⇦ ⇨
Scores by Standard (*Ranking by Benchmark*)

Click to view example

This report ranks the results by state standard benchmarks for the current assessments. The report can be filtered by specific *strand* and by NCLB factors.

Report Contents

The report shows the following by benchmark ID:

- Benchmark description
- Test results (percentage) color-coded to indicate at or below proficiency
- *Weighted average*

The colors and cut scores for this report are set using the Color Manager in PM2 Admin.

Each column can be sorted independently either ascending or descending.

Additional filters

In addition to the primary filters, you can filter this report by:

- HST subject
- Strand

Use this report to

Teachers:

- Identify benchmarks that need reinforcement or remediation

Administrators:

- Identify NCLB groups that need reinforcement or remediation for specific benchmarks

Hotspots:

- Benchmark ID: accesses Student Results report
