Attendance Awareness Month

Nationwide young students miss **10 percent of the school year**—about 18 days a year or two days every month. Chronic absenteeism in kindergarten, and even preK, can predict lower test scores, poor attendance and retention in later grades, especially if the problem persists for more than a year.

Why does that matter? If children don't show up for school regularly, they miss out on fundamental reading and math skills and the chance to build a habit of good attendance that will carry them into college and careers.

Follow along on social media as we learn more about why #attendancematters this month!

Fall Sports Underway

Fall sports are underway and we would love for you to help cheer on our student-athletes. Please see schedule for upcoming varsity events.
