I. Enrollment Projections

- Committee brainstormed next year's target/recommendation.
- Mr. Little recommended dropping below 600 students; We need to develop a rationale for any changes. Drastic decrease should have data to support recommendation (trends);
- Mr. Shell – Shared considerations regarding surpassing goal. There is an opportunity to get additional staff; If we don't meet the numbers, then we don't retain resources. Made recommendation to reduce the number;
- LSAT members shared their current thoughts: team consensus to reduce the numbers based off current experience and trends. Team to look at data to support recommendation.
