IDAHO SCHOOL DISTRICTS are required to report the value of FIXED ASSETS as accurately as their system of records permits. Although a district's fixed asset system may not meet AICPA standards, the values and balances reported in prior years should be adjusted annually to reflect the additions and deletions of property, plant and equipment. When a system is developed to meet AICPA standards, the old system may be restated.

SITES: A fixed asset account which reflects the acquisition value of land owned by a school district. If land is purchased, this account includes the purchase price and costs such as legal improvement costs incurred to put the land in condition for its intended use and site improvements which reflect the acquisition value of permanent improvements, other than buildings, which add value to land. If lands and improvements are acquired by gift, the account reflects the appraised value at the time of acquisition.

BUILDINGS: A fixed asset account which reflects the acquisition value of permanent structures used to house persons and property owned by the school district. If buildings are purchased or constructed, this account includes the purchase or contract price of all permanent buildings and the fixtures attached to and forming a permanent part of such buildings. This account includes all building improvements. If buildings are acquired by gift, the account reflects their appraised value at the time of acquisition.

EQUIPMENT: Tangible property of a more or less permanent nature, other than land, buildings, or improvements thereto, which is useful in carrying on operations. Examples are machinery, tools, trucks, cars, buses, furniture, and furnishings.

CONSTRUCTION IN PROGRESS: The cost of construction work undertaken and in progress.
