Lindsey Student Support Center Offers Monthly Clinic Days

HOUSTON COUNTY, GA – The Lindsey Student Support Center (LSSC) and the Georgia Department of Public Health - North Central Health District are partnering to bring telehealth appointments to the families in Houston County. Appointments are available on a first come, first served basis.

“We are so excited to be able to partner with the North Central Health District for another project that will benefit our students and their families,” said Dr. Dana Wiggins, Assistant Superintendent of Student Services for the Houston County School District. “We know that having access to quality healthcare locally can make a big difference for our students. By offering these at the Lindsey Center, parents will have the opportunity for their child to be seen by a medical professional in a setting that is friendly and familiar. We are grateful for the partnership and know it will positively impact the families in our community.”

The appointments will be free or low cost for families. Services include checking vitals, going over symptoms, and receiving a diagnosis by a telehealth nurse practitioner. Prescriptions will be given as needed. Middle Georgia Community Action Agency will be on site to assist with prescription resources. Medications will not be on-site and dental services will not be available.

Clinic Days will be monthly from 9:00 a.m. to 4:00 p.m. A list of dates can be found on the [calendar page](#) for LSSC. Registration is required and appointments are necessary. [To register, click here.](#) Once the online registration has been completed, the Health Department will schedule the appointment with the participant for one of the Clinic days.

The Lindsey Student Support Center is located at 81 Tabor Drive in Warner Robins. For questions or additional information, contact the Lindsey Student Support Center at (478) 929-7818.
