of data from diverse assessment sources to ensure student learning, consistency in classrooms, quality performance across curriculum and throughout the school. Collected data from summative assessments allow comparison of student growth from year to year and across the county and state. Collections of data were analyzed to determine goals that will drive instruction. The Autauga County Board of Education and PLES personnel abide by established policies regarding data collection and analysis. The school aCIP outlines how data will be used to improve instruction, student learning, and the effectiveness of programs. Teachers are trained to evaluate, interpret, and use data. Routine instruction and the effective use of data and new assessment resources are introduced to PLES and Autauga County. During training, teachers learn how to extract, interpret, and apply usable data from test results. The needs of EL students are identified and teachers are trained on the WIDA standards. Teachers also receive training pertaining to data assessment for the benefit of special needs students. Each teacher will analyze their beginning of the year data and develop an Student Action Plan for the 2022-2023 year for their content area and grade.

Administrators, as well as teachers analyze data to confirm readiness for success at the next level. Learning programs are designed and implemented as the foundation for successive levels. PLES closely monitors regression, and remediation/ intervention is applied in a timely manner, formally through RTI (Response to Intervention), SRIPs, or informally through reteaching in the classroom. School personnel continuously appraise and revise plans and programs for school improvement to provide optimal learning for all students. Policies and plans for school improvement are documented in the Pine Level Elementary aCIP. Continuous improvement is desired and will be achieved through ongoing efforts to implement Alabama' Multi-Tiered System of Supports where meeting the needs of the whole child helps eliminate any interference to optimal instruction and learning for all students.

3. What conclusions were drawn from the results?

Student data will be collected through various assessments during August/ September 2022. New assessment measures have been put in place that are designed to effectively measure the desired learning outcomes. These data results will be collected and analyzed. Assessment scores from STAR Reading and STAR Math will be carefully analyzed to determine strengths and identify areas of focus. Specific to reading, a Student Reading Improvement Plan (SRIP) will be written for students who show a reading deficiency. The results of the Spring 2022 Needs Assessment were shared with teachers during in-service in May 2022. ACAP results were shared in September of 2022. Data results and input from stakeholders were discussed and several conclusions were drawn that will assist faculty and staff throughout the 2022-2023 school year. Standards and data will drive instruction in

all academic areas for all grade levels. Kindergarten teachers will focus on reading readiness and consistently use multi-sensory strategies and comprehension strategies that focus on the text. Emphasis on numeracy concepts and exploration of real-life math problems will help lay a strong foundation upon which first grade teachers can build. In reading, the use of novels, chapter books, and a variety of literary pieces (poems, essays, short stories) will provide quality text from which to teach concepts, skills, vocabulary and critical thinking. Teachers will utilize text-dependent questions to assist students in digging deeper into the text. Teacher modeling and explicit instruction will play a key role in developing critical thinkers. In math, all students in grades K-5 will receive STEAM instruction. Teachers will use STAR Reading and Math CBMs to strengthen basic skill fluency and increase the rigor as they provide instruction that focuses on application of math concepts. Careful analyses of student writing has highlighted the following needs: explicit instruction in the modes of narrative, expository and persuasive writing and explicit instruction in locating evidence from a text in order to make or support an argument. Teachers will model thinking and writing processes to aid students in seeing the process of writing from brainstorming through publishing. Journals/constructed responses will continue to be used across all content areas. Attendance will continue to be addressed. An Attendance Team has been developed to identify attendance issues and create plans to increase student and teacher attendance. Parents will be notified via automated system when a student is absent. Parents will receive notification for excessive absences or tardies. Parents will be held accountable for providing written excuses for student absences. A liaison from the District Attorney's office will meet with parents regarding student absences. Incentives will be used to encourage students to have good attendance. The faculty and staff will continue to implement Positive Behavior Intervention Supports to a greater degree throughout the year. Programs such as Special Snack Fridays, Honor Roll Rewards, Attendance Celebrations, Positive Behavior Rewards, and Classroom Fun Fridays focus on positive interactions between faculty and students and promote positive behavior.

4. What information was concluded as a result of analyzing perception, student achievement, school programs/process, and demographic data?

The comprehensive needs assessment that was conducted in the Spring of 2022 provided valuable insight to guide Pine Level Elementary School through the coming

academic year. All stakeholder groups concluded that the school's vision of "Always Learning . . . Always Leading" can be attained through diligence, determination and purposeful planning. Academic emphasis will be placed on reading, math and writing. In reading, faculty and staff will design lessons that will teach students to dig for deeper understanding of literary and informational texts by focusing on text-

dependent questions, key ideas and details and structure. Instructional leaders, teachers, and staff are working to understand and implement the research behind the Science of Reading. The alignment and training of systematic and explicit instructional practices in the key areas of language development, phonological awareness, phonics, vocabulary, fluency, and comprehension are being provided in an effort to ensure reading success for all students. In math, teachers will increase

the rigor by requiring students to apply mathematical concepts in order to solve real world problems using a STEAM model. Computational fluency will be addressed

through a systematic program that provides daily drill in a fun and motivating format. Writing as a process will be taught and students will be exposed to a variety of genres across all content areas. Journals/constructed response writings will be utilized across all content areas. Technology will be utilized as a vehicle to deliver quality instruction and provide meaningful practice. Differentiation of instruction occurs through small group instruction and allows teachers to identify and target specific learning needs. Individual academic plans provide for differentiated instruction for students with disabilities, deficits that substantially interfere with learning and language acquisition learners. English as a Second Language will be the program we use to address the needs of our EL learners. Cultural emphasis will be placed on attendance and behavior. Careful monitoring of attendance will ensure learners are present for quality instruction. Communication between school and home regarding attendance will provide accountability for both stakeholder groups. School-Wide Positive Behavior Intervention Support will continue to play a critical role in the school's climate. Communication between school and home is a vital process that should be noted. Correspondence with parents regarding student progress occurs through weekly folders. Parents use these folders to communicate concerns and questions. Monthly newsletters from the principal notify parents of pertinent information and provide additional school-home communications. The Principal will also communicate with parents through weekly callouts and Notify Me emails/texts. Teachers utilize e-mail, class newsletters, phone calls, school conferences, classroom websites, web-based notification sites and blogs to further communication. The school marquee, website, monthly school newsletter, and teacher newsletters notify the community of current school events.

5. How are the school goals connected to priority needs and the needs assessment?

Alabama's Multi-Tiered System of Supports (MTSS) serves as a systematic, inclusive, and a comprehensive process to review, revise, and communicate our school's purpose for academic success. This purpose is translated into goals that become part of the school's Continuous Improvement Plan (aCIP). Administrators, teachers, students, and community stakeholders are involved in decision making and planning to ensure student success in all areas of life. The PLES mission statement is reviewed annually by stakeholders. The mission statement is evaluated in light of the Needs Assessment, data analysis and stakeholder input. The mission statement was recently revised to reflect an emphasis on The Leader in Me. It is displayed and referenced in school communications, wall displays, meetings, and classrooms. The school climate fosters a culture dedicated to the school's vision "Always Learning . . . Always Leading" for all students. School leadership and staff support an ongoing commitment to shared values and beliefs about teaching and student learning. Teaching and learning are supported by programs that challenge students to acquire knowledge, learn to think, and practice life skills. Programs are in place to address priority needs and facilitate growth in all areas. Best practices from Alabama Reading Initiative's Beginning Reading Modules are used as a valuable resource for teacher professional development in the research-based instructional

practices behind the Science of Reading. Trained teachers are often apprised of new strategies and research. Many teachers are choosing to participate in LETRS training provided by the State Department ARI to learn more about the Science of Reading and best teaching practices.

Reading fluency and comprehension are monitored regularly by Star Reading, progress monitoring, and quarterly fluency checks. Math computational fluency is approached consistently and systematically so that a solid foundation of basic facts is achieved. 3-5 Math Intervention Teacher and teachers increase rigor as students apply conceptual understanding of mathematical practices in order to solve problems by using the STEAM model. Students benefit because academics and real life are connected. Positive Behavior Intervention Support encourages children to learn and practice interpersonal skills. The success of this program is measured by improvement in student behavior evidenced by fewer office referrals. The Problem Solving Team (PST) uses Response to Intervention (RtI) to monitor the achievement of struggling students. Stakeholder meetings are conducted and data is analyzed to track progress and plan for future success. Parents are informed of results. Other programs in place to meet the needs of students are English Learner, Gifted, Speech, Occupational Therapy, Physical Therapy, Vision Therapy and Special Education. The programs are administered in a fair and equitable manner to meet the various needs of children. Processes are followed to place and monitor the children in the programs. Data is collected, analyzed, and used to guide the learning of all students. Documentation demonstrates the involvement of stakeholders in the shared beliefs about teaching and learning. Participants are involved in meetings and are asked to share in the decision making process regarding education at this school. The decisions and policies made are communicated through the school website, newsletters, announcements, principal callouts and other parent centered meetings. Clear expectations of excellence are relayed to students by the administration, teachers, peers, and parents. Instructional practices are reviewed and assessed to maintain quality education in the classroom. Classroom standards are directed by the Elementary Programs Guide, Math Pacing Guide, and the College and Career Ready Standards adopted and mandated by the State of Alabama. Teaching Effectiveness, Walkthroughs and ATOT are the processes used to document educator strengths and weaknesses. Regular classroom visits by administrators and peer planning hold teachers accountable for quality instruction. Indication of active student engagement, deep understanding, and the ability to apply knowledge is supported by notes from observations, report cards, and data from school, county, and national assessments. School leadership and staff hold one another accountable to high expectations for professional practice. Through collaboration in regular grade level and data meetings, information about students in general or specific students is shared and evaluated. Professional practices are discussed and implementation of best practices are planned. Ideas are exchanged about how to increase academic growth and promote the acquisition of life skills. Evidence of the meetings can be found in notes and agendas. The aCIP guides goal setting and aligns programs and practices to the mission statement and the growth needs of the school. During yearly reevaluations, revisions are made to ensure quality instruction and excellence in educating the whole child.

6. How do the goals portray a clear and detailed analysis of multiple types of data?

Multiple strands of data are analyzed to identify school-wide strengths and weaknesses and plan for success. Demographic information, such as attendance and discipline speak to the culture of the school. Academic achievement is measured through formative and summative assessments. Expectations for attendance, behavior and learning are established and goals are set. Pine Level Elementary School (PLES) implements a comprehensive student assessment system. Teachers determine short-range learning by using locally made rubrics and assessments. Journals and non-verbal assessments are also used. Teachers collaborate to analyze data and make instructional changes during planning sessions and grade level and data meetings. Practices throughout PLES continually prove the effectiveness of the programs and allow the enactment of consistent modifications when needed. Teachers and administrators collect and maintain data related to student learning. Attendance and discipline data are analyzed to determine their impact on student success. Special Education Teachers, Reading Specialist, K-1 Literacy Intervention Teacher, 3-5 Math Intervention Teacher and 2-3 Intervention teacher also keep records to track student academic growth and needs. After school tutoring programs keep records to track student academic growth and needs. Teachers use item analyses from math and reading assessments to determine strengths and weaknesses. School personnel relate sets of data from diverse assessment sources to ensure student learning, consistency in classrooms, quality performance across curriculum, and throughout the school. Collected data from summative assessments allow comparison of student growth from year to year and across the county and state. Collections of data are analyzed to determine goals that will drive instruction. The Autauga County Board of Education and PLES personnel abide by established policies regarding data collection and analysis. The school aCIP outlines how data will be used to improve instruction, student learning, and the effectiveness of programs. Teachers are trained to evaluate, interpret, and use data. Routine instruction and effective use of data updates teachers as new assessment resources are introduced to PLES and Autauga County. During training, teachers learn how to extract, interpret, and apply usable data from test results. Teachers also receive training pertaining to data assessment for the benefit of special needs students. Administrators, as well as teachers, analyze data to confirm readiness for success at the next level. Learning programs are designed and implemented as the foundation for successive levels. PLES closely monitors regression, and remediation is applied in a timely manner, formally through RTI, SRIP, Dyslexia Specific Instruction, or informally through reteaching in the classroom. School personnel continuously appraise and revise plans and programs for school improvement to provide optimal learning for all students. Policies and plans for school improvement are documented in the Pine Level Elementary aCIP. Continuous improvement is desired and will be achieved through ongoing efforts to use multiple types of data to find and resolve weaknesses and implement improvements in instruction and learning for all students.

7. How do the goals address the needs of the whole school population and special recognition to children who are disadvantaged?

Goals established in the Continuous Improvement Plan are generated from data analysis, stakeholder input and the Needs Assessment conducted in the spring. All goals address the needs of the school population. Instruction is guided by county curriculum guides: Elementary Programs Guide and Math Pacing Guide. Curriculum guides are aligned with state standards and ensure that learning experiences are challenging and equitable for all learners. High expectations are established for all students. Teachers personalize instructional strategies to address individual learning needs of students as needed. Intervention and support programs are in place to meet the unique learning needs that exist at Pine Level Elementary School. Our Reading Specialist provides intense instruction for those students in K-3 that are in great need. Specialized plans, such as MTSS, RtI, IEP, 504, LEP and GEP provide instructional and environmental accommodations to ensure equal access to learning.

Component 2: Schoolwide Reform Strategies (Sec. 1114 (7)(A)(i)(ii)(iii)(I)(II)(III))

1. Identify the instructional strategies and methods used that strengthen the academic program in the school, increase the amount and quality of learning time, and help provide an enriched and accelerated curriculum, which may include programs, activities, and courses necessary to provide a well-rounded education.

Various instructional strategies and methods are used to strengthen the academic program at Pine Level Elementary. There has been a focus on STEAM (Science, Technology, Engineering, Arts, Math) instruction with the creation of a STEAM lab that can be utilized by all grades. Due to COVID-19, parents will be encouraged to participate in a virtual STEAM Night where teachers facilitate a STEAM activity for families and students. Lexia and Freckle are both used by students for online instruction and practice. Lexia focuses on reading while My Path has a focus for math and reading. Students work through concepts and skills geared to their individual areas for improvement. Teachers are also able to utilize Flocabulary

and Discovery Education to strengthen instructional strategies. By reading AR books and completing online quizzes, students gain comprehension skills. Within the classroom, teachers use differentiated instruction based on the learning styles and abilities of their students. Data drives this instruction so that teaching is explicit and strategic. For those students who need additional intervention instruction, the PST works together to create an RTI/SRIP/Dyslexia Specific Instruction plan for either reading, math, or behavior that focuses on students' weaknesses and guides additional instruction that can help students be successful in the classroom. Additionally, data is used to provide individual Student Reading Improvement Plans (SRIP) for students showing reading deficiencies in one or more key areas of literacy development as defined by the Science of Reading. Teachers have been trained in using multi sensory strategies and strive to integrate activities that engage all types of learners - visual, auditory, kinesthetic, and tactile. Resource books, such as Recipe for Reading, which provides instructional strategies for struggling readers and How to Teach Spelling which provides a systematic, phonetic method of teaching and learning spelling also incorporate multi-sensory strategies. These books are available for teachers to use to plan targeted intervention lessons. Teachers and

students work together to set individual goals based on data related to STAR Math and Reading. Teachers place an emphasis on strategic teaching in all subject areas and use formative assessments to help drive instruction. A pull-out class is provided for those students in grades three - five who have qualified for the Gifted Program. This instruction provides enrichment and acceleration as these students use their unique abilities and creativity. All of these strategies, methods, and programs increase student growth by increasing student engagement and motivation and broadening creativity and critical thinking skills.

2. Address the needs of all children in the school, but particularly the needs of those at risk of not meeting the challenging State academic standards, through activities which may **include**—

- counseling, school-based mental health programs, specialized instructional support services, mentoring services, and other strategies to improve students' skills outside the academic subject areas
- preparation for and awareness of opportunities for postsecondary education and the workforce, which may include career and technical education programs and broadening secondary school students' access to coursework to earn postsecondary credit while still in high school (such as Advanced Placement, International Baccalaureate, dual or concurrent enrollment, or early college high schools)
- implementation of a schoolwide tiered model to prevent and address problem behavior, and early intervening services, coordinated with similar activities and services carried out under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.)

Pine Level Elementary is fortunate to have two school counselors. These counselors are available to talk with students as needs arise. They also provide small group sessions and whole group sessions which address a multitude of topics. These counselors, in collaboration with administrators, also refer students to the Helping Family Initiative, the Montgomery Area Mental Health Authority, and/or the Autauga County School Social Worker and the F.I.N.D. team. Students and their families receive assistance through these individuals and organizations to improve skills outside the academic subject areas. Positive Behavior Intervention Supports (PBIS) are integrated throughout the school day to encourage and motivate students to put forth effort and do their best in all areas. Small group instruction is provided for all students within the RtI Tier I framework. This instruction focuses on weaknesses as well as strengths. For those students who need additional intervention instruction, RtI plans for reading, math, and/or behavior are written to provide for more instructional time and specific monitoring tools. Teachers use STAR Math and Reading results to specifically target objectives that are areas of weakness for students. Teachers meet approximately every four weeks to discuss progress toward goals and changes in intervention instruction. Using different methods of progress monitoring is extremely useful because this guides teachers to change

rigor or the composition of small groups. Resource teachers use IEP goals and benchmarks to determine progress and provide additional accommodations if needed. Special education teachers are included in PST/RTI/SRIP meetings when a student is moved to Tier III and special education evaluation is a possibility.

Lessons are designed to provide tiered instruction allowing for students who struggle to receive intensive assistance from teachers. Teachers provide explicit small group or individual differentiated instruction to meet learners' needs. Teachers keep anecdotal notes to ensure accountability. Teachers also use data breakdowns from Scantron testing to determine deficits in specific standards for individual students. These deficits are addressed through small group. Additionally, data is used to provide individual Student Reading Improvement Plans (SRIP) for students showing reading deficiencies in one or more key areas of literacy development as defined by the Science of Reading. The Reading Specialist is available to assist with individual assessments in an effort to determine instructional needs. In accordance with the Alabama Literacy Act, Pine Level Elementary is providing a seventy-hour after-school program for second grade students. The data has shown that the participating students have reading deficiencies in core foundational skills. Highly effective teachers have been hired to provide the direct, explicit, and systematic reading intervention instruction needed to improve their areas of reading deficiency. All students at Pine Level Elementary, including migrant, EL, economically disadvantaged, special education, neglected and/or delinquent and homeless students, have access to all programs and services available including EL services, Title I, Title III, free and reduced lunch assistance, Special Education services, counseling, and all academic programming opportunities. All students are provided with the same opportunities to achieve high content and performance standards. Special populations are identified through screenings, referrals, language surveys, lunch applications, and parent or teacher requests for evaluations. Designated personnel provide specialized instruction, and inclusion services allow special populations to participate within the general education classroom environment.

Challenges unique to each group are dealt with on an individual basis depending upon need. School resource teachers, counselors, EL coordinator, administrators and support staff work diligently to ensure all students, regardless of situation, disability, cultural or economic status receive the assistance and support required to be successful.

3. Describe how the school provides opportunities for the most academically needy students to receive support and reinforcement of academic skills **Beyond the Regular School Day.**

Lessons are designed to provide tiered instruction allowing for students who struggle to receive intensive assistance from teachers. Teachers provide explicit small group or individual differentiated instruction to meet learners' needs. Teachers keep anecdotal notes to ensure accountability. Teachers also use data breakdowns from STAR Reading and Math testing to determine deficits in specific standards for individual students. These deficits are addressed through small group. Additionally, data is used to provide individual Student Reading Improvement Plans (SRIP) for

students showing reading deficiencies in one or more key areas of literacy development as defined by the Science of Reading. The Reading Specialist is available to assist with individual assessments in an effort to determine instructional needs. In accordance with the Alabama Literacy Act, Pine Level Elementary is providing a seventy-hour after-school program for second grade students. The data has shown that the participating students have reading deficiencies in core foundational skills. Highly effective teachers have been hired to provide the direct, explicit, and systematic reading intervention instruction needed to improve their areas of reading deficiency.

4. Describe procedures/strategies used to address academic challenges for each group of Migrant, English Learners, Economically Disadvantaged, Special Education, Neglected and/or Delinquent, and Homeless Students.

All students at Pine Level Elementary, including migrant, EL, economically disadvantaged, special education, neglected and/or delinquent and homeless students, have access to all programs and services available including EL services, Title I, Title III, free and reduced lunch assistance, Special Education services, counseling, and all academic programming opportunities. All students are provided with the same opportunities to achieve high content and performance standards. Special populations are identified through screenings, referrals, language surveys, lunch applications, and parent or teacher requests for evaluations. Designated personnel provide specialized instruction, and inclusion services allow special populations to participate within the general education classroom environment. Challenges unique to each group are dealt with on an individual basis depending upon need. School resource teachers, counselors, EL coordinator, administrators and support staff work diligently to ensure all students, regardless of situation, disability, cultural or economic status receive the assistance and support required to be successful.

5. Describe how the school provides individual student academic achievement results and interpretation of the results to parents of English Learners in a language they can understand.

The school's EL facilitator ensures that families of EL students receive pertinent information in a language they understand. The district EL Supervisor assists as needed with translations. Translators can be present in parent meetings if this service is needed.

6. What is the school's teacher turnover rate for this school year?

School (PLES) maintains a strong faculty and staff. During the 2021-2022 school year 6 teachers left due to retirement or relocating for various reasons. Turnover rate remains extremely low at PLES.

7. What is the experience level of key teaching and learning personnel?

28 teachers have earned a Bachelor's Degree

32 teachers have earned a Master's Degree

7 teachers have earned a Specialist's Degree.

Number of tenured teachers: 54

Number of non-tenured teachers : 13

Number of teachers scheduled to earn tenure at the end of the 2022-2023 school year: 3

8. If there is a high turnover rate, what initiatives has the school implemented to attempt to lower the turnover rate (recruitment and retention strategies)?

Pine Level Elementary School (PLES) is a training ground for many post secondary institutions across Alabama. As a result, numerous inquiries regarding possible teaching positions are made throughout the year. A positive atmosphere is evident to guests who enter PLES. Achieving excellence is a primary focus for the staff and vision of the school. Administrative support and collegiality permeate the school environment. PLES provides considerable support for new teachers and staff who need mentoring. Professional development is provided throughout the school year and funds are made available for teachers requesting to attend professional learning sessions. Opportunities for professional growth improves the skills of teachers and allows them to more effectively address the learning needs of all students in their classes. Novice teachers are paired with mentor teachers who guide them through their first year (or two) of teaching. Staff who change grade levels or areas of instruction are also paired with peers to provide needed support.

9. Describe how data is used from academic assessments to determine professional development.

In the Spring of 2022, teachers completed a Needs Assessment to include professional learning needs. Teachers identified three particular areas of need: Reading, Writing and Math. Specific issues listed in the reading area included oral reading fluency strategies and instructional strategies for struggling readers. Teachers also listed on-going professional development needs including mental health, classroom management and positive behavior, ACAP, RTI/SRIP instructional strategies, and student engagement. Teachers will participate in activities at school covering topics from the Needs Assessment during in-service and data meetings during the 2022-2023 school year determine professional development.

10. Identify the professional development opportunities for teachers, principals, paraprofessionals, and other school personnel to improve instruction.

Numerous professional development opportunities will be available to stakeholders throughout the school year. The professional development opportunities address the Needs Assessment (Academic and Professional) and assessment results from Spring 2022. A major emphasis at the beginning of the 2022-2023 school year was training for Open Court Reading and LETRs for the new Reading Curriculum and the

new ACOS ELA Standards implementation. Teachers also participated in trainings for various assessments including AlaKids, STAR Math, and STAR Reading. Additional training opportunities for these assessments as well as ACAP will be offered throughout the year. Twenty-one faculty members are presently participating in the two-year comprehensive training Language Essentials for Teachers of Reading and Spelling (LETRS). LETRS focuses on the Science of Reading and provides the tools teachers need in diagnosing reading issues, prescribing effective strategies, and reflection on the effectiveness of the instruction provided to support students. Another area of professional development for Pine Level will continue to be The Leader in Me. This professional development will consist of two one-day trainings in November 2022 and January 2023. In addition to these trainings, there will be ongoing professional development during faculty meetings, grade-level meetings, and data meetings. Professional development will also include a focus on social emotional learning through a the book study using "Talk to Me", to be done during the second semester. ACAP Testing, K-3 Literacy Training, RTI/SRIP/Dyslexia Specific Strategies (target skills and suggested learning objectives), STAR Reading and Math data analyses, CLAS Conference, Steve Spangler STEM Conference, TECH Conference, and MEGA Conference are additional opportunities for professional development. The County has provided professional development in strategic teaching, formative assessment, and multi-sensory teaching methods.

11. Identify the teacher mentoring activities included in the schoolwide plan. For example, new or inexperienced teachers are given support from an assigned master teacher.

Novice teachers are paired with mentor teachers who guide them through their first year of teaching. Staff who change grade levels or areas of instruction are also paired with peers to provide needed support. Administrators observe and meet with new teachers often to provide feedback regarding instruction and classroom management. Mentors and mentees must keep a log of their mentoring meetings and turn in to Administration bi-monthly. The principal meets with the Reading Specialist and mentors to ensure that novice teachers receive critical support from the district level.

12. Describe how all professional development is "sustained and ongoing." Professional development is critical for teacher improvement and increased student achievement. Planning for professional development ensures that professional growth occurs through ongoing and sustained activities. Most of the professional development activities scheduled have been identified through the 2022 Spring Needs Assessment, stakeholder input and support school goals. Other ongoing professional development will occur as teachers execute their Professional Learning Plan (PLP) under Teaching Effectiveness. A large number of teachers have tied their individual PLP to the school-wide goals in the Needs Assessment. Professional learning is scheduled to occur during each month of the academic year. All certified faculty will participate in The Leader in Me trainings and discussions so that leadership skills and processes can be implemented personally and in the

classroom. As a result, professional development will be timely and relevant to academic, professional and cultural needs.

13. Identify the strategies in the schoolwide plan that support and assist students in transitioning from one grade level to the next. For example, preschool preparation for Kindergarten and/or eighth grade transition to high school and/or high school to college/work force.

Transition activities at the beginning of the school year were done virtually. A grade specific Parent Orientation power point presentation was posted on the school website. Kindergarten parents are offered a tour of the school after enrolling.

To help ease the transition from Pine Level Elementary to Marbury Middle, fifth graders will tour Marbury Middle School in May, 2023. Fifth grade teachers will also talk with fourth grade students in May to make them aware of expectations. In addition to these, the Back-to-School Night held at the beginning of each school year provides an opportunity for parents and students to meet teachers, gain information about the upcoming school year, and ease the stress of new experiences.

14. Special Populations as listed in the Carl D. Perkins Career and Technical Education Act of 2006 - Describe procedures used to address challenges for each group of individuals with disabilities, individuals from economically disadvantaged families (including foster children), individuals preparing for non-traditional fields, single parents (including single pregnant women), displaced homemakers, and individuals with limited English proficiency.

(N/A for Elementary Schools)

N/A

Component 3: Evaluation (How does the school evaluate the implementation of the schoolwide program?)

1. How does the school evaluate the results achieved by the schoolwide program using data from the State's annual assessments and other indicators of academic achievement?

Analysis of assessment data allows faculty and staff to identify students who have not met proficiency levels. Teachers utilize this information to plan timely intervention through tiered and differentiated instruction. Progress monitoring is done consistently so that instructional strategies can be changed if needed. Progress reports for students identified with special needs are examined each nine weeks to ensure effective progress is made related to identified goals. Multiple avenues of intervention are available to support student learning. Resource staff work inclusively or in pull-out sessions to aide students with individualized plans.

Teachers refer general education students to the school's Problem-Solving Team (PST) for additional help. RtI, SRIP, and Dyslexic Specific Instruction plans are written and implemented to provide these struggling students with specific intervention. Data is continuously gathered to determine gains or modify instruction.

2. How does the school determine whether the schoolwide program has been effective in increasing the achievement of students who are furthest from achieving the standards?

Analysis of assessment data allows faculty and staff to identify students who have not met proficiency levels. Teachers utilize this information to plan timely intervention through tiered and differentiated instruction. Progress monitoring is done consistently so that instructional strategies can be changed if needed. Progress reports for students identified with special needs are examined each nine weeks to ensure effective progress is made related to identified goals. Multiple avenues of intervention are available to support student learning. Resource staff work inclusively or in pull-out sessions to aide students with individualized plans. Teachers refer general education students to the school's Problem-Solving Team (PST) for additional help. RTI, SRIP, and Dyslexia Specific Instruction plans are written and implemented to provide these struggling students with specific intervention. Data is continuously gathered to determine gains or modify instruction.

3. What process is followed by the school to revise the plan as necessary, based on the evaluation, to ensure continuous improvement of students in the schoolwide program?

Pine Level Elementary School engages in a systematic, inclusive, and comprehensive process to review, revise, and evaluate the schoolwide program. Twice during the school year (December and May), teachers are asked to evaluate Continuous Improvement Plan (aCIP) goals/strategies. They are also required to list specific steps that their grade level has taken to help students achieve the aCIP academic achievement goals. In the spring, students, parents and other stakeholders are also asked to evaluate the aCIP and its effectiveness. Results of these evaluations and additional input gleaned from surveys allow administrators and faculty to determine program effectiveness. Modifications to the aCIP, as well as instructional strategies, are made to ensure continuous improvement of students.

Component 4: Coordination and Integration of Federal, State and Local Programs and Resources (Sec. 1114(b)(V))

NOTE: Not all schools receive all of the funding sources mentioned.

1. List the State, Federal and local programs that are consolidated/coordinated in the schoolwide program and describe how all programs and resources are coordinated and integrated toward the achievement of the schoolwide goals.

All programs and services implemented at Pine Level Elementary School (PLES) are coordinated and integrated for the purpose of achieving school-wide goals.

Federal, state and local funds are used to provide professional development, hire highly qualified personnel, purchase instructional supplies, equipment and parent resources. Coordination of monies and resources are used to implement needed programs. Funds used for professional development allow teachers to receive training to improve instruction. As a result, teachers deliver quality instruction to equip students in mastering rigorous state standards. Federal and local funds are designated for materials and equipment and provide equitable learning opportunities for impoverished students. Federal funds are used to maintain a Family Resource Center allowing school and home to share responsibility for improved student academic achievement.

2. How does the school coordinate and integrate the following Federal, State and local services in a manner applicable to the grade level to support achievement of the schoolwide goals: violence prevention programs, nutrition programs, housing programs, Head Start, adult education, career and technical education programs, and schools implementing comprehensive support and improvement activities or targeted support and improvement activities under section 1111(d).

There are many programs and resources that are implemented at Pine Level Elementary School (PLES) to ensure the achievement of school-wide goals. Coordination of monies and resources: Title I, Title II and Title III at the district and local levels are used to implement needed programs. All funding sources are used to upgrade/enhance the regular education program at Pine Level Elementary School. Budgeting focuses on enhancing instructional goals, school operations and other strategies designated in the aCIP. Centralized monies are pooled at the Central Office to provide system services and programs. More than 60% of the student population at Pine Level Elementary School (PLES) receives federal lunch assistance. PLES is designated as school-wide Title I status and uses the money received through this federal funding to improve the academic opportunities of all students.

ACIP Assurances

Instructions:

By responding to the questions attaching evidence where required, the institution has verified whether it meets or does not meet each of the required ACIP Assurances.

1. The school's ACIP is developed with the involvement of parents and other members of the community to be served and individuals who will carry out such plan, including teachers, principals, other school leaders, paraprofessionals present in the school, administrators (including administrators of programs described in other parts of this title), the local educational agency, to the extent feasible, tribes and tribal organizations present in the community, and, if appropriate, specialized instructional support personnel, technical assistance providers, school staff, if the plan relates to a secondary school, students, and other individuals determined by the school. (Sec. 1114, (b) (2))

Upload the signature page of your ACIP committee members. Upload any additional attachments if needed regarding your ACIP.

Parent and Family Engagement

1. Describe how the school will convene an annual meeting to inform parents of the school's participation in Title I and explain Title I requirements, including the 1% set-aside, and the right of parents involved. (Sec. 1116(c)(1))

Pine Level Elementary will conduct a Title I meeting in two sessions, morning and evening, to accommodate parents' schedules. These sessions may be done virtually if needed. Topics to be discussed will include: What it means to be a Title I school, 1% set-aside, CIP, PLES Family Engagement Plan, LEA Parent & Family Engagement Plan and Title Plan, School-Parent Compact, highly effective teacher status, how to request the qualifications of teachers, Family Resource Center, and how to be involved in the Title I program at PLES. Family input is encouraged on how the 1% set-aside is to be spent and the end of the year evaluation to determine program effectiveness.

2a. Describe how there will be a flexible number and format of parent meetings offered, such as meetings in the morning or evening, and may provide, with funds provided under this part, transportation, child care, or home visits, as such services relate to parental involvement.

The Annual Title 1 Parent/Family Meeting is offered in two sessions to accommodate parents' schedules. Other meetings for parents are held in multiple sessions through the year. Three Parent Orientation Meetings will be held. Pre-K parents will meet prior to the beginning of the school year. Parents of upcoming kindergartners, first graders, and second graders meet in separate sessions in the spring. Parents are also encouraged to attend a transition event in the spring for fifth graders as they move to Marbury Middle School. Parents are informed of school programs and assessments and encouraged to give feedback regarding this information. Parents also participate in programs specifically planned to assist them in being an active part in their children's education and are encouraged to participate in various family engagement events throughout the year. Parents are informed of how funds from the 1% set-aside are used to provide them with resources to better assist their children at home. These resources are kept in the Family Resource Center (FRC). The FRC is open during school hours and during school sponsored evening events for parents to check out resources for home use. Funds are also used for mailings, readiness packets, and magnet calendars. Parents serve on the Title I Advisory Committee and represent the parent body by giving input, making decisions on how to spend designated funds and in program evaluation. Meetings may be held virtually if needed.

2b. Describe how parents will be involved in the planning, review and improvement of the Title I Program (Note: State the school's process for how all Title I parents have the opportunity for involvement in decision-making).

Parents serve on the Title I Advisory Committee and represent the parent body by giving input, making decisions on how to spend designated funds and in program evaluation. Meetings may be held virtually if needed. The Annual Title 1 Parent/Family Meeting is offered in two sessions to accommodate parents' schedules. Other meetings for parents are held in multiple sessions through the year. Parents are informed of school programs and assessments and encouraged to give feedback regarding this information. Parents also participate in programs specifically planned to assist them in being an active part in their children's education and are encouraged to participate in various family engagement events throughout the year.

2c. Describe how funds allocated for parent involvement are being used in the school. (Sec. 1116(c)(2)(3)).

Parents are informed of how funds from the 1% set-aside are used to provide them with resources to better assist their children at home. These resources are kept in the Family Resource Center (FRC). The FRC is open during school hours and during school sponsored evening events for parents to check out resources for home use. Funds are also used for mailings, readiness packets, family field trips, and magnet calendars.

3. Describe how the school provides parents of participating children timely information in a uniform format and, to the extent practicable in a language they can understand, about programs under Title I, a description and explanation of the curriculum in use, forms of academic assessments, and achievement expectations used, and, if requested by parents, opportunities for regular meetings to formulate suggestions and participate as appropriate in decisions related to the education of their children.

(Sec. 1116(c)(4)(A)(B)(C))

Parents are notified about curriculum, programs, and assessments throughout the school year. In the fall, parents are invited to school to learn about the Title I program, spring assessment data, the CIP and the target goals that will be a focus throughout the year. This meeting may also be done virtually if needed. Parents are kept informed of curriculum, assessments and other pertinent information via the monthly school newsletters, teacher correspondence, weekly call outs by principal, and websites. In carrying out the Title I, Part A, parental involvement requirements, to the extent practicable, the school will provide full opportunities for the participation of parents with limited English proficiency, parents with disabilities, and parents of migratory children, including providing information and school reports required under Section 1111 of the ESEA in an understandable and uniform format and, including alternative formats upon request, and, to the extent possible, in a language parents understand. The district EL Supervisor assists PLES in translating documents for any parent who is unable to read English.

4. Describe how parents, the school staff, and students share responsibility for improved student academic achievement for participating students (How the School-

Parent Compact is jointly developed with Title I parents; how it is used, reviewed, and updated). (Sec. 1116(d))

The School-Parent Compact is reviewed and/or revised as needed. All stakeholders share the responsibility of student achievement at PLES. Input from stakeholders (needs assessments, program evaluation, committee representation, etc.) is used to guide decision-making and the development of various plans. Parents are asked to partner with faculty and staff to participate in the educational process by volunteering, tutoring, serving on committees, and supporting various endeavors and programs. The School-Parent Compact is a part of an ongoing partnership with parents, school personnel, and students. It is discussed and signed by teachers, parents, and students at the opening of school and kept on file by teachers as a reminder of the commitment of all stakeholders. The School-Parent Compact designates the requirements of all stakeholders so that there is a shared responsibility for improved student academic achievement.

5. Describe procedures to allow parents to submit comments of dissatisfaction with the Continuous Improvement Plan. (Sec. 1116(c)(5))

Parent input is gathered during the development of the PLES Continuous Improvement Plan (aCIP). Once the plan has been developed and approved, parents are encouraged to review the CIP which is housed in the Family Resource Center (FRC) the media center, the school office, and on the website. Notification about the plan and its review is distributed through school newsletters, callouts, and parent meetings. Parents are informed that if they have questions or concerns or if they are dissatisfied with the plan, they may contact the principal or any member of the planning committee to express their concerns. Parents may also contact the Federal Programs Administrator at the Central Office with their questions or concerns.

6a. Describe how the school will build capacity for parental involvement including how parents will be encouraged to become equal partners in the education of their children. (See ESSA Sec. 1116, requirements for building capacity and parental and family engagement).

To ensure effective involvement of parents and to support a partnership among the school, parents, and the community to improve student academic achievement, our school:

Shall provide materials and training to help parents to work with their children to improve their children's achievement, such as literacy training and using technology, as appropriate, to foster parental involvement.

A Family Resource Center (FRC) is located in the heart of the PLES Media Center and offers a wealth of materials for parents to use in working with their students. The resources are available for parents to check out during the school day and during school sponsored evening events. A computer and printer are also available for parents to use. School counselors hold volunteer training days to equip parents to

serve students and teachers during the academic day and beyond. Renaissance Home Connect allows parents to access literacy information online. Pearson Success allows parents to access math textbooks and ancillary resources online. Additional academic resources are provided online through links on the PLES and ACBOE websites. Parents are continuously informed about student progress through weekly folders, PowerSchool, mid-term progress reports and end of grading period reports. They are encouraged to use these items to communicate with teachers regarding student progress and to participate with teachers to improve achievement. Home reports of spring assessments are disseminated at the beginning of the school year and teachers schedule conferences with parents to discuss student progress. Parents receive information regarding assessments, curriculum and programs at parent meetings and through monthly school newsletters. At various times during the year, parents are provided information regarding assessment results, the LEA Elementary Programs Guide (containing College and Career Ready Standards), Title I information, the CIP and how it relates to student achievement, state and local programs/initiatives, and ways in which they can be more directly involved with their child's education. A Title I Parent Meeting is held (in two sessions) in the fall to inform parents and discuss the requirements of this federal program (the CIP, parental involvement, status of teachers, Parents' Right to Know and other items pertinent to Title I). The meeting may be held virtually if needed. Opportunities in which parents/family members may participate include Fall Fun Day, Field Days, Open House, STEAM Nights, and additional family events. All events will follow CDC and ACBOE health and safety guidelines.

6b. Describe how the school will build capacity for parental involvement including how parents will be encouraged to become equal partners in the education of their children. (See ESSA Sec. 1116, requirements for building capacity and parental and family engagement).

To ensure effective involvement of parents and to support a partnership among the school, parents, and the community to improve student academic achievement, our school:

Shall educate teachers, office personnel, and other school staff, with the assistance of parents, in the value and utility of contributions of parents, and in how to reach out to, communicate with, and work with parents as equal partners, implement and coordinate parent programs, and build ties between parents and the school.

The role of parents in the educational process is continuously addressed with school personnel. PLES strives to partner with parents in every area of their children's' education. Emphasis on the need for close school-home communication is included in faculty meetings, grade level meetings, in-services, etc. Teachers maintain a Parent Contact Log to document school-home connections. Parent and family engagement is a continuous area of focus at PLES.

6c. Describe how the school will build capacity for parental involvement including how parents will be encouraged to become equal partners in the education of their children. (See ESSA Sec. 1116, requirements for building capacity and parental and family engagement).

To ensure effective involvement of parents and to support a partnership among the school, parents, and the community to improve student academic achievement, our school:

Shall to the extent feasible and appropriate, coordinate and integrate parent involvement programs and activities with other federal programs, and conduct other activities, such as parent resource centers, that encourage and support parents in more fully participating in the education of their children.

PLES coordinates multiple federal programs (such as Title I and Title III) with parental engagement to ensure that all parents are quipped to participate in their students' education. Our school's EL facilitator and the district EL supervisor assist the families of our EL students in understanding and actively engaging in school programs, etc. to improve student achievement. Parent training/conferences are ongoing throughout the school year. The Family Resource Center (FRC) provides valuable materials for home use. Counselors maintain resource areas containing pamphlets, books and research-based articles within their offices. These resources address parenting issues and provide information on how parents can assist their children's social and academic concerns.

6d. Describe how the school will build capacity for parental involvement including how parents will be encouraged to become equal partners in the education of their children. (See ESSA Sec. 1116, requirements for building capacity and parental and family engagement).

To ensure effective involvement of parents and to support a partnership among the school, parents, and the community to improve student academic achievement, our school:

Shall ensure that information related to school and parent programs, meetings, and other activities is sent to the parents of participating children in a format and, to the extent practicable, in a language the parents can understand.

Parents are notified about meetings, programs and various activities through monthly school newsletters, informational flyers, the school marquee, the school website, Instagram, and individual teacher websites and blogs. The school's EL facilitator ensures that families of EL students received pertinent information in a language they understand.

6e. Describe how the school will build capacity for parental involvement including how parents will be encouraged to become equal partners in the education of their children. (See ESSA Sec. 1116, requirements for building capacity and parental and family engagement).

To ensure effective involvement of parents and to support a partnership among the school, parents, and the community to improve student academic achievement, our school:

Shall provide such other reasonable support for parental involvement activities as parents may request.

PLES strives to involve parents in every aspect of school life. Faculty and staff members work with parents regarding their requests to be involved with their children's education. Open communication is key. Parental input is valued and used to modify program offerings as well as procedures (if appropriate). Input is gathered through surveys, program evaluations, and informal suggestions.

7. Describe how the school will ensure the provision for participation of parents and family members (including parents and family members who have limited English proficiency, parents and family members with disabilities, and parents and family members of migratory children), including providing information and school reports required under section 1111 in a format and, to the extent practicable, in a language such parents understand. (See ESSA Sec. 1117(f))

All parents are encouraged to participate in the educational process including parents with limited English proficiency and parents with disabilities. The school's EL facilitator and the district EL supervisor assist in providing information (reports, notices, etc.) to parents in a language they understand. Handicap parking places are positioned close to the front entrance and sidewalks have sloped sections that allow for wheelchair accessibility. Restrooms are equipped with handicap stalls, allowing extra space for maneuvering. Currently there are no migrant students at PLES.

Coordination of Resources - Comprehensive Budget

Step 1: Download and complete the Comprehensive Budget Document under the Federal Programs tab found here <https://alsde.onlinehelp.cognia.org/>.

Step 2: Upload the completed Coordination of Resources - Comprehensive Budget document.

I have completed and uploaded the Coordination of Resources - Comprehensive Budget.

I have not completed and uploaded the Coordination of Resources - Comprehensive Budget.
