## **INDOOR AIR & WATER QUALITY**

### **Indoor Air Quality**

In order to ensure that North Country Charter Academy sites have adequate indoor air quality, the Board directs the Principal to annually investigate air quality in their respective school sites using a checklist provided by the New Hampshire Department of Education.

In support of this policy, the Principal is authorized to establish regulations and/or administrative rules necessary to implement and maintain clear air measures aimed at improving indoor air quality.

The Principal will work collaboratively with site landlords to monitor and maintain indoor air quality.

### **Water Quality and Access**

The Board directs the Principal/designee to take measures to limit lead exposure in school drinking water and ensure compliance with RSA 485:17-a, III, and consistent with regulations and guidance of the NH Departments of Environmental Services and of Education.

Water stations in school buildings shall be installed in accordance with ED 321.18(h) relative to the number of drinking fountains required.
