CHEMIC SALUTES

The wrestling team would like to send out a salute to Coach Witt and the hockey team for helping with our girls' wrestling invite on Sunday. They were a huge help with working tables and crowd control and helping move mats at the end of a long weekend. We would also like to send a salute to the 5th and 6th hour gym classes for helping set up and to Coach Albright who put in nearly 40 hours in the gym all weekend with the tournaments. Our wrestling program hosted three straight tournaments this weekend (Friday- Sunday). They represented the MHS community with class. This program does things the right way and embodies Chemic spirit and ideals.

Our next salute goes out to our counseling staff for all they do for the students and staff every day, but especially during this first week of February. Feb 3-7 is National School Counseling Week, and we are Chemic Proud of the great counseling professionals here at MHS.

Maggie Spears & Gloria Stark - Shout out to these two Chemics for helping a classmate clean up a serious dihydrogen monoxide (a.k.a. water!) spill at the end of Mr. Yoder's 2nd hour chem class. They could have easily walked away and left their peer to clean things up, but they pitched in right away to help!

The Varsity Girls Basketball team is currently 13-1 and 6-0 in the SVL after last night's win. The Detroit Free Press has the Chemics ranked 3rd in Division 1. Not only that they have us 5th in the Super 10 (across all divisions). That means the 5th best team in all of girls basketball in the entire state of Michigan!

ANNOUNCEMENTS

Chemics, today's Black History Month spirit week theme is Jersey-themed to represent and recognize all African American Athletes in the nation. Did you know that African Americans had a significant turning point in sports in 1947 when Jack Robinson played for the baseball team Brooklyn Dodgers? By wearing your favorite jersey to honor legacies, take a moment to think about how sports have the power to unite people from different backgrounds. Tomorrow's spirit theme is Pajama Day so wear your comfiest pajamas. Tomorrow is also National Bubble Gum Day and all people participating in Pajama Day can get a piece of bubble gum during both lunch hours.

Black History Month: Chemics, this is a reminder to listen carefully to each day's announcements because there is a lot to learn about events and achievements at MHS, and during the month of February, you have a chance to win a gift card to a food establishment near MHS if you correctly answer the questions emailed to you each Friday. Today's Black History Month information honors all of you who love your hair.

Sarah Breedlove was born in 1867, on a cotton plantation in Louisiana. In her 20s, Sarah developed a scalp disorder that caused her to lose much of her hair. In an attempt to treat her condition, she invented a line of African American hair products and changed her name to Madam C.J. Walker. To promote her products, she traveled throughout the southern U.S. demonstrating her products including a brushing method and the use of heated combs. Her efforts led to her being one of the first American women to become a millionaire. Her legacy lives on with a product line that can be purchased at Sephora. Madam C.J. Walker made enormous contributions to this month's theme of African Americans and Labor.

POSITIVE THINKING

On Friendship

"Why did you do all this for me?" he asked. "I don't deserve it. I've never done anything for you." "You have been my friend," replied Charlotte. "That in itself is a tremendous thing."
