

Dear LWCS Families,

Please see the below important update regarding Hurricane Milton.

Please be advised that all LWCS schools and the Central Office will remain closed through Friday, October 11, in response to this storm.

We are extending our closure of operations through Friday for several important reasons.

Current forecasts show this storm is expected to begin bringing significant weather to our community, which could last into Thursday.

At this time, we anticipate we may not be able to inspect our schools for potential damage or power outages until Friday. We will inspect our buildings on Friday.

We must ensure our schools are safe before deciding when school operations should resume. As always, your safety is our top priority.

At this time, no decision has been made regarding Monday's operations for LWCS and our Central office.

We will keep you updated about whether our school operations can resume on Monday, October 14.

As always, your safety is our top priority. We encourage everyone to prepare adequately and ensure your family is ready for any weather-related challenges.

Thank you for your attention and cooperation. Please stay safe.

Alricky Smith, CPA
Interim Superintendent
Lake Wales Charter Schools
