HIGHLIGHTING EXCELLENCE: WCSD STUDENT SERVICES AND TRANSPORTATION DEPARTMENT

The Williamsburg County School District (WCSD) proudly highlights the outstanding leadership and dedication of the Student Services and Transportation Department under the direction of Dr. Brian McKnight. This vital division ensures that students not only arrive safely and on time each day but also receive the necessary support and services to thrive academically, socially, and emotionally.

This department has strengthened the district's commitment to student-centered service, focusing on safety, equity, and access. The Transportation Department oversees a comprehensive fleet that safely transports hundreds of students across Williamsburg County daily, ensuring efficient routes, reliable communication, and compliance with state and federal safety standards.

Beyond transportation, the Student Services team plays a crucial role in supporting student success through attendance initiatives, student records management, behavioral support programs, and crisis intervention services. Together, these efforts foster a nurturing learning environment where every student has the opportunity to succeed.

“Our mission is to provide students with the tools, resources, and safe environments they need to reach their full potential,” said Dr. McKnight. “When transportation and student services operate in harmony, it creates a foundation for success that begins before the first bell and continues long after the school day ends.”

Under Dr. McKnight’s direction, WCSD continues to prioritize student well-being, operational excellence, and collaborative partnerships with families and the community. The department’s commitment reflects the district’s broader vision—ensuring that every student in Williamsburg County is supported, valued, and equipped to succeed in life.
