

# twitter + instagram

## Photo release form

I have a classroom Twitter and Instagram that I use for the purposes of staying connected with families and colleagues. If allowed, photos of students and/or their work will be posted on this site. This is a way for me to show what is happening inside of our class. I ask that you would please fill out the bottom portion of this paper, giving or denying me the permission to take and post photos of your child and/or their work on these social media platforms.

Thanks,  
Mrs. Tucker
