

Eureka Math Parent Support

Sign up for a free account at greatminds.org/signup to access:

- Parent Tip Sheets (K-8)
- Grade Roadmaps (K-8)
- Sample problems
- Card Games
- Videos

Parent resources are available in English and Spanish.

As a parent, you are your child’s chief advocate and most essential teacher—at homework time and always. If your child needs support at home in understanding math problems such as number bonds, *Eureka Math* has many parent resources available to you for free so that you can help your child establish a strong foundation in math for this school year and after.

Parent Tip Sheets (free)—There’s a tip sheet for each *Eureka Math* topic to help you easily follow along with what your child is learning in math class. These tip sheets include strategies, models, key vocabulary, connections to previous learning, and more tips for how you can support your child’s learning at home.

Grade Roadmaps (free)—Grade Roadmaps explain what your child will be learning in the coming year and give strategies that you can implement to facilitate learning at home.

Online Communities—Encourage parents to like us on Facebook or to follow us on Twitter to consult with *Eureka Math*’s teacher–writers or other *Eureka Math* teachers.

Parent Videos (free)—The *Eureka Math* video gallery includes a number of videos for parents that explain how the curriculum is different from the way most parents learned math and what parents can expect in the year ahead.

Homework Helpers (paid)—Eureka Math Homework Helpers are spiral bound books that provide step-by-step explanations of how (and why!) to work problems similar to *Eureka Math* homework assignments. There is one Homework Helper for each homework assignment in the curriculum. They are available for purchase in print and digital.

For more information on any of these resources, visit www.eureka.support.
