

Dear Parents and Guardians,

As you know, we have been experiencing extremely cold temperatures over the past few days. The heating system at the high school is not operating at full capacity in some of the classrooms. However, we have made some provisions to address this issue. As you know, we recently received over four million dollars from the state to replace the entire roof and heating and air conditioning system at RCHS and RCMS. These funds are a part of the twenty million dollars that are allocated for the K-12 project. This project is scheduled to begin in April of 2022. Please know that we will always strive to educate our students in a safe and comfortable learning environment.

Thank you for your continued support.

Zelda White-Davis
RCHS Interim Principal
